Date: 15.05.2026

Name of the Work: "Gravel filling & Pipe culvert works for Computer Centre and other miscellaneous works at BARC main campus, Atchutapuram Near Visakhapatnam, A.P"

TENDER NOTICE No.: BARC(V)/CES/CCGravelFilling/216, Dated: 24.04.2026

With reference to the site visit followed by pre-bid conference held on 12.05.2026 at 11:30 Hrs for the above mentioned tender, please find the below **Pre-bid queries & clarifications**. These shall form a part of the tender documents. Other terms and conditions of the tender remain unchanged.

S.No	Queries raised by bidders	Clarifications by BARC (V)
1	Reinforcement concrete item is not given in BOQ for this work.	Scope of work does not anticipate any RCC works hence reinforcement item is not in BoQ.
2	In BOQ Item no 2.2, soil shall be compacted to 95% proctor density and 97 % proctor density. Kindly clarify the total thickness of 97% proctor density.	97% proctor density is expected for a total thickness of about 500mm laid in layers as per item description of BOQ.
3	Is there any restriction in working Hours.	Work will be allowed round the clock subject to fulfilment of tender conditions. However, Prior intimation of work beyond office working hours and on holidays is required. Minimum one supervisor and one Safety officer shall be available during the execution of work in all shifts.
4	Whether digging of bore well is allowed within the site?	No, digging of bore well is not allowed in BARC sites. Please refer Schedule A of section VII in this regard.
5	Will BARC provide land for Labour colony?	Yes. Please refer Schedule A of section VII in this regard.
