  - b. Where the bid price is below 10% but not below 20% of the project cost put to bid, the additional performance guarantee /security percentage shall be incremented by 0.1% for every percentage of bid price below 10% of the project cost put to bid starting at 11% with the additional bid performance guarantee being 0.1% and this additional performance guarantee percentage shall be applied on the bid price.

Procuring Entity may, in such cases, seek written clarifications from the Bidder, including detailed price analysis of its Bid price in relation to scope, schedule, resource mobilization, allocation of risks and responsibilities, and any other requirements of the bid document. If, after evaluating the price analysis, the procuring entity determines that the Bidder has substantially failed to demonstrate its capability to deliver the contract at the offered price, the Procuring Entity may reject the Bid/ Proposal, However, it would not be advisable to fix a normative percentage below the estimated cost, which would automatically be considered as an abnormally low bid. Justification if required for abnormally low bid should reach this office within 07 days from issue of the letter otherwise the bid shall be liable for rejection.

Additional Performance Security (As per Memorandum No. 173/W Dated 03.01.2026) shall be furnished by the bidder when the bid amount is less than the estimated cost put to tender.
