Non submission of the above Additional Security Deposit will result into forfeiture of the EMD

The additional Security Deposit shall be refunded to the Contractor on issuing of the completion certificate by the Circle Agriculture Officer as stipulated in the Clause No 7 of the contract, provided that the engineer-in-charge, if demanded in writing by the Contractor shall, from time to time, release the Additional Security Deposit in parts which are proportionate to the amount of the completed work.

The Security Deposit will not be accepted in form of insurance, cost bond.

Note:- *This will be the same percentage as that in the tender at (e).

CLAUSE-2: COMPENSATION FOR DELAY

The time allowed for carrying out the work as entered in the tender shall be strictly observed by the Contractor and shall be reckoned from the date on which the order to commence work is given to the Contractor. The work shall, throughout the stipulated period of the contract, be proceeded with, with all due diligence (time being deemed to be the essence of the contract on the part of the Contractor) and the Contractor shall pay as compensation an amount equal to one percent or such smaller amount as the Sub Divisional Agriculture Officer, (whose decision in writing shall be final) may decide, of the amount of the estimated cost of the whole work as shown in the tender for every day that the work remains un-commenced, or unfinished after the proper date. And further to ensure good progress during the execution of the work, the Contractor shall be bound in all cases in which the time allowed for any work exceeds one month to complete.

%ofthework	%ofthetime
25%	25%
50%	50%
75%	75%
100%	100%

Note

The quantity of the work to be done within a particular time to be specified above shall be fixed and insured in balance space kept for the purpose by the officer competent to accept the contracts (after taking into consideration the circumstances of each case) and abide by the program of detailed progress laid down by the **Sub Divisional Agriculture Officer, KATOL (Page No. 75)**.

The following proportion will usually be found suitable in percentage of the time

*Reasonable progress of earth work in 1/4, 1/2, 3/4 of the total period 30%, 60%, 95% progress respectively of value of work.

In the event of the Contractor failing to comply with this condition he shall be liable to pay, as compensation, an amount equal to one percent or such smaller amount as the Sub Divisional Agriculture Officer, whose decision in writing shall be final, may decide of the estimated cost of the whole work for every day that the due quantity of work remains incomplete.

Provided always that the total amount of compensation to be paid under the provision of this Clause shall not exceed 10% of the estimated cost of the work as shown in the tender.

CLAUSE-3: ACTION WHEN WHOLE OF SECURITY DEPOSIT IS FORFEITED

In any case in which under any Clause or Clauses of this contract, the Contractor shall have rendered himself liable to pay compensation amounting to the whole of his Security Deposit (whether paid in one sum or deducted by installments) or in case of abandonment of the work, owing to serious illness or death of the Contractor or any other cause, the **Sub Divisional Agriculture Officer, Katol** on behalf of the Government of Maharashtra, shall have power to adopt any of the following courses, he may deem best suited to the interest of Government.

- a) To rescind the contract (of which rescission notice in writing to the Contractor under the hand of the **Sub Divisional Agriculture Officer, Katol** shall be conclusive evidence) and in that case the Security Deposit of the Contractor shall stand forfeited and be absolutely at the disposal of Government.
- b) To carry out the work or any part of the work departmentally debiting the Contractor with the cost of the work, expenditure incurred on tools and plants, and charges on additional supervisory staff including the cost of work-charged establishment employed for getting the un-executed part of the work completed and crediting him with the value of the work done departmentally in all respect in the same manner

and at the same rate as if it had been carried out by the Contractor under the terms of his contract. The certificate of the **Sub Divisional Agriculture Officer, Katol** as to the cost and other allied expenses so incurred and as to the value of the work so done departmentally shall be final and conclusive against the Contractor.

- c) To order that the work of the contract be measured up, to take such part thereof, as shall be unexecuted out of his hands and to give it to another Contractor to complete, in which case all expenses incurred on advertisement for fixing a new contract / agency, additional supervisory staff including the cost of work-charged establishment and cost of the work executed by the new contract agency will be debited to the Contractor and the value of the work done or executed through the new Contractor shall be credited to the Contractor in all respects and in the same manner and at the same rate as if it has been carried out by the Contractor under the terms of his contract. The certificate of the **Sub Divisional Agriculture Officer, Katol** as to all the cost of the work and other expenses incurred as aforesaid for or in getting the unexecuted work done by the new Contractor and as to the value of the work so done shall be final and conclusive against the Contractor.
- d) In case the contract, shall be rescinded under clause (a) above, the Contractor shall not be entitled to recover or be paid, any sum for any work therefore actually performed by him under this contract unless and until the **Sub Divisional Agriculture Officer, Katol** shall have certified in writing the performance of such work and the amount payable to him in respect thereof and he shall only be entitled to be paid the amount so certified. In the event of either of the courses referred to in clause (a) or (c) being adopted and the cost of the work executed departmentally or through a new Contractor and other allied expenses exceeding the value of such work credited to the Contractor, the amount of excess shall be deducted from any money due to the Contractor by government under the contract or otherwise howsoever or from his security deposit or the sale proceeds thereof provided, however, that the Contractor shall have no claim against Govt. Even if, the certified value of the work done departmentally or through a new Contractor exceeds the certified cost of such work and allied expenses, provided always that whichever of the three courses mentioned in clauses (a), (b) or (c) is adopted by the **Sub Divisional Agriculture Officer, Katol**, the Contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials, or entered into any engagements, or made any advances on account of, with a view to the execution of the work or the performance of the contract.

CLAUSE-4: ACTION WHEN THE PROGRESS OF ANY PARTICULAR PORTION OF THE WORK IS UNSATISFACTORY

If the progress of any particular portion of the work is unsatisfactory, the **Sub Divisional Agriculture Officer, Katol** shall notwithstanding that the general progress of the work is in accordance with clause, be entitled to take action under Clause- 3(b), after giving the Contractor ten days' notice in writing and the Contractor will have no claim for compensation, for any loss sustained by him owing to such action.

CLAUSE-5: CONTRACTOR REMAINS LIABLE TO PAY COMPENSATION IF ACTION NOT TAKEN UNDER CLAUSE- 3

If any case in which any of the powers conferred upon the **Sub Divisional Agriculture Officer, Katol** by Clause-3 & Clause-4 hereof shall have become exercisable and the same shall not have been exercised, then on exercise, thereof shall not constitute a waiver of any of the conditions hereof and such powers shall notwithstanding be exercisable in any future case of default by the Contractor for which under any Clause or Clauses hereof he is declared liable to pay compensation amounting to the whole of his Security Deposit and the liability of the Contractor for past and future compensations shall remain unaffected.

Power to take a possession or for require removal of for sale Contractor's plant

In the event of the **Sub Divisional Agriculture Officer, Katol** taking, action under sub clause (a) or (c) of clause 3 may, if he so desires, take possession of all or any tools, plant, materials and stores in or upon the work or the site thereof for belonging to the Contractor, or procured by him and intended to be used for the execution of the work or any part thereof, paying or allowing for the same in account at the contract rates or in the case of contract rates not being applicable at current market rates, to be certified by the **Sub Divisional Agriculture Officer, Katol** whose certificate thereof shall be final. In the alternative the **Sub Divisional Agriculture Officer, Katol** may, by notice in writing to the Contractor or his clerk of the work, foremen or other authorized agent require him to remove tools, plant, materials, or stores from the premises within a time specified in such notice, and in the event of the Contractor failing to comply with any such requisition, the **Sub Divisional Agriculture Officer**, may remove them at the Contractor's expense or sale them by auction or private sale at the risk and account of the Contractor in all respects; and the certificate of the **Sub Divisional Agriculture Officer, Katol** as to the expenses of any such removal and the amount of the proceeds and expenses of any such sale shall be final and conclusive against the Contractor.

CLAUSE-6: EXTENSION OF TIME

If the Contractor shall desire an extension of the time for completion of work on the grounds of his having been unavoidably hindered in its execution or on any other grounds, he shall apply in writing to the **Sub Divisional Agriculture Officer, Katol** before the expiry of the period stipulated in the tender or before the expiration of 30 days from the date on which he was hindered as aforesaid or on which the cause for asking for extension occurred, whichever is earlier and the **Sub Divisional Agriculture Officer, Katol** may with prior approval of the officer accepting tenders, if in his opinion there are reasonable grounds for granting an extension grant such extension as he thinks necessary or proper. The decision of the **Sub Divisional Agriculture Officer, Katol** in this matter shall be final.

CLAUSE-7: FINAL CERTIFICATE

On completion of the work the Contractor shall be furnished with a certificate by the **Sub Divisional Agriculture Officer, Katol** (hereinafter called engineer-in-charge) of such completion but no such certificate shall be given or shall the work be considered to be completed until the Contractor shall have removed from the premises on which the work shall have been executed all scaffolding, surplus materials and rubbish, and shall have cleaned off the dirt from all woodwork, doors, windows, walls, floor or other parts of any

building in or upon which the work has been executed, or of which may have had possession for the purpose of executing the work, not until the work shall **have been measured by the Agriculture Assistant**, or where the measurements have been taken by his subordinates, until they have received the approval of the Circle Agriculture Officer the said measurements being binding and conclusive against the Contractor. If the Contractor shall fail to comply with the requirements of this clause as to the removal of scaffolding, surplus materials and rubbish and cleaning of dirt on or before the date fixed for the completion of the work, the Circle Agriculture Officer may, at the expenses of the Contractor, remove such scaffolding, surplus materials and rubbish and dispose of the same as he thinks fit and clean off such dirt as aforesaid and the Contractor shall forthwith pay the amount of all expenses so incurred, but shall have no claim in respect of any such scaffolding or surplus materials as aforesaid except for any sum actually realized by the sale thereof.

CLAUSE-8: PAYMENTS ON INTERMEDIATE CERTIFICATE TO BE REGARDED AS ADVANCES

No payment shall be made for any work, estimated to cost less than Rupees one thousand, before whole of the work is completed and a certificate of completion given. But in the case of the works estimated to cost more than Rupees Five hundred ninety the Contractor shall on submitting a monthly bill thereof, be entitled to receive payment proportionate to the part of the work then approved and passed by the Circle Agriculture Officer whose certificate of such approval and passing of the sums payable, shall be final and conclusive against the Contractor. All such intermediate payments shall be regarded as payments by way of advance against the final payments only and not as payments for work actually done and completed, and shall not preclude the Circle Agriculture Officer from requiring bad unsound, imperfect or unskillful work to be removed or taken away and reconstructed or re-erected, nor shall any such payment be considered as an admission of the due performance of the contract or any part thereof in any respect or the accruing of any claim, nor shall it conclude, determine or affect in any other way the power of Circle Agriculture Officer as to the final settlement and adjustment of the accounts or otherwise, or in any other way vary or affect the contract. The final bill shall be submitted by the Contractor within one month of the date fixed for the completion of the work, otherwise the Circle Agriculture Officer's certificate of the measurements and of the total amount payable for the work shall be final and binding on all parties.

CLAUSE-9: PAYMENT AT REDUCED RATES ON ACCOUNT OF ITEMS OF WORK NOT ACCEPTED AS COMPLETED TO BE AT THE DISCRETION OF THE ENGINEER-IN-CHARGE

The rates for several items of works estimated to cost more than Rs. 1000/- agreed to within, shall be valid only when the item concerned is accepted as having completed fully in accordance with the sanctioned specifications. In cases where the items of works are not accepted as so completed, the Circle Agriculture Officer may make payment on account of such items at such reduced rates as he may consider reasonable in the preparation of final or on account bills.

CLAUSE-10: BILLS TO BE SUBMITTED MONTHLY

A bill shall be submitted by the Contractor in each month or before the date fixed by the Circle Agriculture Officer for all works executed in the previous month, and the Circle

CLAUSE-11:BILLSTOBESUBMITTEDONPRINTEDFORMS

The Contractor shall submit all bills on the printed forms to be had on application at the office of the Circle Agriculture Officer. The charges to be made in the bills shall always be entered at the rates specified in the tender or in the case of any extra work ordered in pursuance of these conditions, and not mentioned or provided for in the tender, at the rates hereinafter provided for such work.

CLAUSE-12:STOESSUPPLIEDBYGOVERNMENT

--DELETED--

CLAUSE-13:WORKS TO BE, EXECUTED IN ACCORDANCE WITH SPECIFICATIONS, DRAWINGS, ORDERS ETC

The Contractor shall execute the whole and every part of the work in the most substantial and workmanlike manner and both as regards materials and in every other respect in strict accordance with specifications. The Contractor shall also confirm exactly, fully and faithfully to the designs, drawings and instructions, in writing relating to the work, i.e. signed by the Circle Agriculture Officer and lodged in his office and to which the Contractor shall be entitled to have access for the purpose of inspection, etc., at such office or on the site of work during office hours. The Contractor will be entitled to receive three sets of contract drawings and working drawings as well as one certified copy of the accepted tender along with the work order, free of cost. Further copies of contract drawings and working drawings, if required by him shall be supplied at the rate of Rs.1000/- per set of contract drawing and Rs.120/- per working drawing except where otherwise specified.

CLAUSE-14: ALTERATION IN SPECIFICATIONS AND DESIGNS NOT TO INVALIDATE CONTRACTS

The Circle Agriculture Officer shall have power to make any alterations in, or additions to the original specifications, drawings, designs and instructions that may appear to him to be a necessary or advisable during the progress of the work, and the Contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given to him in writing signed by Circle Agriculture Officer and such alteration shall not invalidate the contract and any additional work which the Contractor may be

directed to do in the manner above specified in the tender for the main work for which no rate is specified in this contract, then such class of work shall be carried out at the rates entered in the schedule of rates of the division or at the rate mutually agreed upon between the Circle Agriculture Officer and the Contractor whichever is lower.

Rates for works not entered in estimate or schedule of rates of the district

If the additional or altered work for which no rate is entered in the schedule of rates of the division, is ordered to be carried out before the rates are agreed upon then the Contractor shall, within 7 days of the date of receipt by him of the order to carry out the work, inform the Circle Agriculture Officer of the rate which it is his intention to charge for such class of work, and if the Circle Agriculture Officer does not agree to this rate he shall by notice in writing be at liberty to cancel his order to carry it out such class of work and arrange to carry out in such manner as he may consider advisable, provided always that the Contractor shall commence work or incur any expenditure incurred by him prior to the date of the determination of the rate as aforesaid according to such rates or rates as shall be fixed by the Circle Agriculture Officer. In the event of dispute, the decision of the Sub Divisional Agriculture Officer of the circle will be final.

Extension of time in consequence of additions or alterations

The time limit for the completion of the work shall be extended in the proportion that the increase in its cost occasioned by alterations or additions bears to the cost of the original contract work and the certificate of the Circle Agriculture Officer as to such proportion shall be conclusive.

CLAUSE-15: NO CLAIM TO ANY PAYMENT OR COMPENSATION FOR ALTERNATION IN OR RESTRICTION WORK

- 1) If at any time after the execution of the contract documents the Circle Agriculture Officer shall for any reason whatsoever (other than default on the part of the Contractor for which the Government is entitled to rescind the contract) desires that the whole or any part of the works specified in the tenders should be suspended for any period or that the whole or any part of the work should not be carried out at all, he shall give to the Contractor a notice in writing of such desire and upon the receipt of such notice the Contractor shall forthwith suspend or stop the work wholly or in part as required, after having due regard to the appropriate stage at which the work should be stopped or suspended, so as not to cause any damage or injury to the work already done or endanger the safety thereof provided that the decision of the Circle Agriculture Officer as to the stage at which the work or any part of it could be or could have been safely stopped or suspended shall be final and conclusive against the Contractor. The Contractor shall have no claim to any payment or compensation whatsoever by reason of or in pursuance of any notice as aforesaid on account of any suspension, stoppage or curtailment except to the extent specified hereinafter.
- 2) Where the total suspension of work ordered as aforesaid continued for a continuous period exceeding 90 days, the Contractor shall be at liberty to withdraw from the contractual obligations under the contract so far as it pertains to the unexecuted part of the work by giving a 10 days prior notice in writing to the Engineer within 30 days of the expiry of the said period of 90 days, of such intention and requiring the Agriculture Assistant to record the final measurements of the work already done and to pay the final bill. Upon giving such notice the Contractor shall be deemed to have been discharged from his obligation to complete the remaining unexecuted work under this contract. On receipt of such notice the **Sub Divisional Agriculture Officer, Katol** shall proceed to complete the measurements and make such payment as may be finally due to the Contractor within a period of 30 days from

of this clause.

3) Where the Circle Agriculture Officer requires the Contractor to suspend the work for a period in excess of 30 days at any time or 60 days in the aggregate, the Contractor shall be entitled to apply to the Circle Agriculture Officer within 30 days of resumption of work after such suspension for payment of compensation to the extent of pecuniary loss suffered by him in respect of working machinery rendered idle on the site or on account of his having had to pay the salary or wages of labour engaged by him during the said period of suspension, provided always that the Contractor shall not be entitled to any claim in respect of any such working machinery, salary or wages for the first 30 days whether consecutive or in the aggregate of such suspension or in respect of any suspension whatsoever occasioned by unsatisfactory work or any other default on his part. The decision of the Circle Agriculture Officer in this regard shall be final and conclusive against the Contractor.

4) IN THE EVENT OF

- i) Any total stoppage of work on notice from the Circle Agriculture Officer under sub clause (1) in that behalf.
- ii) Withdrawal by the Contractor from the contractual obligation to complete the remaining unexecuted work under sub clause (2) on account of continued suspension of work for a period exceeding 30 days.
- iii) Curtailment in the quantity of item or items originally tendered on account of any alteration omission or substitutions in the specifications, drawings and designs or instructions under Clause 14(1) where such curtailment exceeds 25% in quantity and the value of the quantity curtailed beyond 25% at the rate for the items specified in the tender is more than Rs. 5,000/-.

It shall be open to the Contractor within 90 days from the service of (i) the notice of stoppage of work or (ii) the notice of the withdrawal from the contractual obligations under the contract on account of the continued suspension of work or (iii) notice under Clause 14 (1) resulting in such curtailment, to produce the Circle Agriculture Officer satisfactory documentary evidence that he had purchased or agreed to purchase material for use in the contracted work, before receipt by him of the notice of stoppage, suspension, or curtailment and require the government to take over on payment of such material at the rates determined by the Circle Agriculture Officer provided however, such rates shall in no case exceed the rates at which the same were acquired by the Contractor. The government shall thereafter take over the material so offered, provided the quantities offered are not in excess of the requirement of the unexecuted works as specified in the accepted tender and are of quality and specification approved by **Sub Divisional Agriculture Officer, Katol** [PW & H Dept. circular memorandum No. CAT 126859382 QI dated 22/2/78.]

**CLAUSE-15(A): NO CLAIM TO COMPENSATION ON ACCOUNT OF LOSS DUE TO
DELAY IN SUPPLY OF MATERIALS BY GOVERNMENT**

The Contractor shall not be entitled to claim any compensation from Government for the loss suffered by him on account of delay by Government in the supply materials entered in Schedule "A" where such delay is caused by

- i) Difficulties relating to supply of railway wagons.
- ii) Force majeure
- iii) Act of God
- iv) Act of enemies of the state or any other reasonable cause beyond the control of Government.

In the case of such delay in the supply of materials Government shall grant such extension of time for the completion of the works as shall appear to the **Sub Divisional Agriculture Officer, Katol** to be reasonable in accordance with the circumstances of the case. The decision of the **Sub Divisional Agriculture Officer, Katol** as to extension of time shall be accepted as final by the Contractor.

CLAUSE-16: TIME LIMIT FOR UNFORESEEN CLAIMS

Under no circumstances, whatsoever, shall the Contractor be entitled to any compensation from Government on any account unless the Contractor shall have submitted a claim in writing to the Circle Agriculture Officer within one month of the cause of such claim occurring.

CLAUSE-17: ACTION AND COMPENSATION PAYABLE IN CASE OF BAD WORK

SPECIAL CONDITIONS OF THE CONTRACT

(These will apply to all items of work set etc. as relevant)

1. OUTLINE OF WORK

- 1.1 The work will be on the lines of the set of plans attached to the Tender documents. However, the plans are liable to be changed in the course of execution and the strata shown thereon are approximate.
- 1.2 The items of work and their approximate quantities are given in Schedule "B" of the Tender.
- 1.3 The specifications of the work shall be as per the Detailed General Specifications attached to this Tender and shall be strictly enforced.
- 1.4 All levels shown in the drawings are approximate and depths of excavation are likely to be increased or decreased depending upon the strata met with during actual excavation. No claims on account of change in depth of strata or change of slopes will be entertained. The designed layout shown in the Tender drawings is tentative and is subject to modifications. Such modifications shall not be a reason for any claim.

2. UNIT OF QUOTING RATE

- 2.1 The percentage above or below shall be quoted with respect to the estimated rates in Schedule "B"

3. SITE CONDITIONS

- 3.A It shall be presumed that the Contractor has satisfied himself as to the nature and location of the works, the general and local conditions, particularly those bearing on material availability, transport, handling and storage of materials, disposal of spoils, availability of labour, weather conditions, sources of water etc. and has estimated the cost accordingly. Government will bear no responsibility for any lack of such acquaintance with the site conditions and the consequence thereof to the Contractor.

3.B HOUSING

No local housing is available and the Contractor should arrange for suitable housing for his staff and labour, offices, etc. at his own cost within the area of work, as directed by the Circle Agriculture Officer. Land for the same will be made available free of charge for temporary use during the course of execution, if available with the Department.

- 3.C It is the responsibility of the Contractor to provide firewood for the domestic use of the workers at the project site.

a. WATER SUPPLY AND DRAINAGE

- i. The Contractor shall make his own arrangements at his cost for the water supply to his colony and to the work site required for the work. The details of his proposed supply shall be approved by the Circle Agriculture Officer. Fresh and potable drinking water shall be made available by the Contractor to all persons working at work site.

- i) The operative period of the contract shall mean the period commencing from the date of work order issued to the Contractor and ending on the date on which the time allowed for the completion of the work specified in the contract for work; expires, taking into consideration the extension of time-limit, if any, for completion of the work granted by the engineer under the relevant clause of the Conditions of Contract, in cases other than those, where such extension is necessitated on account of default of the Contractor. The decision of the engineer as regards the operative period of the contract shall be final and binding on the Contractor. Where any compensation for liquidated damages is levied on the Contractor on account of delay in completion or inadequate progress under the relevant contract provisions, the price adjustment amount for the balance of work from the date of levy of such compensations shall be worked out by pegging the indices L_0 , M_0 and P_0

and also CL0, SL0 to the levels corresponding to the date from which such compensation is levied.

- ii) The price variation shall be determined during each quarter as per formula given above in this clause.
- iii) The price variation under this Clause shall not be payable for the extra items required to be executed during the completion of the work and also on the excess quantities of items payable under the provisions of Clause-38 of the contract form B-1. Since the rates payable for extra items or the extra quantities under Clause-38 are to be fixed as per current DSR or as mutually agreed to, yearly revision till completion of such work. In other words, when the completion / execution of extra items as well as extra quantities under Clause-38 of the contract form B-1 extends beyond the operative date of the DSR, then rates payable for the same beyond the date shall be revised with reference to the current DSR, prevalent at the time, on year to year basis or revised in accordance with mutual agreement thereon, as provided for in the contract, whichever is less.
- iv) This clause is operative both ways, i.e. if the price variation as calculated above is on the plus side, payment on account of the price variation shall be allowed to the Contractor and if it is on the negative side, the government shall be entitled to recover the same from the Contractor and the amount shall be deductible from any amounts due and payable under the contract.
- v) To the extent that full compensation for any rise or fall in costs to the Contractor is not entirely covered by the provision of this or other clauses in the contract, the unit rate and prices included in the contract shall be deemed to include amount to cover the contingency of such other actual rise or fall in costs.

35. INSURANCE FOR CONTRACT WORK

The Contractor shall take out an Insurance Policy or Policies so as to provide adequate insurance cover for the execution of the awarded Contract work from the 'Director of Insurance, Maharashtra State, Mumbai- 400 101' only. Its postal address for correspondence is "264, Mhada, opposite Kalanagar, Bandra (E), Mumbai - 400101, (Tel.No.26438410)(Fax)26438461/26438690, Insurance policy/policies taken out from any other company will not be accepted. However, if the Contractor desires to effect insurance with the local office of any other insurance company, the same should be under the co-insurance-cum-servicing arrangements approved by the Director of Insurance. If the policy taken out by the Contractor is not on a co-insurance basis (G.I.F. 60% and insurance company 40%) approved by the Government Insurance Fund, the policy will not be accepted and the amount and the premium calculated by the Director of Insurance will be recovered directly from the amount payable to the Contractor for the executed work.

37. MODE OF PAYMENT OF THE QUANTITIES OF EXCAVATION, MASONRY AND CONCRETE ITEMS EXECUTED IN EXCESS OF 125%

Clause No. 38 of B-1 Tender form pertains to payment of quantities of different items of schedule 'B' in excess of 125% of the tendered quantities. It is to be clarified that in case of items of excavation in soft strata and hard strata in the present Tender, this clause will become applicable only if the total quantity of excavation (i.e. quantity given for excavation in Part-I or Part-II excavation in soft strata and quantity given for excavation in hard strata) exceeds by 125% during execution. Quantity of excavation in Part-I (soft and hard strata) and in Part-II (soft and hard strata) will be considered separately for this purpose. For payment of quantity executed in excess of 125% of total quantity of excavation, the following procedure will apply.

EXECUTED QUANTITY OF INDIVIDUAL ITEM EXCAVATION

CASE-1

Where the quantity of excavation executed exceeds 125% total of tendered quantity of items of excavation in soft strata and hard strata, but quantity executed of any one of the individual items is less than or equal to the tendered quantity, for that item all the excess quantity beyond 125% of total tendered quantity in items of excavation in soft and hard strata, will be **paid by revising the rate of only that item where excess has occurred.**

CASE-2

Where total quantity of excavation executed for both items (excavation in soft strata and hard strata) exceeds 125% of the total tendered quantity, quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of excavation to total executed quantity of item of excavation in soft strata and hard strata.

Total executed quantity of items of excavation in soft strata and hard strata will be paid by revising the rate of individual items as per clause 38 (2) subject to the provision that the revision of rate will be applicable only for the quantity of individual item executed beyond 125% of the tendered quantity.

In case if executed quantity is less than 75% of the total quantity of excavation in soft strata and hard strata, these will be treated on similar lines as (1) and (2) above.

CASE-3

Where total quantity of all masonry items taken together exceeds 125% of the total tendered quantities of all masonry items, quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of masonry to total executed quantity of all masonry items taken together. Total executed quantity of items of masonry will be paid by revising the rate of individual items as per clause 38 (2) subject to the provision that the revision of rate will be applicable only for the quantity of individual item executed beyond 125% of the tendered quantity.

In case of executed quantity less than 75% of the total quantity of all masonry items, these will be treated on similar lines as (1) and (2) above.

CASE-4 Where total quantity of all concrete items taken together exceeds 125% of the total tendered quantities of all concrete items, quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of concrete to total executed quantity of all concrete items taken together. Total executed quantity of items of concrete will be paid by revising the rate of individual items as per clause 38, (2)

subject to the provision that the revision of rate will be applicable only for the quantity of individual item executed beyond 125% of the Tendered quantity.

In case of executed quantity less than 75% of the total quantity of all concrete items, these will be treated on similar lines as (1) and (2) above.

CASE-5

Where total quantity of all pitching (available + borrow) items taken together exceeds 125% of the total tendered quantities of all pitching (available + borrow) items, quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of pitching to total executed quantity of pitching (available + borrow) items taken together. Total executed quantity of items of pitching will be paid by revising the rate of individual item as per clause 38(2) subject to the provision that the revision of rate will be applicable only of the quantity of individual item executed beyond 125% of the tendered quantity.

In case of executed quantity is less than 75% of the total tendered quantity of all pitching (available + borrow) items taken together these will be treated on similar lines as in case (1) and (2) above.

CASE-6

Where total quantity of all rock toe (available + borrow) items taken together exceeds 125% of the total tendered quantities of all rock toe (available + borrow) items, quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of rock toe to total quantity of rock toe (available + borrow) items taken together and will be paid by revising the rate of individual item as per clause 38(2) subject to the provision that the revision of rate will be applicable only of the quantity of individual item executed beyond 125% of the tendered quantity.

In case of executed quantity is less than 75% of the total quantity of all rock toe (available + borrow) items taken together these will be treated on similar lines as it case (1) and (2) above.

CASE-7

Where total executed quantity of all Embankment (1) Hearting (available & borrow) (2) Casing (available and borrow) items taken together exceeds 125% of the total tendered quantities of all Embankment (1) Hearting (available & borrow) (2) Casing (available and borrow), items quantity in excess of 125% of total tendered quantity will be distributed in the ratio of executed quantity of individual item of Embankment i.e. (1) Hearting (available & borrow) or (2) Casing (available and borrow) to total executed quantity of all Embankment (1) Hearting (available & borrow) (2) Casing (available and borrow), items taken together. Total executed quantity of Embankment (1) Hearting (available & borrow) (2) Casing (available and borrow) items will be paid by revising the rate of individual item Embankment i.e. (1) Hearting (available & borrow) or (2) Casing (available and borrow), as per clause 38(2) subject to the provision that the revision of rate will be applicable only to the quantity, if individual item executed beyond 125% of the tendered quantity.

In case of executed quantity is less than 75% of the total quantity of all Embankment (1) Hearting (available & borrow) (2) Casing (available and borrow), items taken together these will be treated on similar lines as in case (1) and (2) above.

For payment of quantities in excess of 125% of tendered quantity, for items other than excavation, masonry, concrete and embankment items provision of clause 38(2) of B1 Tender Form will be applicable.

Payment of work done under items of excavation in soft strata and hard strata will be made @ 90% of the contract rate in R.A. bills for all excavated quantities; till the final designed levels of excavation are achieved, as confirmed by Circle Agriculture Officer. The cross section as per design shall be deemed to have been achieved only if no work remains to be executed between the two adjacent cross section of Canal. 100% payment of contract rate in R.A. bills may be released only after the work of excavation is completed between two adjacent cross sections and continuously from one end of canal to the other. No Intermediate reaches will be considered.

38. ADDITIONAL CONDITIONS

- 38.1 The Contractor shall have at least **1 No. qualified Engineer/ Agril. Supervisor** (full time employees) with a minimum of 3 to 8 years experience assigned to supervise the work. At least 1 supervisor shall be on site at all times. Engineer on contract will not be accepted.
- 38.2 The Contractor shall have a well established field laboratory necessary for soil testing, sand testing and concrete sampling (testing equipment should be owned by him) setup on site, with experienced staff to carry out the tests.
- 38.3 Quality control on the site shall be the responsibility of the Engineer-in-charge with necessary equipment and labour made available by the Contractor. It is responsibility of the Contractor to prove the site engineer that his work meets the required specifications. The responsibility of the daily quality control of work will be of the Site Engineer who will be given necessary guidance and administrative support from the Engineer in Charge. The Engineer in Charge will be overall in-charge of the quality control on this work. The cost involved with the quality control on the site is responsibility of the Contractor.
- 38.4 All references to "Proctor Density" "Modified Proctor Density" or "Standard Proctor Density" in the Contract documents should be taken to mean "Standard Proctor Density" in the context of this Contract.
- 38.5 In executing the work, the Contractor should undertake the earthworks, masonry works and concrete works simultaneously in order that the work can be completed within the shortest possible period.
- 38.6 The final payment to the Contractor will only be made after a Completion Report for the works has been approved by the Circle Agriculture Officer and the Certificate of Completion has been issued (as per clause 7 of Conditions of Contract). The Completion Report is to comprise of (1) record drawings (2)

SECTION-1

EDEXCAVATION

ED-E:SCOPE

Excavation is mainly classified to its purpose under

- 1) Excavation for bund.
- 2) Excavation for leveling.

The item includes furnishing of all tools, plant, labour and material required for carrying out excavation in all strata including conveyance and disposal in a manner hereinafter specified and all operations within the intent and purpose of the item.

The item of excavation for other purposes shall include furnishing of all tools, plant, labour and material required for carrying out excavation in different strata for the various parts as denoted in the drawings, and removing and disposal in a manner hereinafter specified with all leads and lifts, maintaining the excavated slopes and trenches and all operations covered within the intent and purpose of the item. The rate also includes excavation in wet and moist conditions occurred in.

ED-E2: CLEARANCE OF SITE OF WORK

All areas required for the construction of the dam and appurtenant works and the surface of all borrow pits shall be cleared of all trees, stumps, bushes, roots, vegetation and other objectionable materials. All such materials shall be removed from the site so as not to interfere with construction and maintenance of the project and shall be disposed off as directed by the Circle Agriculture Officer to such disposal areas as directed. All trees cut and all materials from the dismantled structures shall be the property of government and shall be stacked at suitable places as directed by the Circle Agriculture Officer.

The cost of clearance as specified above is deemed to be included in the item of excavation for dam and appurtenant works.

ED-E3: BASELINES AND GRADES

Before starting the work, one reference line and Bench Marks will be established by the department. Permanent baselines and cross lines shall be established by the Contractor at sufficiently close intervals with Bench Marks at all end points to serve as "Reference Grid". The Contractor shall provide at his expense all templates, pillars and stakes, equipment, materials and labour for establishing the Grid lines and the pillars, and shall be responsible for their maintenance during the whole season of construction. These shall be laid out with the prior approval of the Circle Agriculture Officer. No baseline or benchmark or reference mark shall be used as reference line for the work, without prior approval of the Circle Agriculture Officer. The Contractor shall maintain a certified copy of such approved reference lines, bench-marks and levels and shall not remove any of them without the prior approval of the Circle Agriculture Officer. The reference points and pillars, already established by the department in the works area

ED-E4:CLASSIFICATIONOFSTRATA

Thestrataof excavationshallbeclassified asunder:-

- 1) Hardstrata.
- 2) Softstratawithsoftrock.

DEFINITIONOFSTRATA

HARDSTRATA

This shall include all rocks occurring in masses which normally needs regular blasting for quarrying (Note: It shall also include rock which owing to the proximity of building or for any other reasons has to be cut by means of chisels or wedges). It shall also include boulders in mass, isolated boulders in mass and isolated boulders over 0.1 cum each, which normally require blasting or wedging and breaking for removal.

SOFTSTRATAWITHSOFTROCK

This shall include all material which is rock but does not need blasting and could be removed with pick, bar and shovel. It shall also include boulders up to 0.1 cubic meter each which normally do not need blasting and could be removed with a pick, bar and shovel.

This shall include all kinds of materials such as shale, indurate clay, soil, silt, sand, gravel, silt, average and hard murum and any other material which can best be removed with a shovel after loosening with pick and/or bar. It shall also include isolated boulders up to 0.1 cubic meter each which normally do not need blasting and could be removed with a pick, bar and shovel.

At the change of the strata the Contractor shall inform the department in writing before proceeding with the excavation in the hard strata. The Circle Agriculture Officer may thereupon cause to take levels of the finished excavation in the soft strata.

The decision of the Circle Agriculture Officer regarding classification of strata shall be conclusive and binding on the Contractor. No distinction shall be made whether the material is dry or wet.

ED-E6:SHORINGANDSTRUTTING

MAINTENANCEOFEXCAVATIONSLOPES

Any shoring and strutting required during construction shall be deemed to be covered by the rates quoted for the items. The Contractor shall be responsible for the adequacy of the excavated stuff. If at any particular location the Contractor considers it necessary, in the interest of safety to provide safety measures, shall forthwith bring the same to the notice of Circle Agriculture Officer and

obtain the order thereon. Such additional excavations shall be paid for at the rates accepted for the particular class of material.

Before excavation of the trenches to the final slopes it is necessary that the Contractor shall first ascertain the strata classification by excavating a pilot section and only after the strata is classified, adjust the said slopes to final designed section. The Contractor is not entitled for any extra payment on this account and the tendered rate is deemed to be inclusive of it.

SLIPS

Every precautions shall be taken to prevent slips. But should slips occur, the slipped material shall be removed to slopes as directed. Removal of such material shall not be paid for. No compensation shall be paid to the Contractor because of mishaps arising out of slips.

ED-E8: EXCAVATION OUTLINE AND PAY LINE FOR OTHER THAN FOUNDATION**STRUCTURE**

All excavations shall be performed in accordance with the lines, grade levels and dimensions shown in the drawing or established by the Circle Agriculture Officer. The dimensions shown in the drawing are tentative. During the progress of work it may be found necessary or desirable to vary the slopes or the dimensions of excavation from those specified in the drawings. The side slopes to the excavations shall be as steep as would stand with safety as decided by the Circle Agriculture Officer and, slopes would be normally as per table given below or less subject to safety.

Table	Slope	Table	Slope	Table	Slope
Sand	1:1	HM/HMB	$\frac{1}{4}$:1	SR above 3m depth	1/4:1
Soil /S.M	$\frac{1}{2}$:1	S.R. & HR Upto 3m	Vertical	HR above depth 3m	1/8:1

If the slopes established are found to be steeper and likely to slip, they shall be made flatter removing the additional material and introducing suitable berms if possible and stable faces established as decided by the Circle Agriculture Officer. The additional excavation when ordered by the Circle Agriculture Officer will be paid at the rates accepted for excavation for the particular class of material.

PAY LINES AND EXCESS EXCAVATION IN CASE OF FOUNDATION OF STRUCTURES

No payment shall be made for the work done beyond the specified pay lines. Payment lines for different strata for all excavation is defined as the lines starting from the outer dimensions of masonry or concrete at foundation levels and sloping up conforming to the side slopes as above specified in the table above.

Notwithstanding standards given herein before for the excavation outlines and Contractor shall take care to see that no slips or accidents occur and that the slopes are stable if necessary he shall carry out necessary shoring and strutting at his own cost.

Any or all excavation carried out by the Contractor for any purpose or reasons shall unless ordered in writing by the Circle Agriculture Officer be at the expense of the Contractor and if the unauthorized excavation has to be filled with concrete or masonry or with materials as specified by the engineer-in-charge, filling so needed, shall be carried out by the Contractors as per the specifications of the respective items of works at his own expense.

ED-E9 DISPOSAL OF EXCAVATED MATERIALS**Deposition of excavated stuff clear of traffic lines, etc.**

Before any excavation is started, the deposition of spoil shall be carefully planned so as not to obstruct traffic lines required for transport of the construction materials.

Signature of Contractor

Sub Divisional Agriculture Officer

The excavated material shall be dumped sufficiently clear off the edges of excavation so as not to endanger stability of the excavation and also permit ample space for tramways, lorry patches, installation of lifting and pumping devices, stacking construction materials, etc.

CONVEYANCE OF MATERIAL

All the excavated materials from excavation shall be selected by removing roots, grass, organic matter, and other objectionable matter and be sorted out into different types of materials for use in different zones of the dam as directed by the Circle Agriculture Officer. The same shall be loaded in the vehicles proceeding directly to the place of use except such material as is required to be stockpiled.

MODE OF HEAPING OF OTHER USEFUL MATERIALS

The useful materials that cannot be used directly shall be heaped in separate area with reference to the nature of the material. Stockpiles shall be of as regular size as possible allowing of easy measurements.

The material once heaped shall be utilized as and when and where required and as directed by the Circle Agriculture Officer. The cost of complete item of excavation includes the cost of re-handling of the materials so temporarily heaped and reused.

THE FREE USE OF USEABLE EXCAVATED SPOIL

All usable spoils of excavation whether done by the Contractor or department or through other agencies fixed by the department will be available free of cost for use by the Contractor on the construction of the dam only, when it is not required by the department.

DISPOSAL OF WASTE MATERIALS

The waste materials shall be heaped in spoils banks in regular shape with suitable slopes as directed and properly trimmed so as to present a neat appearance of that may be wasted in other approved locations. The spoil-banks shall be located in such a way that they will not interfere with the natural flow of the river.

No material shall be wasted where it will detract from the appearance or interfere with the accessibility of completed structures. Excavated materials shall not be carelessly thrown over the premises and shall be deposited directly in permanent positions consistent with proper execution of work. The rate of disposal is included in **the excavation item**

LEADS AND LIFTS

The unit price shall include all leads and lifts in the above operations as per RSR of water Resources Dept

ED-E10:MEASUREMENTSANDPAYMENTS

The measurement shall be based on areas of cross section taken normal to the axis of structure of its part of the original ground surface and the surface of finally completed excavation within the pay lines, taken at every 15 meters along with axis of structure of its part. Where there is abrupt change in depth, additional cross section may be taken at the discretion of the Circle Agriculture Officer. Levels along the cross section shall be taken at every 15 to 20 meters or 5 meters as per exigency of work.

During the execution of the work, running payments for the items of the excavation will be made to Contractor at 90% of his tender rate for the item. The remaining payments for this item will be progressively released depending upon the progress of completion of the item of excavation. The part rate will be reviewed by the Circle Agriculture Officer when he feels necessary and decision of the Circle Agriculture Officer shall be final and binding on the Contractor. During the excavation of the work, running payment for the items of excavation will be made to the Contractor on the basis of cross sectional measurements.

MODE OF MEASUREMENT AND PAYMENT:

No separate payment will be made for this preparation work as it is considered to be included in the rates for the excavation and/proceeding earth, concrete or masonry work.

ED-B2:BORROWAREAS**GENERAL**

All materials required for construction of embankment, or backfill, which are not available from the compulsory excavation (for cut off trench, masonry dam foundations, drains, etc.) shall be obtained from the contractor's own borrow areas. Borrow pits shall be opened at the location and to the limits, as per directions of the Circle Agriculture Officer. As far as practicable the borrow areas going under submergence on up-stream sides shall be tacked first. The contractor is expected to have his own prospecting carried out before tendering for the works. The data presented therein are to be taken only as guidance and no claim shall be entertained in further due to lack of conformity between the nature and quantity of material actually met with during construction.

PRIOR APPROVAL TO BORROW AREA BEFORE START OF WORK

Before any borrow area is opened the material from the borrow area to be used in particular zone in the earth dam should be got approved from Circle Agriculture Officer

STRIPPING OF BORROW AREAS

Before opening of borrow area from where the material is to be obtained, the area shall be cleared off all trees, stumps, etc. and stripped to remove the top soil, humus, vegetable matter organic matter, roots, rubbish, and all other objectionable material which is unsuited for the purpose for which the borrow pit is to be excavated. All such material shall be removed to such disposal areas as directed by the Circle Agriculture Officer. In no case shall the stripped material be allowed to contaminate the material going into the embankment. All trees cut shall be the property of Government and shall be stacked at suitable place as directed by the Circle Agriculture Officer

The rate for embankment including use of material from borrow areas includes the clearing and stripping of the borrow areas and disposing of the waste material as directed. The cleared and stripped areas shall be maintained free from vegetable growth adequately and drained during the progress of work, without any extra cost.

EXPLOITATION OF BORROW AREA

- A. Where the borrow pits are opened adjacent to the dam, the edge of excavations shall be at a distance of five times of the height of the dam opposite as measured above the top level of edge of excavation to the top of the dam subject to the minimum distance of 100 meters from the toes of the dam.
- B. Where no positive cut off is provided, care shall be taken to see that no previous strata are uncovered by excavation of borrow pits on the water side of the dam within a distance of ten times the height of the dam as measured from the upstream toe of the dam.
- C. Borrow pits shall be so worked that selected materials will be furnished as required, as close as practicable to the point of utilization so that they will not interfere with the location of permanent structure nor the usefulness or appearance of any of the work.

- D.** The formation of pools shall be avoided to avoid spoiling of useful material and also bad appearance and all borrow pits shall be drained as necessary by ditches to the

nearest cut falls. All borrow pits except those that would be submerged in the reservoir shall be connected to each other and the last borrow pits to the nearest drainage channel so as to avoid stagnation of water. The bottom of the pits shall be so fixed, that the pits drain into some natural course.

- E. No borrow areas should be taken of roads, village tracks, canals, etc. occurring in the borrow areas.
- F. All borrow areas shall be arranged with certain amount of regularity having regard to the convenience of the work during excavation and to its safety and appearance of finish after its completion.

ED-8: MODE OF MEASUREMENT

- a) The work shall be measured on the basis of cross section
- b) The lines demarcating the zone of cross section shall confirm to the respective typical sections except where departure from these are specially permitted by the agril. officer.
- c) All measurements shall be taken on cross section at the interval of 15 meter or less as directed before an embankment of a particular reach starts..
- d) All measurements shall be taken on cross section of bank. For this purpose detailed cross section of the ground shall be taken at the interval of 15 meter. Deduction in quantities of bank work and CNS bank shall be made for bulkage at the rate of 25%.

DESIGNANDDRAWINGS

1.0 SCOPE:

As stated in Annex-A of section I.

2.0 DESIGNANDDRAWINGS:

The drawings enclosed herewith are tentative. The contractor shall carry out layout studies including cost economics by examining all possible alternative to prepare detailed layout, designs and drawings of all components of the works stated in schedule B.

The Contractor shall use guide lines in the relevant IS code / CDO codes prepared by **Sub Divisional Agriculture Officer** on various components of the work.

All the studies, layout drawings component wise design and drawings and Modification if required to be prepared for taking up execution of the works as stated in schedule B shall be prepared by the Contractor and shall be got verified / vetted by **Sub Divisional Agriculture Officer**. After verification / vetting by the Contractor will have to submit the vetted design notes and drawings to the Circle Agriculture Officer for approval. Such drawings / designs will be approved or otherwise by the Circle Agriculture Officer within 15 days. For the purpose of approval the Contractor shall submit 5 copies to the Circle Agriculture Officer. Such fees shall have to be borne by the Contractor.
