| 1       | <b>B862-000-16-51-SP-1755</b>        | 7 of 9     | 2.3.4      | Colour of overall jacket insulator shall be orange with blue longitudinal stripes. The number of longitudinal strips shall be minimum of 3.           | Due to cable diameter, 3 longitudinal strips are not possible. We recommend 1 longitudinal strip.          | Bidder to follow MR spec |
| 2       | <b>B862-000-16-51-SP-1755</b>        | 7 of 9     | 2.4.3      | Colour of overall (outer) jacket insulation shall be orange with black longitudinal stripes. The number of longitudinal strips shall be minimum of 3. | Due to cable diameter, 3 longitudinal strips are not possible. We recommend 1 longitudinal strip.          | Bidder to follow MR spec |
| 3       | Datasheet Non-Fieldbus Signal Cables | 161 of 209 |            | Outer Jacket Colour: Orange with Green Longitudinal Strips (2 Strips)   | Due to manufacturing constraint 2 longitudinal strips are not possible. We recommend 1 longitudinal strip. | Bidder to follow MR spec |
| 4       | Datasheet Non-Fieldbus Signal Cables | 162 of 209 |            | Outer Jacket Colour: Orange with White Longitudinal Strips (2 Strips)   | Due to manufacturing constraint 2 longitudinal strips are not possible. We recommend 1 longitudinal strip. | Bidder to follow MR spec |
