

Group	Bidder Queries	EIL Response																																
Group 1:	<p>As per the tender requirement, the end of line flame arrester shall be suitable for Gas Group IIA/IIB. Please be informed that, our end of line flame arrester is suitable for Gas Group IIA, not for the Gas group IIB. We can submit for this Group if the Gas group IIA is acceptable to EIL. Please review and confirm.</p>	Bidder to follow MR spec.																																
	<p>Two datasheets have been provided for each tag in the MR. In one datasheet, the Flame Bank (comprising the flame element/internal component and housing) is specified as SS316. However, in the other datasheet for the same tag, the internals MOC is specified as SS304L. Please refer to the snapshots below from both datasheets. Kindly confirm the final required</p> <table border="1" data-bbox="329 470 1383 590"> <tr> <td>19</td> <td colspan="3">Material of Construction:</td> </tr> <tr> <td>a.</td> <td>Body</td> <td>Flange</td> <td>ASTM A 216 Gr.WCB</td> </tr> <tr> <td>b.</td> <td>Shell</td> <td>Bank</td> <td>KCS + 3 mm CA</td> </tr> <tr> <td>20</td> <td colspan="3">Bank Type</td> </tr> <tr> <td></td> <td colspan="3">Retractable</td> </tr> </table> <table border="1" data-bbox="329 611 1383 684"> <tr> <td colspan="4">MATERIAL OF CONSTRUCTION</td> </tr> <tr> <td>SHELL</td> <td>KCS + 3 MM CA</td> <td>KCS + 3 MM CA</td> <td>KCS + 3 MM CA</td> </tr> <tr> <td>INTERNALS</td> <td>SS 304L</td> <td>SS 304L</td> <td>SS 304L</td> </tr> </table>	19	Material of Construction:			a.
