A. GENERAL

1. Scope of Bid

- 1.1 The Employer/Authority (named in Appendix to ITB) invites bids for the construction of works (as defined in these documents and referred to as "the works") detailed in the table given in IFB. The bidders may submit bids for any or all of the works detailed in the table given in IFB.
- 1.2 The successful Bidder will be expected to complete the Works by the Intended Completion Date specified in Section 3-Conditions of Contract, scope of work, technical specification and maintenance for 5 years from the date of completion as per SOP and maintenance manual.
- 1.3 Throughout these documents, the terms "bid" and "tender" and their derivatives (bidder/ tenderer, bid/ tender, bidding/ tendering, etc.) are synonymous.

2. Source of Funds

- 2.1. The expenditure on this project will be met from the budget of Govt. of U.P. and Shaskiya Nikay.

3. Eligible Bidders

- 3.1 This Invitation for Bids is open to all bidders.
 - a) A Bidder bidding individually or as a member of a Joint Venture (JV) shall not be entitled to submit another Bid either individually or as a Member of any Joint Venture (JV), as the case may be;
 - b) The term Bidder used herein would apply to both a single entity and a Joint Venture;
 - c) The Bidder shall be legally competent to enter into an Agreement as per prevailing Indian law;
 - d) A Bidder shall not have a conflict of interest (the "**Conflict of Interest**") that affects the Bidding Process. Any Bidder found to have a Conflict of Interest shall be disqualified. A Bidder shall be deemed to have a Conflict of Interest affecting the Bidding Process, if:
 - i. the Bidder have common controlling shareholders or other ownership interest in the other Bidder;
 - ii. A constituent of such Bidder is also a constituent of another Bidder; or
 - iii. Such Bidder receives or has received any direct or indirect subsidy or grant from any other Bidder; or
 - iv. Such Bidder has the same legal representative for purposes of this Bid as any other Bidder; or

- v. Such Bidder has a relationship with another Bidder, directly or through common third parties, that puts them in a position to have access to each other's information about, or to influence the Bid of either or each of the other Bidder; or
 - vi. Such Bidder (including its member or any shareholder thereof) possessing over 25% of the paid up and subscribed capital in its own company, also holds more than 25% of the paid up and subscribed equity capital in the other Bidder and its Member of such other Bidder;
 - vii. The Bidder has employed the current employee/s of the Tender Inviting Authority (TIA); or any close relatives of the Bidder currently employed by the TIA, whether on a permanent or contract basis;
 - viii. Any of its affiliates participated as a consultant in the preparation of the design or technical specifications of the works that are the subject of the Bid; or
 - ix. Any of its affiliates has been hired (or is proposed to be hired) by the Employer as Project Manager for the Contract implementation;
 - x. Would be providing goods, works, or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of the project specified in the RFP that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm;
 - xi. A Bidder shall be liable for disqualification if any legal, financial or technical adviser of the Employer in relation to the Project is engaged by the Bidder, or any of its Members, as the case may be, in any manner for matters related to or incidental to the Project. For the avoidance of doubt, this disqualification shall not apply where such adviser was engaged by the Bidder, its Member in the past but its assignment expired or was terminated 6(six)months prior to the date of issue of this RFP.
- 3.2 All bidders shall provide in Section 2, Forms of Bid and Qualification Information, a statement that the Bidder is neither associated, nor has been associated, directly or indirectly, with the Consultant or any other entity that has prepared the design, specifications, and other documents for the Project or being proposed as Project Manager for the Contract. A firm that has been engaged by the Employer to provide consulting services for the preparation or supervision of the works, and any of its affiliates, shall not be eligible to bid.
- 3.3 The Bidder shall not have been blacklisted by any Government Agency or have abandoned any work on any Government Organization nor any contract awarded to us for such works have been rescinded, or proved to have indulged in serious

fraudulent practices by a Court of Law or an independent Commission of Inquiry in India or abroad at the time of Bid Due Date.

- 3.4 Bidders should have valid PAN card and GST registration in India.
- 3.5 Deleted.
- 3.6 The Authority requires that the bidders / contractors observe the highest standard of ethics during the procurement and execution of such contracts and at all times hold the Authority's interest paramount, avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Agency shall not accept or engage in any assignment that would be in conflict with its prior or current obligations to other clients, or that may place it in a position of not being able to carry out the assignment in the best interests of the Authority.
- 3.7 The Bidder has to be produced character Certificate (T-4), Solvency Certificate (T-5) issued by the competent authority in true copies of original with bid document and originals is to be produced and verified before acceptance of bid, Self-Declaration Affidavit (T-6) on Rs.100.00 Non Judicial Stamp paper (on the prescribed proforma which is attached with the bid document as per section 8) etc.
- 3.8 Banker's Certificate (solvency certificate) from a Commercial Bank or Net worth Certificate: Banker's Certificate of the amount equal to 40% of the Estimated Cost, or Networth certificate of minimum 10% of the estimated cost put to tender issued by certified Chartered Accountant with UDIN.
- 3.9 Invitation for bids is open to all Bidders (Contractor) registered with autonomous body/Public Sector Department/ State Government/Central Government or any government department in appropriate **class A** (at least lead partner in case of JV)

4. Qualification of the Bidder

- 4.1 All Bidders shall provide in Section 2, Forms of Bid and Qualification information in the form of affidavit on 100 rupees' non-judicial stamp paper (with all column filled up only attached written form will not be accepted), a preliminary description of the proposed work method and schedule, including drawings and charts, as necessary.
 - 4.1.1 Bidder should have valid registration with Employees Provident Fund organization under EPF and Miscellaneous Provisions Act, 1952.
- 4.2 Deleted.
- 4.3 All bidders shall include the following information and documents with their bids in Section 2:

- a. Copies of original documents defining the constitution or legal status, place of registration, and principal place of business; written power of attorney of the signatory of the Bid to commit the Bidder;
- b. Total monetary value of civil construction work performed for each of the last five years;
- c. Experience in works of a similar nature **(at least one similar works of the Lead Bidder). and size(at least one 40 % in case of three similar works/one 50% in case of two similar works/ one 80% in case of similar nature works estimated project cost) for each of the last five years** (Similar Works defined in Clause 4.5 A below) and details of works underway or contractually committed along with the details of clients who may be contacted for further information on those contracts;
- d. Evidence of ownership of major items of construction equipment as per requirement in the construction of road, evidence of arrangement of possessing them on hire/lease/buying as defined therein;
- e. Details of the **technical personnel** proposed to be employed for the Contract having the qualifications defined in Annexure II;
- f. Reports on the financial standing of the Bidder, such as profit and loss statements, balance sheets, ITR and auditor's reports for the **past any three years of last five years.**
- g. Evidence of access to line(s) of credit and availability of other financial resources facilities (10% of contract value), certified by the Bankers (not more than 3 months old);
- h. Undertaking that the bidder will be able to invest a minimum cash upto 25% of contract value of work, during the implementation of work;
- i. Authority to seek references from the Bidder's bankers;**Authority to seek references on the bidder's letter head will not be accepted;**
- j. Information regarding any litigation, current or during the last five years, in which the Bidder is involved, the parties concerned, and the disputed amount; and the matter;
- k. Deleted;
- l. The proposed methodology and programme of construction, backed with equipment planning and deployment, duly supported with broad calculations and qualitymanagement control procedures proposed to be adopted, justifying their capability of execution and completion of the work as per technical specifications within the stipulated period of completion as per milestones;
- m. Deleted;
- n. Deleted.

- o. The contractor has to show all the ongoing work all over the country as mentioned in section 2; and
- p. The contractor should submit the all affidavit(s) as mentioned in Section 2.

4.4. The Joint Venture (JV) :

Bids submitted by a Joint Venture (JV) of not more than two firms as partners shall comply with the following requirements:

- (a) There shall be a Joint Venture Agreement (Refer Annexure III to ITB) specific for these contract package(s) between the constituent firms, indicating clearly, amongst other things, the proposed distribution of responsibilities both financial as well as technical for execution of the work amongst them. For the purpose of this clause, the most experienced lead partner will be the one defined. A copy of the Joint Venture agreement in accordance with requirements mentioned in Annexure – III; shall be submitted before any award of work could be finalized. Maximum two partners in JV is allowed including electrical partner.
- (b) The bid, and in the case of the successful bidder, the Form of Agreement, etc., shall be signed and / or executed in such a manner as may be required for making it legally binding on all partners (including operative parts of the ensuing Contract in respect of Agreement of Arbitration, etc.). On award of work, the Form of Agreement and Contract Documents shall be signed by all partners of the Joint Venture to conclude Contract Agreement.
- (c) Lead partner shall be nominated as being partner-in-charge; and this authorization shall be evidenced by submitting a power of attorney signed by the legally authorized signatories of all the partner.
- (d) The partner-in-charge shall be authorized to incur liabilities and to receive instructions for and on behalf of the partners of the Joint Venture, whether jointly or severally, and entire execution of the Contract (including payment) shall be carried out exclusively through the partner-in-charge. A copy of the said authorization shall be furnished in this Bid.
- (e) All partners of the Joint Venture shall be liable jointly and severally for the execution of the Contract in accordance with the Contract terms, and a relevant statement to this effect shall be included in the authorization mentioned under sub clause (c) above as well as in the Form of Tender and the Form of Agreement (in case of a successful bidder).
- (f) In the event of default by any partner, in the execution of his part of Contract, the Employer shall be so notified within 30 days by the partner-in-charge, or in the case of the partner-in-charge being the defaulter, by the partner nominated as partner-in-charge of the remaining Joint Venture. The partner-in-charge shall, within 60 days of the said notice, assign the work of the defaulting partner to any other equally competent party acceptable to the Employer to ensure the execution of that part of the Contract, as envisaged at the time of

bid. Failure to comply with the above provisions will make the Contractor liable for action by the Employer under the Conditions of Contract. If the Most Experienced i.e. Lead Partner defined as such in the Communication approving the qualification defaults, it shall be construed as default of the Contractor and Employer/Authority will take action under the Conditions of Contract

- (g) Notwithstanding the permission to assigning the responsibilities of the defaulting partner to any other equally competent party acceptable to the Employer as mentioned in sub clause (f) above, all the partners of the Joint Venture will retain the full and undivided responsibility for the performance of their obligations under the Contract and/ or for satisfactory completion of the Works.
- (h) The bid submitted shall include all the relevant information as required under the provisions of Sub-Clause 4.5 of ITB and furnished separately for each partner.
- (i) All partners of the joint venture (including prime contractor and 2nd partner) should be available at the project office for day to day execution, monitoring and meetings for timely completion of the project.
- (j) **The Joint Venture (JV) are only allowed for package size exceeding Rs. 25 Crores (except any single road for less than 25 Cr.).**

4.5. A. The bidder shall meet the following minimum Criteria

- (a) Achieved in any one year a minimum financial turnover (in all cases of engineering construction works(civil & electrical)) volume of construction work of at least the amount equal to the estimated cost of works for which bid has been invited. The turnover will be indexed at the rate of 7 per cent per year.

The factor for year updation to the price level is indicated as under

Year	FY 24-25	FY 23-24	FY 22-23	FY 21-22	FY 20-21
Updation Factor	1.00	1.07	1.14	1.21	1.28

- (b) Experience: Bidders must have successfully completed or **substantially** completed similar works during last five years ending last day of month previous (i.e. XX.XX.20XX) to the one in which applications are invited should be either of the following

- At least one work - not less than 80% of estimated project cost.
(or)
- At least two work - not less than 50% of estimated project cost.
(or)
- At least three work - not less than 40% of estimated project cost.

Similar work is defined as, experience in substantial completion of –

(i) Construction of roads in urban areas that includes carriageway, footpaths, streetlights and underground utilities as below:

- Carriageway works should include asphalt/ cement concrete surface with necessary base layers.
- Footpath works include road works involving paver blocks/kerb stone or concrete pathways with roadside landscapes and likewise.
- Underground utilities work, which includes gas, power, sewer, water supply, storm water and telecom works.
 - For Power line, the Contractor should have similar experience of shifting of power lines from overhead to underground with a **minimum capacity of 11KV.**
 - Experience of shifting,overhead HT line to underground distribution lines are mandatory,this may include laying of new underground distribution power line cabling of HT line as well.
 - Experience related to transformer electrification of buildings, residential flats, schools, colleges, bridges, flyovers, or any other internal installations will not be considered for qualification.
 - Experience of LT line (below 11 KV) is also mandatory keeping in view the requirement of similar nature of work in the proposed project.
 - In case, the scope of work involves shifting or relocation of existing overhead distribution power lines from one overhead alignment to another overhead alignment, the bidder shall possess prior proven experience in the execution of similar overhead-to-overhead distribution line shifting or relocation works.

For the work(s) being submitted for consideration as ‘similar work experience’ the Bidder must also obtain 80 marks out of 100 for the qualification as mentioned in technical evaluation in Section 2 and accordingly financial proposal will be opened for those, who qualifies wherein, it is **mandatory to obtain 15 marks (i.e. within 80 marks)** for underground utilities works pertaining to undergrounding of power line.

OR

Road projects of above values in any areas **PLUS** other projects which include footpaths, streetlights and underground utilities etc. to fetch 80 marks as per Technical Evaluation sheet in Section 2.

For arriving at cost of similar work, the value of work executed shall be brought to current costing level by enhancing the actual value of work at simple rate of seven percent per annum, calculated from the date of completion to the date of bid opening.

For the work(s) being submitted for consideration as 'similar work experience' **the Bidder must obtain 80 marks out of 100** for the qualification as mentioned in technical evaluation in Section 2 and accordingly financial proposal will be opened for those, who qualifies. Wherein, it is mandatory to obtain 15 marks (i.e. within 80 marks) for underground utilities works pertaining to the power line (HT/LT).

In case the Bidder is having/ not having prior experience in Green Technologies as mentioned in Special Condition of Contracts **Cl.67**(Section 3) the bidder can provide undertaking as mentioned in Section 2.

All eligible projects for claiming experience should have been executed for Central/State Government departments (or) Central/State Autonomous Bodies (or) Central/State Public Sector.

The Completion certificate shall be signed by the Engineer in charge, not below the rank of an Executive Engineer or equivalent. (standard format of work experience in section 8)

Only completed Certificate/ substantially completed certificate will be considered for evidence on similar nature of project.

Documentary evidence for project credentials like, work order or purchase order or completion certificate or letter of appointment should be submitted. Actual Completion Date and Actual Completion cost as indicated in the completion certificate issued by the Authority shall be considered for the evaluation.

- (c) The works may have been executed by the bidder as prime contractor or as a member of joint venture (executed similar nature of work justified by the JV agreement **which is to be submitted in Part I of the Bidding document**). In case a project has been executed by a joint venture, weightage towards experience of the project would be given to each joint venture in proportion to their participation in the joint venture.

Substantially completed works means those works which are at least 90% completed as on the date of submission (i.e. gross value of work done up to the last date of submission is 90% (value wise) or more of the original contract price) and continuing satisfactorily.

For these, a certificate from the Employer/Engineer not below the rank of an Executive Engineer or equivalent shall be submitted along with the application incorporating clearly the name of the work, Contract value, billing amount, date of commencement of works, satisfactory performance of the Contactor and any other relevant information.

- (d) The bidder individually or in form of JV should possess Class A registration **and valid electrical line license** (issued from Directorate of Electrical Safety Department / Uttar Pradesh Power Corporation Limited (UPPCL)) for executing

the street light works and should also have executed underground distribution power line for a minimum length as per technical evaluation in Section 2.

- (e) The bidder should have executed similar water supply/sanitary engineering works for a minimum length as per technical evaluation in Section 2.
- (f) Deleted.

4.5.B. Each bidder should further demonstrate

- a. Availability for construction either owned, or on lease or hire, of the key equipment states in **Annexure I** including equipment required for establishing field laboratory to perform mandatory test, and the stated in the **Annexure I**.

The bidder should own or should have assured ownership to the following key items of equipment, in full working order, and must demonstrate that, based on known commitments they will be available for use in the proposed contract.

Based on the studies, carried out by the Engineer the minimum requirement of major equipment to attain the completion of works in accordance with the prescribed construction schedule are shown in the **Annexure-I**.

- b. The bidder must have suitably qualified personnel to fill the positions as per **Annexure-II**. The bidder will supply information on a prime candidate and an alternate for each position, both of whom should meet the experience requirements specified in Annexure-II.
- c. The bidder should demonstrate that he has access to, or has available, liquid assets (aggregate of working capital, cash in hand and uncommitted bank guarantees) and/or credit facilities of not less than 10% of the value of the contract/contracts applied for certified by the Bankers (Not more than 3 months old)
- d. The audited balance sheets for the last five years should be submitted, which must demonstrate the soundness of the bidder's financial position, showing long term profitability including an estimated financial projection for the next two years. If necessary, the Employer will make enquiries with the bidder's bankers.
- e. Deleted.
- f. The Bidder must not have his/her or his/her spouse near relatives posted in any capacity in the U L B which tender have to be floated.
- I. The near relations (defined as first blood relations, and their spouses, of the Bidder or the Bidder's spouses) of persons listed in the Appendix to ITB.
- II. Without Government permission, any person who is retired as gazetted officer within the last one year of the rank and from the departments listed and officer of the ULB in the Appendix to ITB.

g. Each Bidder must produce:

- I. PAN Card of Firm or contractor.
- II. An affidavit that the information furnished with the bid documents is correct in all respects exactly in the format provided with the bid documents; and
- III. Such other certificates as defined in the Appendix to ITB.

Failure to produce the required certificates shall make the **bid non-responsive**.

C. To qualify for more than one contract/package, the bidder(s) must demonstrate having experience and resources sufficient to meet the aggregate of the qualification criteria for each contract given in clauses [Cl.4.5.B(a)], [Cl.4.5B(b)], [Cl.4.5B(c)] and Cl. 4.7.

D.To qualify for a package of contracts made up of this and other contracts for which bids are invited in the Notice Inviting Tender, the bidder must demonstrate having experience and resources sufficient to meet the aggregate of the qualifying criteria for the individual contracts.

Important: - If any bidder is bidding more than one package/contract, the bidder must inform to the Tender Inviting Authority by submitting this information through Format at Annexure V.

Option 1: Deleted.

Option 2: Deleted.

E.If bidder is a Joint Venture, the partners would be limited to two (including lead partner). Joint Venture firm shall be jointly and severally responsible for completion of the project. Joint Venture must fulfil the following minimum qualification requirement.

- i. Deleted.
- ii. Deleted.
- iii. The Joint Venture must also collectively satisfy the subject of the criteria of Clause 4.5B(a), 4.4 B(b) and 4.5 D of ITB for this purpose the relevant figures for each of the partners shall be added together to arrive at the Joint Venture total capacity which shall be 100% or more.
- iv. In the event that the Employer has caused to disqualify under Clause 4.8 of ITB below all of the Joint Venture partners will be disqualified.
- v. Joint Venture bidders shall provide a certified copy of the Joint Venture Agreement in demonstration of the partners undertaking joint and several liabilities for the performance of any contract entered into at the time of submission of bid.

- vi. The available bid capacity of the JV as required under Clause 4.7 of ITB below will be applied for each partner to the extent of his proposed participation in the execution of the work. The total bid capacity available shall be more than estimated contract value.

Note:i) The joint venture partners should collectively meet the required responsiveness, technical and financial qualifications but the minimum equity of **lead partner should not be less than 50% and other partner should not be less than 25%**

ii) Qualification of a joint venture does not necessarily qualify any of its partners individually or as a partner in any other joint venture. In case of dissolution of a joint venture, each one of the constituent firms may qualify if they meet all the qualification requirements, subject to the written approval of the Employer.

4.6. Deleted.

4.7. Bidders who meet the minimum qualifying criteria will be qualified only if their available bid capacity at the expected time of bidding is more than the total estimated cost of the works. The available bid capacity will be calculated as under.

Assessed Available Bid Capacity = $(A * N * M - B)$, where

A = Maximum value of works executed in any one year during the last five years (updated to the current price level) at rate taken as 7 percent* per year which will take into account the completed as well as works in progress.

**in parity with Section 1, Clause 4.5.A.(a), Clause 4.5.A.(b)*

And

N = Number of years prescribed for completion of the works for which the bids are invited.

M = M is taken as 2.5

B = Value at current price level of the existing commitments and ongoing works to be completed during the nextyear (period of completion of works for which bids are invited).

-The statements showing the value of existing commitments and on-going works as well as the stipulated period of completion remaining for each of the works listed should be counter signed by the Engineer in charge, not below the rank of an Executive Engineer or equivalent.

-Bid capacity should be ascertained at the time of bidding and not at the time of drawing contract.

Note:1- In case of a joint venture, the available bid capacity will be applied for each partner to the extent of his proposed participation in the execution of the works.

2- The statements showing the value of existing commitments and on-going works as well as the stipulated period of completion remaining for each of the works listed should be countersigned by the Engineer in charge, not below the rank of an Executive Engineer or equivalent.

4.8. Disqualification.

Even though the bidders meet the above criteria, they are subject to be disqualified if they have:

- 4.8.1 made misleading or false representations in the form, statements submitted; and/or
- 4.8.2 record of poor performance such as abandoning the works, rescinding of contract for which the reasons are attributable to the non-performance of the contractor, consistent history of litigation awarded against the bidder or financial failure due to bankruptcy. The rescinding of contract of a joint venture on account of reasons other than the non-performance, such as Most Experienced partner of joint venture pulling out, court directions leading to breaking up of a joint venture before the start of work, which are not attributable to the poor performance of the contractor will, however, not affect the qualification of the individual partners.

4.9. Litigation History:

The bidder should provide accurate information on any litigation or arbitration resulting from contracts completed or under execution by him over the last five years.

A consistent history of litigation against the bidder or any partner of a joint venture may result in failure of the bidder.

4.10. Deleted

5. One Bid per Bidder

5.1. Each bidder shall submit only one bid for one package. A bidder who submits or participates in more than one Bid will cause all the proposals with the Bidder's participation to be disqualified.

6. Cost of Bidding

6.1. The bidder shall bear all costs associated with the preparation and submission of his Bid, and the Employer will in no case be responsible and liable for those costs.

7. Site Visit

7.1. The Bidder, at the Bidder's own responsibility and risk is encouraged to visit and examine the Site of Works and its surroundings and obtain all information that may be necessary for preparing the Bid and entering into a contract for construction of the Works. The costs of visiting the Site shall be at the Bidder's own expense. He/she may contact the person whose contact details are given in the Appendix to ITB.

B. BIDDING DOCUMENTS

8. Content of Bidding Documents

8.1. The set of bidding documents comprises the documents listed below and addenda issued in accordance with Clause 10:

Section	Particulars	Volume No.
	Invitation for Bids	I
1	Instructions to Bidders	
2	Qualification Information and other forms	
3	Conditions of Contract	
4	Contract Data	
5	Scope of Work & Technical Specifications	II
6	Form of bid	III
7	Bill of Quantities	
8	Securities and other forms	
9	Drawings	IV
10	Documents to be furnished by bidder	V

8.2. The bid document is available on-line on the website <https://etender.up.nic.in>. The bid document can be downloaded free of cost, however the Bidder is required to deposit towards the cost of Bid Document (non- refundable) as per column 11 of IFB/NIT in the account **of UP e-tender online Account- through e-tender portal by Internet Banking only. All concerned please note that the bidding process will not move**

onward if the Bid Document's Cost (Tender Fee) is not paid through e -tender portal. Or in the account as mentioned in Appendix to ITB.

- 8.3.** The bidder is expected to examine carefully all instructions, conditions of contract, contract data, forms, terms, technical specifications, bill of quantities, forms, Annexures, and drawings in the Bid Document. Failure to comply with the requirements of Bid Documents shall be at the bidder's own risk. **Pursuant to clause 26 hereof, bids which are not substantially responsive to the requirements of the Bid Documents shall be rejected.**

9. Clarification of Bidding Documents

- 9.1 A prospective Bidder requiring any clarification of the bidding documents may send his queries to Employer on email urida.goup@gmail.com & nnmee@nic.in & municipalcorporationmeerut4@gmail.com not later than 48 hours prior to Prebid meeting. The Authority inviting bid will respond to any request (s) for clarification received earlier than 10 days prior to the deadline for submission of bids. Description of clarification sought and the response of the Authority inviting the bid will be uploaded for information of the public or other bidders without identifying the source of request for clarification.

- 9.2 Pre-bid meeting date, time and address are given in the Appendix to ITB.

- 9.3 The purpose of the meeting will be to clarify issues and to answer questions on any matter that may be raised at that stage.

- 9.4 Minutes of the meeting, including the text of the questions raised (without identifying the source of the enquiry) and the responses given will be uploaded for information of the public or other bidders. Any modifications of the bidding documents listed in Clause 8.1 of ITB, which may become necessary as a result of the pre-bid meeting shall be made by the Employer exclusively through the issue of an Addendum pursuant to Clause 10 of ITB and not through the minutes of the pre-bid meeting.

- 9.5 Non-attendance at the pre-bid meeting will not be a cause for disqualification of a bidder.

10. Amendment of Bidding Documents

- 10.1. Before the deadline for submission of bids, the Employer may modify the bidding documents by issuing corrigendum. The corrigendum will appear on the webpage of the website <http://etender.up.nic.in> under the "Latest Corrigendum".
- 10.2. Any addendum thus issued shall be part of the bidding documents and shall be uploaded in <http://etender.up.nic.in>

- 10.3. To give prospective bidders reasonable time in which to take an addendum into account in preparing their bids, the Employer may, at his discretion, extend as necessary the deadline for submission of bids, in accordance with Sub-Clause 20.2 of ITB.

- 19.2. Deleted.

19.3. Deleted.

19.4. Deleted.

19.5. **Bidding through E-tendering system**-The bidding under this contract is electronic bid submission through website <https://etender.up.nic.in>. Detailed guidelines for viewing bids and submission of on-line bids are given on the website. The Invitation for Bids is published on this website. Any citizen or prospective Bidder can log-on to this website and view the Invitation for Bids and can view the details of works for which bids are invited. The prospective Bidder can submit bids online; however, the Bidder is required to have enrolment/registration in the website and should have valid Digital Signature Certificate (DSC) in the form of smart card/e- token. The DSC can be obtained from any authorized certifying agencies. The Bidder should register in the web site <https://etender.up.nic.in> using the relevant option available. Then the Digital Signature registration has to be done with the e-token, after logging into the site. After this, the Bidder can login the site through the secured login by entering the password of the e-token and the user id/ password chosen during registration.

After getting the bid schedules, the Bidder should go through them carefully and then submit the documents as asked, otherwise, the bid will be rejected.

19.6. The completed bid comprising of documents indicated in ITB clause 12, should be uploaded on the website given above through e-tendering along with scanned copies of requisite certificates as are mentioned in different sections in the bidding document and scanned copies of the Bid Document, proof of payment of cost of bid document and bid security in appropriate account.

20 Deadline for Submission of the Bids

20.1. Complete bids (including Technical and Financial Bids) must be uploaded online through e-portal before the date and time (as per server clock) as specified in the Appendix to ITB. The Employer will assume no responsibility for delay caused due to non-availability of internet connection or network traffic jam etc.

20.2. The Employer may extend the deadline for submission of bids by issuing an amendment in accordance with Clause 10.3, in which case all rights and obligations of the Employer and the bidders previously subject to the original deadline will then be subject to the new deadline.

21 Late Bids

Late bids are not accepted.

22 Modification and Withdrawal of Bids

- 22.1. The electronic bidding system would not allow any late submission of bids after due date and time as per server time.
- 22.2. Each Bidder's modification or withdrawal notice shall be prepared and uploaded online in accordance with clause 20 or pursuant to clause 19.
- 22.3. No bid shall be modified or withdrawn after the deadline of submission of bids.
- 22.4. Neither withdrawal nor modification of a Bid is allowed between the deadline for submission of bids and the expiration of the original period of bid validity specified in Clause 15.1 above or as extended pursuant to Clause 15.2. Withdrawal or modification of bid after opening of technical bid may result the forfeiture of bid security.

E. BID OPENING AND EVALUATION

23 Bid Opening

- 23.1. The Employer will open all the Bids received including modifications made pursuant to Clause 22, in the presence of the Bidders or their representatives who choose to attend at the time, date and the place specified in the Appendix to ITB in the manner specified in Clause 20, 23.3, online also. In the event of the specified date of Bid opening being declared a holiday for the, the Bids will be opened at the appointed time and location on the next working day by **Evaluation Committee**.
- 23.2. Deleted.
- 23.3. The "Technical Bid" shall be opened at the stipulated date and time.
- 23.4. (i) Subject to confirmation of the bid security by the issuing Bank, the bids accompanied with valid bid security will be taken up for evaluation with respect to qualification information and other information furnished in Part I of the bid pursuant to Clause 12.1.
 - (ii) During evaluation if required, the bidder will be asked in writing to clarify his technical bid, if necessary.
 - (iii) The bidders will respond in not more than 3 days (by email only) of issue of the clarification letter, which will also indicate the date, time and venue of opening of the Financial Bid (usually on the 21st day of opening of the Technical Bid).
 - (iv) Immediately (usually within 3 or 4 days), on receipt of these clarifications the Evaluation Committee will finalize the list of responsive bidders whose financial bids are eligible for consideration.

- 23.5. Deleted.
- 23.6. At the time of opening of "Financial Bid", the names of the bidders found responsive in accordance with Clause 23.4(iv) will be announced. The Financial bids of only these bidders will be opened. The remaining bids will be returned to the bidders unopened. The responsive Bidders' names, the Bid prices, the total amount of each bid, any discounts, Bid Modifications and withdrawals, and such other details as the Employer may consider appropriate, will be announced by the Employer at the opening. Any Bid price or discount, which is not read out and recorded will not be taken into account in Bid Evaluation.
- 23.7. Deleted.
- 23.8. The Employer shall prepare minutes of the Bid opening, including the information disclosed to those present in accordance with Sub-Clause 23.5.
- 23.9. In all cases, the amount of Bid Security, Cost of bid documents, and the validity of the bid shall be scrutinized first and thereafter, the Bidders' names and such other details as the Employer may consider appropriate, will be notified as Part-I bid opening summary by the Authority inviting bids at the on-line opening. A separate electronic summary of the opening is generated and kept on-line.
- 23.10. Evaluation of the technical bids with respect to bid security, qualification information and other information furnished in Part I of the bid in pursuant to Clause 12.1 of ITB, and a list will be drawn up of the responsive bids whose financial bids are eligible for consideration.
- 23.11. The result of evaluation of Part-I of the Bids shall be made public on e-procurement systems following which there will be a period of seventy-two hours during which any Bidder may submit complaint which shall be considered for resolution before opening Part-II of the bid.
- 23.12. Complaint of the any Bidder received either on-line or off-line after seventy-two hours of up loading of the result of technical appraisal on **website will not be entertained in anycase.**
- 23.13. Any complaint other than the Bidder will neither be entertained nor will it cause to detain the e-procurement process.

24 Process to be Confidential

- 24.1. Information relating to the examination, clarification, evaluation, and comparison of Bids and recommendations for the award of a contract shall not be disclosed to Bidders or any other persons not officially concerned with such process until the

award to the successful Bidder has been announced. Any effort by a Bidder to influence the Employer's processing of Bids or award decisions may result in the rejection of his Bid.

25 Clarification of Financial Bids and Contacting the Employer

- 25.1. To assist in the examination, evaluation, and comparison of Bids, the Employer may, at his discretion, ask any Bidder for clarification of his Bid. The request for clarification and the response shall be in writing, but no change in the ***price or substance of the Bid shall be sought, offered, or permitted.***
- 25.2. Deleted.
- 25.3. Any effort by the Bidder to **influence the Employer in the Employer's bid evaluation, bid comparison or contract award decisions**, may result in rejection of the Bidders' bid.

26 Examination of Bids and Determination of Responsiveness

- 26.1. During the detailed evaluation of "Part I of Bids ", the Evaluation Committee will determine whether each Bid **(a) meets the eligibility criteria defined in Clause 3 and 4; (b) has been properly signed; (c) is accompanied by the required securities and;** (d) is substantially responsive to the requirements of the Bidding documents. During the detailed evaluation of the "Financial Bid", the responsiveness of the bids will be further determined with respect to the remaining bid conditions, i.e., priced bill of quantities, technical specifications, and drawings.
- 26.2. A substantially responsive "Financial Bid" is one which conforms to all the terms, conditions, and specifications of the Bidding documents, without material deviation or reservation. A material deviation or reservation is one (a) which affects in any substantial way the scope, quality, or performance of the Works; (b) which limits in any substantial way, inconsistent with the Bidding documents, the Employer's rights or the Bidder's obligations under the Contract; or (c) whose rectification would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.
- 26.3. If a "Financial Bid" is not substantially responsive, same will be rejected by the Employer, and may not subsequently be made responsive by correction or withdrawal of the non-conforming deviation or reservation.

27 Deleted.

28 Deleted.

29 Evaluation and Comparison of Financial Bids

29.1. The Employer will evaluate and compare only the Bids determined to be substantially responsive in accordance with Sub-Clause 26.

29.2. In evaluating the Bids, the Employer will determine for each Bid the evaluated Bid Price by adjusting the Bid Price as follows:

- a. Deleted.
- b. making an appropriate adjustment for any other acceptable variations, deviations; and
- c. making appropriate adjustments to reflect discounts or other price modifications offered in accordance with Sub-Clause 23.6.

29.3. The Employer reserves the right to accept or reject any variation or deviation. Variations and deviations and other factors, which are in excess of the requirements of the Bidding documents or otherwise result in unsolicited benefits for the Employer shall not be taken into account in Bid evaluation.

29.4. The estimated effect of the price adjustment conditions under Clause 47 of the *Conditions of Contract*, during the period of implementation of the Contract, will not be taken into account in Bid evaluation.

29.5. If the Bid of the successful Bidder is seriously unbalanced i.e. (+/-) 15% in relation to the Engineer's estimate of the cost of work to be performed under the contract, the Employer may require the Bidder to produce detailed price analyses for any or all items of the Bill of Quantities, to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. After evaluation of the price analysis, the Employer may require that the amount of the performance security set forth in Clause 34& conditions for NIT be increased at the expense of the successful Bidder to a level sufficient to protect the Employer against financial loss in the event of default of the successful Bidder under the Contract.

29.6. Deleted.

29.7. There will be price preference to any bidder.

30 Deleted

F. AWARD OF CONTRACT

31 Award Criteria

31.1. Subject to Clause 33, the Employer/Authority will award the Contract to the Bidder whose Bid has been determined

- (i) To be substantially responsive to the bidding documents and who has offered the lowest evaluated Bid price, provided that such Bidder has been determined to be (a) eligible in accordance with the provisions of Clause 3 of ITB, and (b) qualified in accordance with the provisions of Clause 4 of ITB; along with the clause 29.5 of ITB and;
- (ii) To be within the available bid capacity adjusted to account for his bid price which is evaluated the lowest in any of the packages opened earlier than the one under consideration.

In no case, the contract shall be awarded to any bidder whose available bid capacity is less than the evaluated bid price, even if the said bid is the lowest evaluated bid. The contract will in such cases be awarded to the next lowest bidder at his evaluated/negotiated bid price.

32 Employer's Right to Accept any Bid and to Reject any or all Bids

32.1. Notwithstanding Clause 31, the Employer reserves the right to accept or reject any Bid, and to cancel the Bidding process and reject all Bids, at any time prior to the award of Contract, without thereby incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for the Employer's action.

33 Notification of Award and Signing of Agreement

33.1. The Bidder whose Bid has been accepted will be notified of the award by the Employer prior to expiration of the Bid validity period by mail (provide email) confirmed by registered letter. This letter (hereinafter and in the *Conditions of Contract* called the "**Letter of Acceptance**") will state the sum that the Employer will pay the Contractor in consideration of the execution, completion, and maintenance of the Works by the Contractor as prescribed by the Contract (hereinafter and in the Contract called the "**Contract Price**").

33.2. The notification of award will constitute the formation of the Contract, subjected to the furnishing of a performance security in accordance with provisions of Clause 34.

33.3. The Agreement will incorporate all agreements between the Employer and the successful Bidder. It will be signed by the Employer and the successful Bidder in case of proprietorship firm and in case of Partnership firm the registered authorized person will sign and in case of company the authorized Director will sign after the performance security is furnished. The agreement shall be furnished **within 10 days** from the date of issuance of Letter of Acceptance (LoA),

- 33.4. Upon the furnishing by the successful Bidder of the Performance Security, the Employer will promptly notify the other Bidders that their Bids have been unsuccessful.

34 Performance Security

- 34.1. Within 10 days of receipt of the Letter of Acceptance, the successful Bidder shall deliver to the Employer a **Performance Security** in any of the forms given below for an amount equivalent to 5% of the Contract price plus additional security for unbalanced Bids in accordance with Clause 29.5 of ITB and Clause 52 of Conditions of Contract:

- A bank guarantee in the form given in Section 8; or
- Fixed Deposit Receipts from a Scheduled Commercial Bank pledged in favour of **Employer as indicated in ITB.**

- 34.2. Deleted.

- 34.3. Failure of the successful Bidder to comply with the requirements of Sub-Clause 34.1 shall constitute sufficient grounds for cancellation of the award and forfeiture of the Bid Security. He/she will also be temporarily debarred from participating in bids for one year.

35 Advance Payment and Security

- 35.1. Deleted.

36 Dispute Review Expert

- 36.1. In case of any dispute the official appointed by URIDA/Employer shall take the final decision and it should be binding.

37 Corrupt or Fraudulent Practices

- 37.1 The Employer will reject a proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question or, to be awarded a contract with National Highways Authority of India / State PWD and any other agencies or in execution will declare the firm ineligible, either indefinitely or for a stated period of time,
- 37.2 Furthermore, Bidders shall be aware of the provision stated in Sub-Clause 23.2 and Sub-Clause 59.2 of the Conditions of Contract (Section-3).
- 37.3 The Employer requires the Bidders/Contractors to strictly observe the laws against fraud and corruption in force in India, namely, Prevention of Corruption Act, 1988.

- 37.4 It is required that each Bidder/Contractor (including their respective officers, employees and sub-Contractors) adhere to the highest ethical standards, and report to the Government / Department all suspected acts of fraud or corruption or coercion or collusion of which it has knowledge or becomes aware, during the tendering process and throughout the negotiation or award of a contract.
- 37.5 The Bidder(s)/Contractor(s) commit himself to take all measures necessary to prevent corruption. He/she commits himself to observe the following principles during his/her participation in the Tender process and during the Contract execution:
- a. The Bidder(s)/Contractor(s) will not, directly or through any other person or firm, offer, promise or give to any employee of the Employer involved in the Tender process or execution of the Contract or to any third person any material or other benefit which he/she/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the Tender process or during the execution of the Contract.
 - b. The Bidder(s)/Contractor(s) will not enter with other Bidder(s) into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to cartelize in the bidding process.
 - c. The Bidder(s)/Contractor(s) will not commit any offence under the relevant IPC/CRPC Act. Further the Bidder(s)/Contractor(s) will not use improperly, (for the purpose of competition or personal gain), or pass on to others, any information or documents provided by the Employer as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.
- 37.6 The Bidder(s)/Contractor(s) will not instigate third persons to commit offences outlined above or be an accessory to such offences.
- 37.7 The Bidder(s)/Contractor(s) will not, directly or through any other person or firm indulge in Fraudulent Practice, which means a willful misrepresentation or omission of facts or submission of fake/forged documents in order to induce public official to act in reliance thereof, with the purpose of obtaining unjust advantage by or causing damage to justified interest of others and/or to influence the procurement process to the detriment of the Government interests. And, this includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid process at artificial

non-competitive levels and to deprive the Employer of the benefits of free and open competition.

- 37.8 The Bidder(s)/Contractor(s) will not, directly or through any other person or firm use Coercive Practices (means the act of obtaining something, compelling an action or influencing a decision through intimidation, threat or the use of force directly or indirectly, where potential or actual injury may befall upon a person, his/her/ her reputation or property to influence their participation in the tendering process).
- 37.9 Without prejudice to any rights that may be available to the Employer under law or the Contract or its established policies and laid down procedures, the Employer shall have the following rights in case of breach under Clauses 37.1 to 37.8 above by the Bidder(s)/Contractor(s) and the Bidder/ Contractor accepts and undertakes to respect and uphold the Employer's absolute right:
- a. If the Bidder(s)/Contractor(s), either before award or during execution of Contract has committed a transgression through a violation of Clauses 37.1 to 37.8 above or in any other form, such as to put his/her reliability or credibility in question, the Employer after giving proper opportunity to the Bidder(s)/Contractor(s) shall have powers to disqualify the Bidder(s)/Contractor(s) from the Tender process or terminate the Contract, if already executed or exclude the Bidder/Contractor from future contract award processes.
 - b. Forfeiture of Bid Security/Performance Security: If the Employer has disqualified the Bidder(s) from the Tender process prior to the award of the Contract or terminated the Contract or has accrued the right to terminate the Contract, the Employer apart from exercising any legal rights that may have accrued to the Employer, may in its considered opinion forfeit the entire amount of Bid Security and Performance Security of the Bidder/Contractor as the case may be.

{Kindly fill the amount in Lacs only}

ANNEXURE I
List of Key Plant & Equipment to be deployed on Contract Work
[Reference Cl. 4.5 (B) (a)]

Sl. No.	Type of Equipment	Maximum age in Years as on XX.XX.XXXX (Update as per requirement)	Min Number
A]	Key Plant & Equipment		
1.	Excavator (1 cum bucket capacity)	10	1
2.	Backhoe Loader cum Excavator (JCB)	10	2
3.	Front end Loader	10	2
4.	Motor Grader	10	1
5.	Vibratory Roller (10 to 13 T)	10	2
6.	Tippers (5.50 cum / 10 MT capacity)	10	4
7.	Water Tanker	10	2
8.	Wet Mix Macadam Plant	10	1
9.	Paver Finisher for WMM/DLC	10	1
10.	Hot Mix Plant with Electronic Controls (Minimum 80-100 TPH capacity)	10	1
11.	Paver Finisher with Electronic Sensor for DBM & BC	10	1
12.	Tar Boiler	10	1
13.	Bitumen Sprayer	10	1
14.	Smooth Wheeled Tandem roller (6 to 8 T)	10	1
15.	Pneumatic tired roller (10 to 14 Ton)	10	1
16.	Tractor with trolley	10	2
17.	Air compressor	10	1
18.	Mechanical Broom	10	1
19.	Concrete Mixes with Integral Weigh Batching facility	10	1
20.	Fixed form paver	10	1
21.	Self-loading concrete mixer / Fiori or equivalent	10	2
22.	Surface Vibrator	10	2
23.	Needle/Pin Vibrator	10	4
24.	Rotavator (as per requirement)	10	1
25.	Concrete joint cutting machine for CC Pavement	10	1
26.	Palfinger access platform or similar (for electrical works)	10	1
27.	Total Survey Station and Auto Levels	10	2
B]	Testing apparatus	10	
1.	Riffle Box	10	1
2.	Sieve Set for GSB, DLC, WBM	10	2

3.	Sieve Shaker 450 mm	10	1
4.	Speedy moisture meter with Chemical	10	1
5.	Atterberg Limits Apparatus	10	1
6.	Compression Machine	10	1
7.	Moisture Tins	10	1 set
8.	Spatula	10	2
9.	Aggregate Impact value Test Machine	10	1
10.	Flakiness & Elongation Testing gauge	10	2
11.	3 Meter Straight Edge with wedges	10	1
12.	Water Bath	10	1
13.	Penetration Machine	10	1
14.	Softening point Test machine	10	1
15.	Bitumen Extraction Machine	10	1
16.	Sand Replacement Method Earth embankment	10	2
17.	Core cutting Machine for BC & DBM (Wax method)	10	1
18.	Primer Coat & Tack coat testing Plates	10	2 set
19.	Cube Mould (15x15x15) Cm	10	6
20.	Slump Test Machine	10	2
21.	Cement Testing Kit	10	1
22.	Penetration Machine with Accessory	10	1
23.	softening point Apparatus with Accessory	10	1
24.	Viscosity (Say bolt Fulrol) with Accessories	10	1
25.	Ductility Machine with Accessories	10	1

Note:

1. Apart from above mentioned list, additional plant & machinery may be mobilized as per the project requirement/specific work, which is not mentioned herein.
2. In the case of owned machinery, the bidder must ensure that the RC/ invoice/bill etc. clearly displays the purchase date, and the age of the machinery must be verifiable. For leased machinery, the bidder must provide a valid lease agreement duly signed by both parties.

SECTION 2: - QUALIFICATION INFORMATION

QUALIFICATION INFORMATION

(Following information's shall be furnished by the contractor on a non judicial stamp paper of Rs 100/- only)

Note on Form of Qualification Information

The information to be filled in by the Bidder in the following pages will be used for purposes of post qualification as provided for in Clause 4 of the Instructions to Bidders. This information will not be incorporated in the Contract. Attach additional pages as necessary. Each bidder is required to furnish an affidavit on a non-judicial stamp paper of Rs 100/- giving information on following performa required for evaluation of Bidding capacity of the Bidder. Scanned copy of this affidavit shall be submitted on-line as part of contractor's document. Performa shall be filled up and complete in all aspects. **Incomplete format or attached written format will not be accepted. Filling up of this form is mandatory otherwise bid may be rejected.**

Note- in case of Joint Venture (JV) all the partner shall produce Qualification Information separately duly filled as per the instruction above

1. For Individual Bidders

1.1. Constitution or legal status of Bidder

[Attach copy]

Place of registration: _____

Principal place of business: _____

Partnership deed _____

Power of attorney of signatory of Bid _____

Provide information on Power of Attorney to authorized signatory to submit the bid as per Annexure VI

Note:-In case of JV, Power of Attorney for Lead Member of Joint Venture will be submitted as per Annexure III, Part I separately.

[Attach]

1.2	Total annual volume of civil engineering construction work executed and payments received in the last five years** preceding the year in which bids are invited. (Attach certificate from Chartered Accountant)	(Rs. In lakhs)β FY 2021-22- ____ FY 2022-23- ____ FY 2023-24- ____ FY 2024-25 - ____ FY 2025-26 - ____ Certificate from CA with clear cut mentioned Civil Engineering Works
-----	---	---

βAttach certificate from Chartered Accountant.

1.3 Work performed as prime contractor or as a **member of joint venture** (executed similar nature of work justified by the JV agreement **which is to be submitted in Part I of the Bidding document**) on construction works of a similar nature and volume over the last five years.

Format of work experience certificate should be as per format attached in Section 8

Project Name	Name of the Employer*	Description of work	Contract No.	Value of Contract (Rs crore)	Date of issue of work order	Stipulated period of completion	Actual date of completion*	Remarks explaining reasons for delay, if any
1	2	3	4	5	6	7	8	9

*Attach certificate(s) from the Engineer(s)-in-Charge

** immediately preceding the financial year in which bids are received.

Note:- It is mandatory to submit similar nature of work justified by the JV agreement or any other document which describes the work done in case of member of joint venture.

Preliminary Details of Distribution power line Shifting & Relocation of HT/LT (11KV & above) Power Line.

Sl. No	Name of the Employer*	Description of Work [#]	Transformer installed capacity (188kV A & above)	Laying of cable in RCC duct/ HDPE Methodology for laying of power line ^{\$}	Contract No.	Value of Contract (Rs crore)	Date of issue of work order	Stipulated period of completion	Actual date of completion*	Remarks explaining reasons for delay, if any
1	2	3	4	5	6	7	8	9	10	11

*# The **description of works** should clearly specify the power line capacity and the name of the distribution power line. It should also indicate whether the shifting was done from overhead to underground, overhead to overhead, or underground to underground, along with the respective capacity.*

*\$ Bidder(s) should clearly mention the **methodology of laying of power line** i.e. HDPE / Trench in case of overhead to underground or underground to underground else write NA.*

1.3.2 Deleted

1.4. Information on Bid Capacity (works for which bids have been submitted and works which are yet to be completed) as on the date of this bid.

(A) Existing commitments and on-going works:

Description of works	Place & State	Contract No.	Name & Address of Employer	Value of Contract (RsCr)	Stipulated Period of Completion	Value of works* remaining to be completed (Rs Cr)	Anticipated date of completion
1	2	3	4	5	6	7	8

**Attach certificate(s) from the Engineers)-in-Charge for value of work remaining to be completed./ Affidavit regarding same.
 @The item of work for which data is requested should tally with that specified in ITB clause 4.5A(c).
 ** immediately preceding the financial year in which bids are received.*

(B) Works for which bids already submitted: (For every partners separately in JV case)

Description of works	Place & Slate	Name & Address of Employer*	Estimated value of works (Rs Cr)	Stipulated period of completion	Date when decision is expected	Remarks, if any
1	2	3	4	5	6	7

1.5. Availability of key items of Contractor's Equipment essential for carrying out the Works [Ref. Clause 4.5(B)(a)]. The Bidder should list all the information requested below. Refer also to Sub Clause 4.3 (d) of the Instructions to Bidders.

Item of Equipment	Requirement		Availability proposals			Remarks (from whom to be purchased)
	No.	Capacity	Owned/Leased to be procured	Nos/Capacity	Age/ Condition	
1	2	3	4	5	6	7

Note: Details to be provided by Nagar Nigam in column 1,2& 3, while Contract or shave to fill col. 4,5,6 & 7.

- (a) the Bidder must produce the following documentary evidence in support of his/her availability of the above equipment: Evidence of ownership of major items of construction equipment named like RC/Invoice/Billetec.
- (b) If equipment not owned but proposed to be hired, then Evidence of arrangement of possessing them on hire/lease/buying as defined there in;
- (c) If equipment not owned but proposed to be purchased then Evidence of arrangement of possessing them on buying as defined therein.

1.6. Qualifications and experience of key personnel required for administration and execution of the Contract [Ref. Clause 4.5(B)(b)]. Attach Curriculum Vitae (CV) **as per format in Section 8**. Refer also to Sub Clause 4.3 (e) of instructions to Bidders and Sub Clause 9.1 of the Conditions of Contract. Details to be provided by ULBin Col. 1,3&5; while Contractors have to provide details in Col. 2,4 & 6.

Position	Name	Qualification		Year of Experience (General)		Remarks
		Required	Having	Required	Having	
1	2	3	4	5	6	7
Project Manager						
Etc.						

1.7. Proposed sub-contracts and firms involved. [Refer ITB Clause 4.3 (k)]-**Deleted**.

1.8. Financial reports for the last five years: balance sheets, profit and loss statements, auditors' reports (in case of companies/corporation), ITR, etc. List them below and attach copies.

1.9. Evidence of access to financial resources to meet the qualification requirements: cash in hand, lines of credit, etc. List them below and attach copies of support documents.

1.10. Name, address, and telephone, and email of the Bidders' bankers who may provide references if contacted by the Employer.

1.11. Information on litigation history in which the Bidder is involved.

Name of Other Party(ies)	Litigation where (Court/arbitration)	Cause of Dispute	Amount involved	Remarks showing Present Status
--------------------------	--------------------------------------	------------------	-----------------	--------------------------------

1	2	3	4	5

1.12. Statement of compliance under the requirements of Sub Clause 3.2 of the instructions to Bidders. (Name of Consultant engaged for project preparation is)

1.13. Proposed work method and schedule. The Bidder should attach descriptions, drawings and charts as necessary to comply with the requirements of the Bidding documents. [Refer ITB Clause 4.1 & 4.3 (I)]

1.14. Programme [CI 4.3. (I)]

1.15. Quality Assurance Programme [CI 4.3. (I)]

2. **Deleted.**

3. **Additional Requirements**

3.1 Bidders should provide any additional information required to fulfill the requirements of Clause 4 of the Instructions to the Bidders, if applicable.

- (i) Affidavit shall be submitted on Rs 100.00 non-Judicial stamp paper duly notarized.
- (ii) Undertakings shall be submitted on Rs 100.00 non-Judicial stamp paper duly notarized
- (iii) Deleted.
- (iv) Deleted.
- (v) Deleted.

TECHNICAL EVALUATION

The following scoring criteria will be applicable for consideration of similar works.
(Sl. No. 5 may be updated as per the project requirement.)

Sl. No	Description	Maximum Marks	Self-Assessment by Bidder	Reference* for assessment with page no.
A	B	C	D	E
1	Carriageway works should include asphalt/ cement concrete surface with necessary base layers with minimum length equal 50 % of total length of package as mentioned in IFB column 5.	30		
2	Footpath works include road works involving paver blocks/ kerbstone or concrete pathways and likewise with minimum length equal 50 % of total length of package as mentioned in IFB column 5.	10		
3	Street lightning works with minimum length equal 50 % of total length of package as mentioned in IFB column 5.	10		
4	Roadside landscapes works with minimum length equal 50 % of total length of package as mentioned in IFB column 5.	5		
5	Underground utilities works, which includes gas, power, sewer, water supply, storm water and telecom works with minimum length equal 50 % of total length of package as mentioned in IFB column 5.			
	A) Power Line (HT/LT)	15		
	B) Storm water	10		
	C) Sewer	05		
	D) Water Supply	05		
	E) Telecom (OFC)	05		
	F) Gas	05

SECTION 3:- CONDITIONS OF CONTRACT

These conditions are subject to the variations and additions set out in Part II Special Conditions of Contract.

Notes on Conditions of Contract

The Conditions of Contract, read in conjunction with Part II Special Conditions of Contract and the Contract Data and other documents listed therein, should be a complete document expressing fairly the rights and obligations of both parties.

The form of Conditions of Contract that follows has been developed for smaller admeasurements contracts for construction on the basis of international practice and the practice of the Government of India, Ministry of Road Transport and Highways, and considerable experience in different States in India in the drafting and management of contracts, bearing in mind a trend in the construction industry towards simpler, more straightforward language.

CONDITIONS OF CONTRACT

Part I- GENERAL CONDITION OF CONTRACT

A. GENERAL

1. Definitions

- 1.1. Terms which are defined in the Contract Data are not also defined in the Conditions of Contract but keep their defined meanings. Capital initials are used to identify defined terms.

Act or Electricity Act, 2003 shall mean the Electricity Act, 2003 and include any modifications, amendments and substitution from time to time;

Adjudicator (synonymous with **Dispute Review Expert**) is the person appointed jointly by the Employer and the Contractor to resolve disputes in the first instance, as provided for in Clauses 24 and 25. The name of the Adjudicator is defined in the Contract Data.

Appropriate Commission shall mean the Uttar Pradesh Power Corporation Limited (UPPCL)

Bill of Quantities means the priced and completed Bill of Quantities forming part of the Bid.

Company shall mean a body corporate incorporated in India under the Companies Act, 1956 or the Companies Act, 2013 or Cooperative Societies Registered under Cooperative Societies Act, 1984, as applicable;

Compensation Events are those defined in Clause 44 hereunder.

Completion Date is the date of completion of the Works as certified by the Engineer in accordance with Sub Clause 55.1.

Consents, Clearances and Permits shall mean all authorizations, licenses, approvals, registrations, permits, waivers, privileges, acknowledgements, agreements, or concessions required to be obtained from or provided by any concerned authority for the purpose of setting up of the generation facilities and/or supply of power line;

Contract is the contract between the “Employer” and the “Contractor” to execute, complete and maintain the works till the completion of Defect Liability Period. It consists of the documents listed in clause 2.3.

Contract Data defines the documents and other information which comprise the Contract.

Contractor is a person or corporate body whose Bid to carry out the Works, including the routine maintenance, has been accepted by the Employer.

Contractor's Bid is the completed Bidding document submitted by the Contractor to the Employer and includes Technical and Financial bids.

Contract Price is the price stated in the Letter of Acceptance and thereafter as adjusted in accordance with the provisions of the Contract.

Days are calendar days; **months** are calendar months.

Defect is any part of the Works not completed in accordance with the Contract.

Defects Liability Period is the period named in the Contract Data and calculated from the Completion Date.

Defect Defects Liability Period Certificate is the certificate issued by Engineer, after the defect Liability Period has ended and upon correction of Defects by the Contractor.

Discom or DISCOM shall refer to Dakshinanchal Vidyut Vitran Nigam Limited, Kanpur Electricity Supply Company Limited, Madhyanchal Vidyut Vitran Nigam Limited, Paschimanchal Vidyut Vitran Nigam Limited, Purvanchal Vidyut Vitran Nigam Limited and Uttar Pradesh Power Corporation Limited (UPPCL).

Drawing include calculation and other information provided or approved by the Engineer for the execution of the contract.

Employer is the party as defined in the Contract Data, who employs the Contractor to carry out the Works, including routine maintenance. The Employer may delegate any or all functions to a person or body nominated by him for specified functions.

Engineer is the person named in the Contract Data (or any other competent person appointed and notified to the contractor to act in replacement of the Engineer) who is responsible for supervising the Contractor, administering the Contract, certifying payments due to the Contractor, issuing and valuing Variations to the Contract, awarding extensions of time, and valuing the Compensation Events.

Equipment is the Contractor's machinery and vehicles brought temporarily to the site to construct the works.

Initial Contract Price is the Contract Price listed in the Employer's Letter of Acceptance.

Intended Completion Date is the date on which it is intended that the Contractor shall complete the Works. The Intended Completion Date is specified in the Contract Data. The Intended Completion Date may be revised only by the Engineer by issuing an extension of time.

Materials are all supplies, including consumables, used by the contractor for incorporation in the Works.

Plant is any integral part of the Works which is to have a mechanical, electrical, electronic or chemical or biological function.

Routine Maintenance is the maintenance of works for five years as specified in the Contract Data.

The **Defect Liability Period(DLP)**of the entire works is of 5 years with routine maintenance as per SOP and maintenance manual.

Site is the area defined as such in the Contract Data.

Specification means the Specification of the Works included in the Contract and any modification or addition made or approved by the Engineer.

Start Date is given in the Contract Data. It is the date when the Contractor shall commence execution of the works. It does not necessarily coincide with any of the Site Possession Dates.

ST&DU or State Transmission & Distribution Utility shall mean the Board or the Government Company notified by the respective State Government under Sub-Section I of Section 39 of the Electricity Act, 2003.

Sub-Contractor is a person or corporate body who has a Contract with the Contractor to carry out a part of the construction work and/or routine maintenance in the Contract, which includes work on the Site.Engineer is authorized to review the terms and conditions of Subcontract or the supplier of materials to the Original Contractor or Subcontract of labor if any.

Temporary Works are works designed, constructed, installed, and removed by the Contractor which are needed for the construction or installation of the Works.

ULB as define in the contract data is under local bodies in which bid has floated

ULB's as define in the contract data is under local bodies of Uttar Pradesh.

Tax means and includes a tax, duty, rate, toll, fee etc. levied by the central or state Govt. or Local authorities under laws of India.

Variation is an instruction given by the Engineer, which varies the quantities of Works.

Works are what the Contract requires the Contractor to construct, install, and turn over to the Employer, as defined in the Contract Data.Routine maintenance is defined separately.

2. Interpretation

- 2.1. In interpreting these Conditions of Contract, singular also means plural, male also means female or neuter, and the other way around. Headings have no significance. Words have their normal meaning under the language of the Contract unless specifically defined. The Engineer will provide instructions clarifying queries about the Conditions of Contract.
- 2.2. If sectional completion is specified in the Contract Data, references in the Conditions of Contract to the Works, the Completion Date, and the Intended CompletionDate apply to any Section of the Works (other than references to the Completion Date and Intended Completion date for the whole of the Works).

2.3. The documents forming the Contract shall be interpreted in the following order of priority:

- (1) Agreement,
- (2) Notice to Proceed with the Work,
- (3) Letter of Acceptance,
- (4) Contractor's Bid part I and part II
- (5) Contract Data,
- (6) Special Conditions of Contract Part II,
- (7) General Conditions of Contract Part I,
- (8) Scope of work,
- (9) Specifications,
- (10) Drawings,
- (11) Bill of Quantities as uploaded on website with the bid document for the said NIT, No any change in up loaded BOQ will be allowed.
- (12) NIT
- (13) T-4
- (14) T-5
- (15) T-6 in original.
- (16) Name of the Contractor Nominee as per clause 62.2 (if any) and
- (17) Any other document listed in the Contract Data.

3. Language and Law

3.1 The language of the Contract and the law governing the Contract are stated in the Contract Data.

3.2 The language for the formal correspondences are stated in the Contract Data.

4. Engineer's Decisions

4.1 Except where otherwise specifically stated, the Engineer will decide contractual matters between the Employer and the Contractor in the role representing the Employer. However, if the Engineer is required under the rules and regulations and orders of the Employer to obtain approval of some other authorities for specific actions, he/she will so obtain the approval.

4.2 Except as expressly stated in the Contract, the Engineer shall not have any authority to relieve the Contractor of any of his/her obligations under the contract.

5. Delegation

5.1. The Engineer, with the approval of the Employer, may delegate any of his duties and responsibilities to departmental officer except to the Adjudicator after notifying the Contractor and may cancel any delegation after notifying the Contractor.

6. Communications

- 6.1. All Certificate, notices or instructions to be given to the Contractor by Employer / Engineer shall be sent on the address or contact details given by the Contractor in Section 6- Form of Bid. The address and contact details for communication with the Employer/ Engineer shall be as per the details given in bid document. Communications between parties that are referred to in the conditions shall be in writing. The Notice sent by Facsimile (fax) or other electronic means(email,sms, whatsapp, Twitter etc.)shall be effective on confirmation of the transmission. The Notice sent by Registered post or Speed post shall be effective on delivery or at the expiry of the normal delivery period as undertaken by the postal service.
- 6.2. Any change in communication address by the contractor during the concurrence of the contract must be intimated by the Contractor through registered letter and e-mail to the employer as well as the Engineer failing which the communication address given by the contractor in **Section-6 Form of Bid** will be valid address for any communication which will be binding to the contractor.

7. Sub-contracting

- 7.1. Deleted
- 7.2. The Engineer should satisfy himself before recommending to the Employer whether
- a. The circumstances warrant such sub-contracting; and
 - b. The sub-Contractor so proposed for the work possesses the experience, qualification and equipment necessary for the job proposed to be entrusted to him in proportion of the Quantum of work to be sub-contracted.

8. Other Contractors

- 8.1. The Contractor shall cooperate and share the Site with other contractors, public authorities' utilities, and the Employer between the dates given in the Schedule of other Contractors. The Contractor shall as referred to in the Contract Data, also provide facilities and services for them as described in the Schedule. The employer may modify the schedule of other contractors and shall notify the contractor of any such modification.
- 8.2. The Contractor should take up the work in convenient reaches as decided by the Engineer to ensure there is least hindrance to the smooth flow of traffic including movement of vehicles and equipment of other Contractors till the completion of the works.

9. Personnel

- 9.1. The Contractor shall employ the key personnel named in the Schedule of Key Personnel as referred to in the Contract Data to carry out the functions stated in the Schedule or other personnel approved by the Engineer. The Engineer will approve any proposed replacement of key personnel only if their qualifications, abilities, and relevant experience are substantially equal to or better than those of the personnel listed in the Schedule.
- 9.2. If the Engineer asks the Contractor to remove a person who is a member of the Contractor's staff or his work force stating the reasons the Contractor shall ensure that the person leaves the Site within seven days and has no further connection with the work in the Contract.
- 9.3. The Contractor shall not employ any retired Gazetted officer who has worked in the Engineering Department or any other department of the State or Central Government and has either not completed one year after the date of retirement or has not obtained State or Central Government's permission to employment with the Contractor.
- 9.4. The Contractor shall not employ any retired employee of the ULB department who retired within one year without the prior permission from department.
- 9.5. Any type of misbehavior either by Contractor or by his/her personnel will be treated as same one by the Contractor.
- 9.6. Neither Contractor nor his/her personnel will do any activity at the Work site or vicinity of the Work due to which law and order & Social harmony problem arise.
- 9.7. Neither Contractor nor his/her personnel will involve in any unsocial activity.

10. Employer's and Contractor's Risks

- 10.1. The Employer carries the risks which this Contract states are Employer's risks, and the Contractor carries the risks which this Contract states are Contractor's risks.

11. Employer's Risks

- 11.1. The Employer is responsible for the excepted risks which are (a) in so far as they directly affect the execution of the Works in India, the risks of war, hostilities, invasion, act of foreign enemies, rebellion, revolution, insurrection or military or usurped power, civil war, riot commotion or disorder (unless restricted to the Contractor's employees), and contamination from any nuclear fuel or nuclear waste or radioactive toxic explosive, or (b) a cause due solely to the design of the Works, other than the Employer's design.

12. Contractor's Risks

12.1. All risks of loss of or damage to physical property and of personal injury and death which arise during and in consequence of the performance of the Contract other than the excepted risks, referred to in clause 11.1, are the responsibility of the Contractor.

13. Insurance (Contractors All Risk Policy)

13.1. The Contractor shall provide, in the joint names of the Employer and the Contractor, insurance cover (Contractors All Risk Policy) from the Start Date to the end of the Defects Liability Period, in the amounts and deductibles stated in the Contract Data for the following events which are due to the Contractor's risks:

- a. loss of or damage to the Works, Plant and Materials;
- b. loss of or damage to Equipment;
- c. loss of or damage of property (except the Works, Plant, Materials and Equipment) in connection with the Contract; and
- d. personal injury or death.

13.2. Insurance policies and certificates for insurance **shall be delivered by the Contractor to the Engineer for the Engineer's approval before the Start Date**. All such insurance shall provide for compensation to be payable in the types and proportions of currencies required to rectify the loss or damage incurred.

13.3. If the Contractor does not provide any of the policies and certificates required, the Employer may affect the insurance which the Contractor should have provided and recover the premiums the Employer has paid from payments otherwise due to the Contractor or, if no payment is due, the payment of the premiums shall be a debt due.

13.4. Alterations to the terms of an insurance shall not be made without the approval of the Engineer.

13.5. Both parties shall comply with any conditions of the insurance policies.

13.6. In any case, the Contractor shall keep the Employer indemnified from any such losses.

13.7. (a) The Contractor at his/her cost shall also provide, in the joint names of the Employer and the Contractor, insurance cover from the date of completion to the end of defect liability period, in the amounts and deductibles stated in the Contract Data for the following events which are due to the Contractor's risks:

(b) Personal injury or death.

14. Site Investigation Reports

- 14.1. The Contractor is advised to visit the site and get any sub soil investigation or other site investigations got done at his own, while preparing the Bid.

15. Queries about the Contract Data

- 15.1. The Engineer will clarify queries on the Contract Data.

16. Contractor to Construct the Works

- 16.1. The Contractor shall construct and install and maintain the Works in accordance with the Specification and Drawings.

17. The Works to be completed by the Intended Completion Date

- 17.1. The Contractor may commence execution of the Works on the Start Date and shall carry out the Works in **accordance with the Programme** submitted by the Contractor, as updated with the approval of the Engineer, and complete them by the Intended Completion Date.

18. Approval by the Engineer

- 18.1. The Contractor shall submit Specifications and Drawings showing the proposed Temporary Works to the Engineer, who is to approve them if they comply with the Specifications and Drawings.
- 18.2. The Contractor shall be responsible for design of Temporary Works.
- 18.3. The Engineer's approval shall not alter the Contractor's responsibility for design of the Temporary Works.
- 18.4. The Contractor shall obtain **approval of third parties to the design of the Temporary Works** where required.
- 18.5. All Drawings prepared by the Contractor for the execution of the temporary or permanent Works, are subject to prior approval by the Engineer before their use.

19. Safety

- 19.1. The Contractor shall be responsible for the overall safety of all activities on the Site during the construction period to pass the traffic without any obstruction.
- 19.2. The Contractor shall be responsible for safety of all persons, employed by him on Works, directly, and shall report accidents to any of them, however, and wherever occurring on Works, to the Engineer or the Engineer's Representative, and shall make every arrangement to render all possible assistance and to provide prompt and proper medical attention. The compensation for affected Workers or their relatives shall be paid by the Contractor in such cases expeditiously in accordance with the Workmen's Compensation Act and other labour Laws and regulations

20. Discoveries

- 20.1. Anything of historical or other interest or of significant value unexpectedly discovered on the Site is the property of the Employer. The Contractor is to notify the Engineer of such discoveries and carry out the Engineer's instructions for dealing with them.

21. Possession of the Site

The Employer shall handover complete or part possession of the site to the Contractor 7 days in advance of construction programme. At the start of the work, the Employer shall handover the possession of at-least 75% of the site.

22. Access to the Site

- 22.1. The Contractor shall allow access to the Site and to anyplace where work in connection with the Contract is being carried out, or is intended to be carried out to the Engineer and any person/persons/agency authorized by:

- a. The Engineer
- b. The Contractor
- c. Government of Uttar Pradesh.

23. Instructions

- 23.1. The Contractor shall carry out all instructions of the Engineer pertaining to works which comply with the applicable laws where the Site is located.
- 23.2. The Contractor shall permit the Employer to inspect the Contractor's accounts and records relating to the performance of the Contractor and to have them audited by auditors appointed by the Employer, if so required by the Employer..

24. Disputes Redressal System

- 24.1 If any dispute or difference of any kind what-so-ever shall arise in connection with or arising out of this Contract or the execution of Works or maintenance of the Works there under, whether before its commencement or during the progress of Works or after the termination, abandonment or breach of the Contract, it shall, in the first instance, be referred for settlement to the competent authority within 30 days of arising of the dispute or difference, described along with their powers in the Contract Data, above the rank of the Engineer. The competent authority (Employer) shall, within a period of 30 days after being requested in writing by the Contractor to do so, convey his/her decision to the Contractor. Such decision in respect of every matter so referred shall, subject to review as hereinafter provided, be final and binding upon the Contractor. In case the Works is already in progress, the Contractor shall proceed with the execution of the Works, including maintenance thereof, pending receipt of the decision of the competent authority as aforesaid, with all due diligence.

24.2 Either party will have the right of appeal, against the decision of the competent authority, to the Standing Empowered Committee within 90 days of decision of the competent authority if the amount appealed against exceeds 0.20 (zero point two zero) percent of the initial contract price.

24.3. The composition of the Empowered Standing Committee will be:

I. Special Secretary to the State Government;

I. Chief Engineer; and

II. One non-official member who will be technical expert of Chief Engineer's or Superintending Engineer's level selected by the Contractor from a panel of three persons given to him by the Employer.

24.4. The Contractor and the Employer will be entitled to present their case in writing duly supported by documents. If so requested, the Standing Empowered Committee may allow one opportunity to the Contractor and the Employer for or all arguments for a specified period. The Empowered Committee shall give its decision within a period of ninety days from the date of appeal, failing which the Contractor can approach the appropriate court for the resolution of the dispute.

24.5. The decision of the Standing Empowered Committee will be binding on the Employer for payment of claims up to five percent of the Initial Contract Price. The Contractor can accept and receive payment after signing as "in full and final settlement of all claims". If he/she does not accept the decision, he/she is not barred from approaching the courts. Similarly, if the Employer does not accept the decision of the Standing Empowered Committee above the limit of five percent of the Initial Contract Price, he/she will be free to approach the courts applicable under the law

25. Procedure for Disputes

25.1. The official appointed by Employer shall give a decision in writing within **30 days** of receipt of a notification of a dispute.

25.2. Deleted.

25.3 In view of the provision of the clause 24 on Dispute Redressal System, it is the condition of the Contract that there will be no **arbitration** for the settlement of any dispute between the parties.

26. Replacement of Dispute Review Expert

26.1. Deleted

B. TIME CONTROL

27. Programme

- 27.1. Within the time stated in the Contract Data the Contractor shall submit to the Engineer for approval a Programme showing the general methods, arrangements, order and timing for all the activities in the Works along with monthly cash flow forecast. *After the completion of the construction works, the programme for the Routine Maintenance Work, showing the general methods, arrangements, order and timing for all the activities involved in the Routine Maintenance will also be submitted by the Contractor to the Engineer for approval. The programme for Routine Maintenance will be submitted in each year for the period of Maintenance.*
- 27.2. An update of the Programme shall be a programme showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work including any changes to the sequence of the activities.
- 27.3. The Contractor shall submit to the Engineer, for approval, an updated Programme at intervals no longer than the period stated in the Contract Data. If the Contractor does not submit an updated Programme within this period, the Engineer may withhold the amount stated in the Contract Data from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue Programme has been submitted.
- 27.4. The Engineer's approval of the Programme shall not alter the Contractor's obligations. The Contractor may revise the Programme and submit it to the Engineer again at any time. A revised Programme shall show the effect of Variations and Compensation Events.
- 27.5. The Contractor shall submit the list of equipment and machinery being brought to site, the list of key personnel being deployed, the list of machinery/ equipment's being placed in field laboratory and the location of field laboratory along with the Programme. The Engineer shall cause these details to be verified at each appropriate stage of the programme.
- 27.6. The list of Key Personnel deployed by the Contractor shall not be altered without the consent of Engineer.
- 27.7. The contractor shall also submit the weekly microplan in form Request for Inspection (RFI) in prescribed/duly approved format.

28. Extension of the Intended Completion Date

- 28.1. The Engineer shall extend the Intended Completion Date (as per state government rules) if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Contractor taking steps to accelerate the remaining work and which would cause the Contractor to incur additional cost.

The Contractor shall apply for time extension to the Engineer before the intended completion date stating the self-explanatory reason of hindrance.

28.2. The Engineer shall decide whether and by how much to extend the Intended Completion Date within time stipulated in clause 28.3 of the Contractor asking the Engineer for a decision upon the effect of a Compensation Event or Variation and submitting full supporting information. If the Contractor has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new Intended Completion Date.

28.3. The Engineer shall within 14 days of receiving full justification from the contractor for extension of Intended Completion Date refer to the Employer for his decision. The Employer shall in not more than 21 days communicate to the Engineer the acceptance or otherwise of the Engineer's decision. If the Employer fails to give his acceptance, the Engineer shall not grant the extension and the contractor may refer the matter to the Dispute Review Expert under Clause 24.1.

28.4. **Force Majeure (FM):** Conditions beyond control of either parties like war, hostility, acts of public enemy, civil commotion, sabotage, serious loss or damage by fire, explosions, epidemics, strikes, lockouts or acts of God come under the legal concept of Force Majeure (FM). Delays in performance of contractual obligations under influence of FM conditions are condonable by the other party without any right to termination or damages, provided, notice of the happening of any such event is given by the affected party to the other within 30 (thirty) days from the date of occurrence. Works under the contract shall be resumed as soon as practicable after such event has come to an end or ceased to exist. However, if such event continues for a period exceeding 120 days, either party may at its option terminate the contract by giving notice to the other party.

28.5. Delays in Execution:

- i. A work may be completed ahead of schedule or delayed due to unforeseen fortuitous circumstances, extra effort or developments beyond the control of the procuring entity or the tenderer and it is sometimes difficult to apportion credit or responsibility. The contractor may experience delay or disruption due to his own actions or inaction, those of his sub-contractor or other contractors, those of the procuring entity or the engineer, or other causes. Such delays expose the non-performing party to various sanctions under the contract. These sanctions include extension of time, damages or default termination of the contract. While examining the request of the contractor for extension of time, the engineer shall consider all circumstances and categorise the delays as follows:
 - b. **Excusable delays** - Force Majeure (FM), that is, acts of God, abnormal weather, floods, and so on, applies;
 - c. **Compensable delays** – or Compensation Events, which put full burden of responsibility on the Procuring Entity as covered in the GCC; and
 - d. **Inexcusable delay** (contractor's own faults), which puts the full burden of responsibility on the contractor.

- e. **Concurrent delays** - when two or more events responsible for delay overlap each other. The delays may be attributable to the Procuring Entity or the contractor or none, and fall in above categories. The eligibility for extension of time (EOT) should be determined by plotting each contributing concurrent delay on the critical path. The Procuring Entity/TIA should see that the concurrent delays do not result in unnecessary extra extension of time.
 - ii. Once the delay is categorized, it should then be determined not only whether the contractor is eligible for time extension and/ or monetary relief but also whether sanctions, such as Liquidated Damage (LD) or default termination, can be imposed on the contractor.
- 28.6 The competent authority as per state Government rules shall decide whether and by how much time to extend the Intended Completion Date.
- 28.7 No any extension of Intended Completion Date will be allowed if the delay is caused due to stopping the construction activity for along period by Gundaism or by misbehaving or by in-fighting with the local habitant either bythe Contractor or his/her personnel or by any cause created bythe Contractor or his/her personnel.
- 28.8 Extension of Intended Completion Date due to medical ground will not be considered in general but it may be considered in exceptional case.
29. **Deleted.**
30. **Delays Ordered by the Engineer**
- 30.1. The Engineer may instruct the Contractor to delay the start or progress of any activity within the Works. Delay/delays totaling more than 30 days will require prior written approval of the Employer.
- 30.2. If any delay/delays in date of start ordered by the Engineer in writing the due date of completion shall be shifted accordingly by the Employer. Written order of delays by the Engineer must be intimated to the Employer.
31. **Management Meetings**
- 31.1. The Engineer may require the Contractor (all partners, in case of JV) to attend a management meeting. The business of a management meeting shall be to review the plans for the remaining work and to deal with matters raised in accordance with the early warning procedure.
- 31.2. The Engineer shall record the business of management meetings and is to provide copies of his record to those attending the meeting and to the Employer. The responsibility of the parties for actions to be taken is to be decided by the Engineer either at the management meeting or after the management meeting and stated in writing to all concerned.
32. **Early Warning**
- 32.1. The Contractor is to warn the Engineer at the earliest opportunity of specific likely future events or circumstances that may adversely affect the quality of the work,

increase the Contract Price or delay the execution of works. The Engineer may require the Contractor to provide an estimate of the expected effect of the future event or circumstance on the Contract Price and Completion Date. The estimate is to be provided by the Contractor as soon as reasonably possible.

- 32.2. The Contractor shall cooperate with the Engineer in making and considering proposals for how the effect of such an event or circumstance can be avoided or reduced by anyone involved in the work and in carrying out any resulting instruction of the Engineer.

C. QUALITY CONTROL

33. Identifying Defects

- 33.1. The Engineer shall check the Contractor's work and notify the Contractor for any Defects which are found. Such checking shall not affect the Contractor's responsibilities. The Engineer may instruct the Contractor to uncover and identify for any Defect and test any work that Engineer considers that it may have a Defect.

- 33.2 The Contractor will be fully responsible for the quality of work. If any work found unsatisfactory during the quality test, the contractor is bound to replace/reconstruct/rectify, whatever the case may be as directed by the Engineer.

34. Tests

- 34.1. If the Engineer instructs the Contractor to carry out a test not specified in the Specification to check whether any work has a Defect and the test shows that it does, the Contractor shall pay for the test and any samples.

During the execution of the project, routine tests as per technical specifications shall be conducted at specified intervals to ensure quality and integrity, encompassing material testing, structural integrity checks, and compliance verification. The Contractor shall maintain a comprehensive test register documenting all tests conducted, and before proceeding with subsequent stages, approval from the Employer for previous test results shall be obtained.

- 34.2. In order to control the quality of work, a Quality Control field laboratory shall be established by Contractor in respective Nagar Nigam with comprising of multi-disciplinary professionals / engineers and necessary test equipment's to cover all types of quality control works pertaining to the project. The Contractor shall be solely responsible for:

- a. Carrying out the mandatory tests prescribed in the Specifications, and
- b. For the correctness of the test results, whether preformed in his/her laboratory or elsewhere.

35. Correction of Defects

- 35.1. The Engineer shall give notice to the Contractor of any Defects before the end of the Defects Liability Period, which begins at Completion and is defined in the Contract

Data. The Defects Liability Period shall be extended for as long as Defects remain to be corrected.

35.2. Every time notice of a Defect is given, the Contractor shall correct the notified Defect within the length of time specified by the Engineer's notice.

35.3. Correction of Defects noticed during the Defects Liability Period and removal of deficiencies in Routine Maintenance of Roads for five years

- a. The Engineer shall give notice to the Contractor of any Defects before the end of the Defects Liability Period, which begins from the Completion Date of works of construction and ends after five years. The Defects Liability Period shall be extended for as long as the Defects remain to be corrected.
- b. The Engineer shall give notice to the Contractor of any Defects before the end of the maintenance period, which begins from the Completion Date of the Defect Liability Period and ends after five years. The maintenance period shall be extended for as long as the Defects remain to be corrected.
- c. Every time notice of Defect/Defects is given, the Contractor shall correct the notified Defect/Defects within the duration of time specified by the Engineer's notice.
- d. The Contractor shall do the routine maintenance of roads, including pavement, road sides, cross drains including surface drains and other components indicated in scope of work to the required standards and in the manner as defined in Clause 1.1 and keep the entire road surface and structure in defect free condition during the entire maintenance period which begins from the Completion Date and ends after five years.
- e. In compliance to Programme of Routine maintenance work (as per clause 27.1) submitted by the contractor, he shall carry out monthly inspection of roads under maintenance, based on which, he shall submit monthly bills.

The maintenance standards shall meet the following minimum requirements and shall fulfil the criteria, which has been elaborated in SOP and maintenance manual with frequency and activity to be carried out.

- f. To fulfil the objectives laid down in sub clauses 35.3.d and 35.3.e above, the Contractor shall undertake detailed inspection of the roads at least once in a month. The Engineer can increase this frequency in case of emergency. The Contractor shall forward to the Engineer, the record of inspection and rectification each month. The Contractor shall pay particular attention on those road sections, which are likely to be damaged or inundated during rainy season.
- g. The Engineer may issue notice to the Contractor to carry out removal of defects and deficiencies in maintenance of defects, if any, noticed in his inspection, or brought to his notice. The Contractor shall remove the defects within the period specified in the notice and submit to the Engineer a compliance report. In any case the rectification shall be done within 15 days. If the Contractor fails to rectify the defects noticed by

the Engineer within the specified period it will cause the breach of contract and suitable action shall be taken against the contractor as per specified clauses.

- h. Any instructions issued by the Departmental Officer/Quality Control Engineer during concurrence of contract or during defect liability period shall be binding upon the contractor.
- i. The Contractor shall maintain power line (underground) under the supervision of respective substation Engineer-in-Charge as mentioned in the Contract data.

35.4 Any instructions issued by the Departmental officer or TAC (Technical Audit Cell of Government) during concurrence of contract or during defect liability period shall be binding to the contractor.

36. Uncorrected Defects

- 36.1 If the Contractor has not corrected a Defect pertaining to the Defects Liability Period under clause 35.3 of these Conditions of Contract, to the satisfaction of the Engineer within the time specified in the Engineer's notice, the Engineer will assess the cost of having the Defect corrected, and the Contractor will pay this amount.
- 36.2 If the Contractor does not rectify the defects after repeated instruction of Engineer it shall be treated as breach of contract and his/her contract shall be terminated followed by debar for future tendering or black listing.
- 36.3 If the Contractor has not corrected a Defect pertaining to the Defect Liability Period as per Conditions of Contract to the satisfaction of the Engineer, within the time specified in the Engineer's notice, The Engineer will assess the cost of correction plus 20% of bonded amount as additional cost for completing the defects and will get corrected by debit agency like Work Order/ New Agreement as the case may be after informing to the original Contractor. The cost of correction shall be deducted from any dues of the Original Contractor.

D. COST CONTROL

37. Bill of Quantities

37.1. The Bill of Quantities shall contain items for the construction, installation, testing, and commissioning, maintaining works, and lump sum amount per km for yearly routine maintenance for each of the five years separately, to be done by the Contractor.

37.2. The Bill of Quantities is used to calculate the Contract Price. The Contractor is paid for the quantity of the work done at the rate in the Bill of Quantities for the construction works. The payment for routine maintenance of road to the contractor is performance based.

38. Changes in the Quantities

Deleted

39. Variations and Extra Items

39.1 All Variations shall be included in updated Programmes produced by the Contractor.

39.2 The Competent Authority as per state Govt shall, having regard to the scope of the Works and the sanctioned estimated cost, have power to order, in writing, Variations within the scope of the Works he/she considers necessary or advisable during the progress of the Works. Such Variations shall form part of the Contract and the Contractor shall carry them out and include them in updated Programmes produced by the Contractor. Oral orders of the Engineer for Variations, unless followed by written confirmation, shall not be taken into account. The variation should not be beyond the sanctioned estimated cost

39.3 Any Extra items and items to be deleted shall be treated as 100% variations. Prior approval of such items from Employer is mandatory.

Variation shall be sanctioned as per the latest circular which will be issued by URIDA/ competent authority from time to time.

40. Payments for Variations

40.1. If rates for variation items are specified in Bill of Quantity, the contractor shall carry out such work at the same rate. This shall apply for variation only up to the limit prescribed in the contract data. If the variation exceeds this limit, the rates shall be derived under the provision of clause 40.3 for quantities (higher or lower) exceeding the deviation limit.

- 40.2. If the items for Variation are not specified in the Bill of Quantities, the Engineer shall derive the rate for such variation item from similar items in the Bill of Quantities with the Employer approval.
- 40.3. If the rate for Variation item cannot be determined in the manner specified in Clause 40.1 & 40.2, the Contractor shall, within 7 days of the issue of order of Variation work, inform the Engineer the rate which he proposes to claim, supported by analysis of the rates. The Engineer shall assess the quotation and determine the rate based on prevailing market rates within one month of the submission of the claim by the Contractor. As far as possible, the rate analysis shall be based on the standard data book and the relevant schedule of rates of the state. The recommendation of the Engineer on the rate so determined shall be submitted to the Employer for approval. The decision of the Employer/Engineer shall be final and binding on the Contractor. Overall percentage rate below /above of the contract shall also be applicable to these rates.

41. Cash Flow Forecasts

- 41.1. When the Programme is updated, the contractor is to provide the Engineer with an updated cash flow forecast.

42. Payment Certificates

- 42.1. The Contractor shall submit to the Engineer monthly statements of the estimated value of the work completed less the cumulative amount certified previously.
- 42.2. The Engineer shall check the Contractor's monthly statement within 14 days and certify the amount to be paid to the Contractor after taking into account any credit or debit for the month in question in respect of materials for the works in the relevant amounts and under conditions set forth in sub-clause 51(3) of the Contract Data.
- 42.3. The value of work executed shall be determined by the Engineer / authorized representative of Nodal/Competent authority.
- 42.4. The value of work executed shall comprise the value of the quantities of the items in the Bill of Quantities completed.
- 42.5. The value of work executed shall include the valuation of Variations and Compensation Events.
- 42.6. The Engineer may exclude any item certified in a previous certificate or reduce the proportion of any item previously certified in any certificate in the light of later information.

42.7. The payment to the Contractor will be as follows for routine maintenance:

The payment to be made to the Contractors for routine maintenance of roads is as follows and as per circulars given time to time.

Payment for the routine maintenance is performance based and lump sum as provided in the contract. For assessing the performance of roads and payment, the Contractor should submit monthly bills of maintenance on **specified date by Employer/Engineer**, through regular routine inspection **(RI)** and Performance Evaluation **(PE)** by the engineer. The details of RI, marking system in PE and payment methodology is given in note below. The detailed marking system is given in contract data, clause 4 (vi).

- (1) Payment for routine maintenance will be performance based. For certification of payment for routine maintenance, the engineer shall determine whether the contractor has actually achieved compliance to the Service Quality Level (and other requirements) specified in the SOP and maintenance manual, with reference to 100-point (hundred point) performance indexes assigned to various maintenance activities as given in the contract data and the engineer shall certify the amount to be paid to the contractor. If contractor has not corrected a Defect pertaining to the Defects Liability Period or attended maintenance work under clause 35 of these conditions, to the required standard and performance index is below 80 points (eighty points) no payment will be released for that period even if such maintenance is attended in subsequent months. If performance index is 100 points full payment, at the approved rate, shall be released. If performance index is between 80 to 100, proportionate deduction in payment will be made for the works not attended during that period.

$$\text{Weighted Average} = \frac{\sum (\text{Marks for Segment} \times \text{Length of Segment})}{\text{Total length of road}}$$

- (2) For performance evaluation and payment of routine maintenance individual road shall be the unit. Evaluation shall be done separately for every km or part thereof (segment wise) and weighted average of marks obtained shall be considered while making payment.
- (3) If any two segments get less than 80 marks or any particular segment continuously gets less than 80 marks, the payment for whole road shall be denied. Details are as below.

Note:The Routine Inspection and performance evaluation of road will be done for the whole road.

ROUTINE INSPECTIONS (RI)

- (1) Every road must be inspected for Routine Inspection(RI) atleast once in every month. (Monthly frequency)
- (2) Routine inspection canbe carriedout by any of the Engineer including JE/AE/EE orequivalent.
- (3) Deleted.
- (4) For the purpose of RI, each road shall be divided into segments of one kilometer or part thereof. Complete road length shall be compulsorily inspected during a routine inspection.
- (5) For each segment two geo-tagged and time-stamped photographs shall be documented for each segment. The chainages for capturing photographs shall be system generated to ensurerandomness.
- (6) Deleted.
- (7) Deleted.

PERFORMANCE EVALUATION (PE)

- (1) Every road must be evaluated at least once in every month. (Monthlyfrequency)
- (2) PE can be carried out by any of theULBOfficers including Sub Engineer/ JE/ AE/EEor equivalent.
- (3) For the purpose of PE, each road shall be divided into segments of one kilometer or part thereof. Based on the grading of RI and along with photographs documented during RI, every segment is given marks out of 100 on the parameters fixed for PE. The weighted average marks are then evaluated for the entireroad.
- (4) All the PE conducted need to be finalized by the respective Engineer-in-charge.
- (5) Whilefinalizing PE, Engineer-in- charge may change the marks given to the road by the inspecting officer,along with mentioning the reasons for the changemade.
- (6) Criteria for Payment based on the marks obtained in PE is asfollows:
 - a) If the weighted average marks for the entire road is 100 then full pay ment will be done.
 - b) If the weighted average marks for the entire road is between 80 and

100, then proportionate payment will be done. If the marks obtained is 88 out of 100 then 88% of the amount of bill raised will be paid.

If the weighted average marks for the entire road is less than 80 then no payment will be done for the entire road.

- c) Deleted.
- d) If any two segment so far as get less than 80 marks in the same PE, then no payment will be done for the entire road.
- e) If any particular segment of a road gets less than 80 marks in two consecutive PE, then no payment will be done for the entire road.

(6) The Contractor shall submit to the Engineer a bill every month for the routine maintenance of the roads from the date the maintenance period starts i.e. from completion date as defined in Section 3, Clause 1.1, it will be supported with a copy of the record of the Contractor's monthly inspection and other instructions received from the Engineer.

(7) The payment will be made quarterly for the monthly bills received and ascertained by the Engineer based on performance by the Contractor.

(8) The contractor shall submit monthly bills by the 25 day of the next month and if the bill for a month is not received from the Contractor, he forfeits his right for the payment and no payment shall be due to the contractor.

On submission of timely bills, engineer to certify the quality and actions taken as per clause 35.3.g by the contractor, by way of Routine inspection and Performance evaluation, marking system as explained herein before, the frequency of RI and PE is every two months and payment of bills is six monthly and Engineer should ensure not delay of RI and PE-

(9) If the Contractor has failed to carry out the maintenance within the period specified by the Engineer, no payment of any kind will be due to the Contractor for that month.

43. Payments

43.1. Payments shall be adjusted for deductions for advance payments, retention, other recoveries in terms of the contract and taxes at source, as applicable under the law. The Employer shall pay upon the submission of bill and satisfactory execution of work the Contractor the amounts certified by the Engineer within 28 days of the date of each certificate.

43.2. Deleted

43.3. Deleted.

43.4 The Employer may appoint another authority, as specified in the Contract Data (or any other competent person appointed by the Employer and notified to the Contractor) to make payment certified by the Engineer

44. Compensation Events

44.1. The following are Compensation Events unless they are caused by the Contractor:

- (a) The Employer does not give access to a part of the Site by the Site Possession Date stated in the Contract Data.
- (b) The Employer modifies in written the schedule of other contractors in a way, which affects the work of the contractor under the contract.
- (c) The Engineer orders a delay or does not issue drawings, specifications or instructions required for execution of works on time.
- (d) The Engineer instructs in writing the Contractor to uncover or to carry out additional tests upon work, which is then found to have no Defects.
- (e) Deleted.
- (f) Ground conditions are substantially more adverse than could reasonably have been assumed before issuance of Letter of Acceptance from the information issued to Bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the site.
- (g) The Engineer gives an instruction in writing for dealing with an unforeseen condition, caused by the Employer, or additional work required for safety or other reasons.
- (h) Other contractors, public authorities' utilities or the Employer does not work within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Contractor.
- (i) The advance payment is delayed, beyond 28 days after receipt of application and bank guarantee.
- (j) The effect on the Contractor of any of the Employer's Risks.
- (k) The Engineer unreasonably delays issuing a Certificate of Completion.
- (l) Other Compensation Events listed in the Contract Data or mentioned in the Contract.

44.2. Deleted.

44.3. Deleted.

44.4. Deleted.

44.5. If a Compensation Event would prevent the Works being completed before the Intended Completion Date, the Intended Completion Date shall be extended. The Engineer shall decide whether and by how much the Intended Completion Date shall be extended.

45. Tax

45.1. The rates quoted by the Contractor shall be deemed to be inclusive all taxes but exclusive of G.S.T, which shall be paid extra as applicable.

46. Currencies

46.1. All payments shall be made in Indian Rupees.

47. Price Adjustment

Deleted

48. Retention

48.1. The Employer shall retain from each payment due to the Contractor, the proportion stated in the Contract Data until Completion of the whole of the Works.

48.2. On Completion of the whole of the Works half the total amount retained is repaid to the Contractor and half when the Defects Liability Period has passed and the Engineer has certified that all Defects notified by the Engineer to the Contractor before the end of this period have been corrected.

48.3. On completion of the whole works, the contractor may substitute retention money with an "on demand" Bank guarantee.

49. Liquidated Damages

49.1. The Contractor shall pay liquidated damages to the Employer at the rate per day stated in the Contract Data for each day that the Completion Date is later than the Intended Completion Date (for the whole of the works or the milestone as stated in the contract data). The total amount of liquidated damages shall not exceed the amount defined in the Contract Data. The Employer may deduct liquidated damages from payments due to the Contractor. Payment of liquidated damages does not affect the Contractor's liabilities.

49.2. If the Intended Completion Date is extended after liquidated damages have been paid, the Engineer shall correct any overpayment of liquidated damages by the Contractor by adjusting the next payment certificate.

49.3. If the contractor fails to comply with the time for completion as stipulated in the tender, then the contractor shall pay to the employer the relevant sum stated in the Contract Data as Liquidated damages for such default and not as penalty for

everyday or part of day which shall elapse between relevant time for completion and the date stated in the taking over certificate of the whole of the works on the relevant section, subject to the limit stated in the contract data.

The employer may, without prejudice to any other method of recovery deduct the amount of such damages from any monies due or to become due to the contractor. The payment or deduction of such damages shall not relieve the contractor from his obligation to complete the works on from any other of his obligations and liabilities under the contract.

- 49.4. If, before the Time for Completion of the whole of the Works or, if applicable, any Section, a Taking - Over Certificate has been issued for any part of the Works or of a Section, the liquidated damages for delay in completion of the remainder of the Works or of that Section shall, for any period of delay after the date stated in such Taking-Over Certificate, and in the absence of alternative provisions in the Contract, be reduced in the proportion which the value of the part so certified bears to the value of the whole of the Works or Section, as applicable. The provisions of this Sub-Clause shall only apply to the rate of liquidated damages and shall not affect the limit thereof.

50. Deleted.

51. Advance Payment

- 51.1. The Employer shall make mobilization advance payment (not to be paid in less than two installments except in special circumstances for which the reasons to be recorded in writing) to the Contractor of the amounts stated in the Contract Data by the date stated in the Contract Data, against provision by the Contractor of an Unconditional Bank Guarantee in a form and by a Nationalized / Scheduled bank to the Employer in amounts and currencies equal to be at least 110% of the advance payment. The guarantee shall remain effective until the advance payment has been repaid, but the amount of the guarantee shall be progressively reduced by the amounts repaid by the Contractor. The mobilization advance would be deemed as interest bearing advance at an interest rate of 10% to be compounded quarterly.
- 51.2. The Contractor is to use the advance payment only to pay for Equipment, Plant and Mobilization expenses required specifically for execution of the Works. The Contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the Engineer.
- 51.3. The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Contractor, following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, Variations, price adjustments, Compensation Events, or Liquidated Damages.

- 51.4. **Secured Advance-** No Secured Advances will be given.

52. Securities

52.1. The Performance Security (including additional security for unbalanced bids) shall be provided to the Employer no later than the date specified in the Letter of Acceptance and shall be issued in an amount and form and by a bank or surety acceptable to the Employer, and denominated in Indian Rupees. The Performance Security shall be valid until a date 28 days from the date of expiry of Defects Liability Period and the additional security for unbalanced bids shall be valid until a date 28 days from the date of issue of the certificate of completion.

53. Deleted.

54. Cost of Repairs

54.1. Loss or damage to the Works or Materials to be incorporated in the Works between the Start Date and the end of the Defects Correction periods shall be remedied by the Contractor at the Contractor's cost if the loss or damage arises from the Contractor's acts or omissions.

E. FINISHING THE CONTRACT

55. Completion of Construction

55.1. The Contractor shall request the Engineer to issue a Certificate of Completion of the Works and the Engineer will do so upon deciding that the Work is completed.

56. Taking Over

56.1. The Employer or his authorized person shall take over the Site and the Works within seven days of the Engineer issuing a certificate of Completion.

57. Final Account

57.1. The Contractor shall submit the Engineer with a detailed account of the total amount that the Contractor considers payable for works under the contract with in 30 days of issue of certificate of completion of construction of works. The Engineer shall issue a defectliability certificate and certify any payment that is due to the correct and complete. If the account is not correct or complete, the Engineer shall issue with in 42 days a schedule that states the scope of the corrections or additions that are necessary. If the account is still unsatisfactory after it has been resubmitted, the Engineer shall decide on the amount payable to the Contractor and issue a payment certificate within 28 days of receiving the Contractor's revised account. The payment of final bill for construction of works will be made within 14 daysthere-after.

57.2. In case the account is not received within 30 days of issue of Certificate of Completion as provided above, the Engineer shall proceed to finalize the account and issue a payment certificate within 28 days. The payment of final bill for construction of works will be made within 14 days thereafter.

58. Operating and Maintenance Manuals

58.1. If "as built" Drawings including L-section, X-section, Drawings of Culvert or bridges, Sanitary, water supply and electrical details etc. as the case may be shall be submitted by the Contractor with the submission of final bills.

58.2. If the Contractor does not supply the Drawings and/or manuals by the dates stated in the Contract Data, or they do not receive the Engineer's approval, the Engineer shall withhold the amount stated in the Contract Data from payments due to the Contractor.

59. Termination

59.1. The Employer or the Contractor may terminate the Contract if the other party causes a fundamental breach of the Contract.

59.2. Fundamental breaches of Contract include, but shall not be limited to the following:

- (a) the Contractor stops work for 28 days when no stoppage of work is shown on the current Programme and the stoppage has not been authorized by the Engineer;
- (b) the Engineer instructs the Contractor to delay the progress of the Works and the instruction is not withdrawn within 28 days;
- (c) The Contractor is made bankrupt or goes into liquidation other than for a reconstruction or amalgamation;
- (d) a payment certified by the Engineer is not paid by the Employer to the Contractor within 56 days of the date of the Engineer's certificate;
- (e) the Engineer gives Notice that failure to correct a particular Defect is a fundamental breach of Contract and the Contractor fails to correct it within a reasonable period of time determined by the Engineer;
- (f) the Contractor does not maintain a security which is required;
- (g) the Contractor has delayed the completion of works by the number of days for which the maximum amount of liquidated damages can be paid as defined in the Contract data; (it means the Contractor has delayed the works beyond the intended completion time even after imposing the liquidity damage) and
- (h) if the Contractor, in the judgment of the Employer has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.

- (i) The Contractor fails to provide insurance cover as required under clause13
- (j) If the Contractor has not completed at least thirty per cent of the value of construction Work required to be completed after half of the completion period has elapsed;
- (k) If the Contractor fails to set up a field laboratory(as pre Annexure I,B of ITB)with the prescribed equipment, within the period specified in the Contract Data;
- (l) If the Contractor fails to deploy machinery and equipment (as pre Annexure I,A of ITB)or personnel ((as pre Annexure II of ITB)as specified in the contract Data at the appropriate time;
- (m) if the Contractor fails to pay EPF/ESI contribution as required under prevailing laws;
- (n) if the Contractor engages child labor in violation of prevailing laws;
- (o) if the Contractor fails to ensure that there is no gender bias in engagement of labor and other employees and in payment of wages and he/she discriminate against female workers.
- (p) Non Cooperation with the Contractor.
- (q) If the Contractor does not maintain the quality after repeated instruction of Engineer.
- (r) Any activity against the CRPC/IPC
- (s) Any unsocial activity at workplace or within vicinity of work site.
- (t) Other justified reason as considered by the Engineer.
- (u) And any other fundamental breaches as specified in the Contract Data.

For the purpose of this paragraph: "corrupt practice" means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution. "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Borrower, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Borrower of the benefits of free and open competition."

59.3. When either party to the Contract gives notice of a breach of contract to the Engineer for a cause other than those listed under Sub Clause 59.2 above, the Engineer shall decide whether the breach is fundamental or not.

59.4. Notwithstanding the above, the Employer may terminate the Contract for convenience.

59.5. If the Contract is terminated the Contractor shall stop work immediately, make the Site safe and secure and leave the Site as soon as reasonably possible.

60. Payment upon Termination

- 60.1.** If the-Contract is terminated because of a fundamental breach of Contract by the Contractor, the Engineer shall issue a certificate for the value of the work done less advance payments received up to the date of the issue of the certificate, less other recoveries due in terms of the contract, less taxes due to be deducted at source as per applicable law and less the percentage to apply to the work not completed as indicated in the Contract Data. Additional Liquidated Damages shall not apply. If the total amount due to the Employer exceeds any payment due to the Contractor the difference shall be a debt payable to the Employer.
- 60.2.** If the Contract is terminated at the Employer's convenience or because of a fundamental breach of Contract by the Employer, the Engineer shall issue a certificate for the value of the work done, the cost of balance material brought by the contractor and available at site, the reasonable cost of removal of Equipment, repatriation of the Contractor's personnel employed solely on the Works, and the Contractor's costs of protecting and securing the Works and less advance payments received up to the date of the certificate, less other recoveries due in terms of the contract and less taxes due to be deducted at source as per applicable law.

61. Property

- 61.1.** All materials on the Site, Plant, Equipment, Temporary Works and Works are deemed to be the property of the Employer, if the Contract is terminated because of a Contractor's default., till the Works is completed after which it will be transferred to the other Contractor and credit, if any, given for its use

62. Release from Performance

- 62.1.** If the Contract is frustrated by the outbreak of war or by any other event entirely outside the control of either the Employer or the Contractor the Engineer shall certify that theContract has been frustrated. The Contractor shall make the Site safe and stop work as quickly as possible after receiving this certificate and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which commitment was made.
- 62.2.** Death or permanent invalidity of the Contractor: The Contractor shall indicate his/her nominee for the Contract at the time of signing of Agreement. If a Contractor dies during the currency of the Contract or becomes permanently incapacitated, and his/her/her nominee are not willing to complete the Contract, the Contract shall be closed without levying any damages/compensation as provided for in clauses 49 and 60 of GCC.

However, if the nominee expresses his/her intention to complete the balance work and the competent authority is satisfied about the competence of the nominee, then the competent authority shall enter into a fresh agreement for the remaining work strictly on the same terms and conditions, under which the Contract was initially awarded.

F.Other Condition of Contract

63. Labour

The Contractor shall, unless otherwise provided in the Contract, make his own arrangements for the engagement of all staff and labour local or other, and for their payment, housing, feeding and transport.

The Contractor shall, if required by the Engineer, deliver to the Engineer a return in detail, in such form and at such intervals as the Engineer may prescribe, showing the staff and the numbers of the several classes of labour from time to time employed by the Contractor on the Site and such other information as the Engineer may require.

64. Compliance with Labour Regulations:

During continuance of the contract, the Contractor and his sub-contractors shall abide at all times by all existing labour enactments and rules made thereunder, regulations, notifications and bye laws of the State or Central Government or local authority and any other labour law (including rules), regulations, bye laws that may be passed or notification that may be issued under any labour law in future either by the State or the Central Government or the local authority. Salient features of some of the major labour laws that are applicable to construction industry are given below. **The Contractor shall keep the Employer indemnified in case any action is taken against the Employer by the competent authority** on account of contravention of any of the provisions of any Act or rules made thereunder, regulations or notifications including amendments. If the Employer is caused to pay or reimburse, such amounts as may be necessary to cause or observe, or for non-observance of the provisions stipulated in the notifications/bye laws/Acts/Rules/regulations including amendments, if any, on the part of the Contractor, the Engineer/Employer shall have the right to deduct any money due to the Contractor including his amount of performance security. The Employer/Engineer shall also have right to recover from the Contractor any sum required or estimated to be required for making good the loss or damage suffered by the Employer.

The employees of the Contractor and the Sub-Contractor in no case shall be treated as the employees of the Employer at any point of time.

65. SALIENT FEATURES OF SOME MAJOR LABOUR LAWS APPLICABLE TO ESTABLISHMENTS ENGAGED IN BUILDING AND OTHER CONSTRUCTION WORK.

- a) Workmen Compensation Act 1923 : - The Act provides for compensation in case of injury by accident arising out of and during the course of employment.

- b) Payment of Gratuity Act 1972 :- Gratuity is payable to an employee under the Act on satisfaction of certain conditions on separation if an employee has completed five (5) years' service or more on death, the rate of 15 days wages for every completed year of service. The Act is applicable to all establishments employing 10 or more employees.
- c) Employees P.F. and Miscellaneous Provision Act 1952 : The Act Provides for monthly contributions by the employer plus workers @ 10% or 8.33%. The benefits payable under the Act are:
 - (i) Pension or family pension on retirement or death, as the case may be.
 - (ii) Deposit linked insurance on the death in harness of the worker.
 - (iii) Payment of P.F. accumulation on retirement/death etc.
- d) Maternity Benefit Act 1951:- The Act provides for leave and some other benefits to women employees in case of confinement or miscarriage etc.
- e) Contract Labour (Regulation & Abolition) Act 1970:- The Act provides for certain welfare measures to be provided by the Contractor to contract labour and in case the Contractor fails to provide, the same are required to be provided, by the Principal Employer by Law. The Principal Employer is required to take Certificate of Registration and the Contractor is required to take license from the designated Officer. The Act is applicable to the establishments or Contractor of Principal Employer, if they employ 20 or more contract labour.
- f) Minimum Wages Act 1948 :- The Employer is supposed to pay not less than the Minimum Wages fixed by appropriate Government as per provisions of the Act, if the employment is a scheduled employment. Construction of Buildings, Roads, Runways are scheduled employments.
- g) Payment of Wages Act 1936:- It lays down as to by what date the wages are to be paid, when it will be paid and what deductions can be made from the wages of the workers.
- h) Equal Remuneration Act 1979 :- The Act provides for payment of equal wages for work of equal nature to Male and Female workers and for not making discrimination against Female employees in the matters of transfers, training and promotions etc.
- i) Payment of Bonus Act 1965:- The Act is applicable to all establishments employing 20 or more employees. The Act provides for payments of annual bonus subject to a minimum of 8.33% of wages and maximum of 20% of wages to employees drawing Rs.3500/-per month or less. The bonus to be paid to employees getting Rs.2500/- per month or above upto Rs.3500/- per month shall be worked out by taking wages as Rs.2500/-per month only. The Act does not apply to certain establishments. The newly set-up establishments are exempted for five years in certain circumstances. Some of the State Governments have reduced the employment size from 20 to 10 for the purpose of applicability of this Act.
- j) Industrial Disputes Act 1947 :- The Act lays down the machinery and procedure for resolution of Industrial disputes, in what situations a strike or lock-out becomes illegal and what are the requirements for laying off or retrenching the employees or closing down the establishment.

- k) Industrial Employment (Standing Orders) Act 1946 :- It is applicable to all establishments employing 100 or more workmen (employment size reduced by some of the States and Central Government to 50). The Act provides for laying down rules governing the conditions of employment by the Employer on matters provided in the Act and get the same certified by the designated Authority.
- l) Trade Unions Act 1926:- The Act lays down the procedure for registration of trade unions of workmen and employers. The Trade Unions registered under the Act have been given certain immunities from civil and criminal liabilities.
- m) Child Labour (Prohibition & Regulation) Act 1986 :- The Act prohibits employment of children below 14 years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. Employment of Child Labour is prohibited in Building and Construction Industry.
- n) Inter-State Migrant workmen's (Regulation of Employment & Conditions of Service) Act 1979 :- The Act is applicable to an establishment which employs 5 or more inter-state migrant workmen through an intermediary (who has recruited workmen in one state for employment in the establishment situated in another state). The Inter-State migrant workmen, in an establishment to which this Act becomes applicable, are required to be provided certain facilities such as housing, medical aid, travelling expenses from home upto the establishment and back, etc.
- o) The Building and Other Construction workers (Regulation of Employment and Conditions of Service) Act 1996 and the Cess Act of 1996 :- All the establishments who carry on any building or other construction work and employs 10 or more workers are covered under this Act. All such establishments are required to pay cess at the rate not exceeding 2% of the cost of construction as may be modified by the Government. The Employer of the establishment is required to provide safety measures at the Building or construction work and other welfare measures, such as Canteens, First-Aid facilities, Ambulance, Housing accommodations for workers near the work place etc. The Employer to whom the Act applies has to obtain a registration certificate from the Registering Officer appointed by the Government.
- p) Factories Act 1948 :- The Act lays down the procedure for approval of plans before setting up a factory, health and safety provisions, welfare provisions, working hours, annual earned leave and rendering information regarding accidents or dangerous occurrences to designated authorities. It is applicable to premises employing 10 persons or more with aid of power or 20 or more persons without the aid of power engaged in manufacturing process.

65. Provision of vehicle

Contractor have to provide one vehicle in good condition of hard top of make not before two years in proper running condition with maintenance of vehicle, allPOL and driver with valid license to the Department/Authority for which no extra payment will be made to Contractor during execution of the work.

66. Drawings and Photographs of the Works

- a. The Contractor shall do photography/video/drone photography of the site firstly before the start of the work, secondly mid-way in the execution of different stages of work and lastly after the completion of the work. No separate payment will be made to the Contractor for this.
- b. The Contractor shall not disclose details of Drawings furnished to him and works on which he is engaged without the prior approval of the Employer in writing. No photograph of the works or any part thereof or plant employed thereon, except those permitted under clause 58.1, shall be taken or permitted by the Contractor to be taken by any of his employees or any employees of his sub-Contractors without the prior approval of the Employer in writing. No photographs/ Video photography shall be published or otherwise circulated without the approval of the Employer in writing.
- c. **The Apprentices Act, 1961**-The Contractor shall duly comply with the provisions of the Apprentices Act, 1961 (III of 1961), the rules made there under and the orders that may be issued from time to time under the said Act and the said Rules and on his failure or neglect to do so, he shall be subject to all liabilities and penalties provided by the said Act and said Rules.

Part-II-SPECIAL CONDITIONS OF CONTRACT

67. Green technologies

(Nagar Nigam can add more green technology clauses below as required and can remove the technology not required in their respective Nagar Nigam)

67.1 RECYCLING OF BITUMINOUS PAVEMENTS

Recommended practice for recycling of bituminous pavements as per IRC 120: 2015

67.2 CEMENT GROUTED BITUMINOUS MIX

Flexible pavements are the most common types of pavement used for highways in India and rest of the world. Bituminous wearing course of such pavements often suffer wet weather damage which gets aggravated in cities due to flooding during monsoon. The pavements at traffic intersections, parking places and bus stops are noticeably damaged due to frequent braking action and fuel spillage. So, there arises a need for durable wearing course which is (i) strong enough to resist braking and accelerating effect of traffic (ii) fuel resistant (iii) impervious to water and (iv) moisture resistant. Research at IIT Kharagpur and at CSIR-CRRI has shown that open graded bituminous layer grouted with a cementitious grout can form a durable wearing course. Some other research Institute had developed similar product which has been used at a few locations in Kharagpur, Surat and Amravati. Flexible and Rigid pavements are common in India and now composite pavements are emerging.

The present guidelines deal with the design, preparation and application procedure for CGBM to be laid over bituminous surface. Almost single graded bituminous mix (having voids more than 25% which is more than the voids in traditional dense graded bituminous mixes) is paved and grouted with cement grout as under:

i) Mixed with optimum dose of bituminous binder (sometimes fibers may be added to prevent drain down) (ii) paved over a base (iii) compacted to design density (iv) filled with cementitious grout slurry (sufficiently flowable cement grout is applied on the compacted surface). This cement grout is primarily prepared by mixing suitable proportions of cement, fine sand and water. Other materials like fly ash, micro silica, super plasticizers, fibres etc. may be adequately and suitably added in order to improve the grout flowability and strength of grout.

CGBM is to be generally used as surface layer, but it also has potential to be used as base course

FOLLOW IRC:SP:125-2019 GUIDELINES FOR CEMENT GROUTE BITUMINOUSMIX SURFACING FOR URBAN ROADS.

67.2 WASTE PLASTIC ROADS

Use of Waste Plastics in Road Construction

Dry Process: In Dry process, shredded waste plastics are used as coating material for aggregates. Heated stone aggregate (170°C) coated with waste plastic is mixed with hot bitumen (160°C) and the mix is used for road laying.

The aggregate when coated with plastics improved its quality with respect to voids, soundness and moisture absorption and decreases porosity and thus the performance of the pavement is increased.

Wet Process: Plastic waste is ground and made into powder. Powdered plastic waste is added to the bitumen at 160°C. High shear blender is required to prepare plastic modified bitumen and specific chemical treatment may be required to restrict the phase separation.

IRC:SP:98-2013- GUIDELINES FOR THE USE OF WASTE PLASTIC IN HOT BITUMINOUS MIXES (DRY PROCESS) IN WEARING COURSES

67.3 CONVENTIONAL AND THIN WHITE TOPPING

White-topping is defined as a Portland Cement Concrete (PCC) overlay constructed on the top of an existing bituminous pavement. White-topping is thus PCC resurfacing (overlay) as a rehabilitation or structural strengthening alternative on bituminous pavement. The PCC overlay may or may not be bonded to the layer below.

White-topping on existing bituminous pavements provides many additional benefits as compared to conventional bituminous overlay alternative. Some of the benefits are:

- Long life, low maintenance, low life-cycle cost, improved safety and environmental benefits.
- Bituminous overlays exhibit a more rapid loss of serviceability as compared to concrete white-topping at some critical locations. The lives of successive bituminous overlays become progressively shorter after the first overlay.
- Deformation like rutting and cracking predominant in case of bituminous pavements is normally absent with concrete surfaces of white-topping. This is particularly true in a hot climate like India.
- Conventional White-topping improves structural capacity of existing bituminous pavement, if built on a strong base course, and it impedes structural distresses.
- White-topping requires much less maintenance and as such involves much less frequent lane closures of road, as compared to bituminous surfaces.
- White-topping is quite cost-effective to tackle annual budget constraints and high traffic levels. It is, therefore, quite relevant to Indian conditions.
- White-topping can uniformly fill ruts in the wheel path of bituminous pavements more effectively because concrete is far more stiff and consistent at high temperature than bituminous mixes. Broadly, for similar reasons, the occurrence of cracks is also relatively much less in case of white-topping.
- Concrete is relatively light in colour and hence concrete surface is more reflective to light, absorb less heat and reduce the urban heat island effect. Improved reflection of lights from

vehicles enhances safety, lowers energy requirement of external lighting, lower contribution to heat in environment.

- Fuel consumption on concrete roads has been found to be less than the bituminous roads

FOLLOW IRC:SP:76-2015-GUIDELINES FOR CONVENTIONAL AND THIN WHITETOPPING.

Any other technology accredited by IRC may be considered as green technology for the similar work experience under Section 1 ITB, Cl. 4.5.

- 68.** Contractor shall procure Bitumen from the Government approved refinery and shall produce the original C.R.C issued by the refinery at the time of claiming the payment for bitumen along with the bill.

SECTION 4:- CONTRACT DATA

CONTRACT DATA

Clause Reference
with respect
to section3

{Note for Procuring Entity: Text in grey italics font within square bracket [e.g., Mention ...] are just suggestions/ directions and must be replaced by applicable text - remove brackets and convert the font to regular and black. Delete the rows not required. Clauses other than those mentioned below may also be mentioned, if these need to be changed}

Note for Bidders: Following Special Conditions of Contract (SCC) shall apply for this procurement. These Special Conditions shall modify/ substitute/ supplement the corresponding (GCC) clauses as indicated below. Whenever there is any conflict between the provision in the GCC and that in the SCC, the provision contained in the SCC shall prevail.

Condition of Contract Clause No.	Topic	Conditions
[Cl.1.1]	The Authority/Employer	<i>Meerut Municipal Corporation: Name: Address: Telephone No. (office) Facsimile(FAX) no. E-mail ID : nnmee@niic.in Name of authorized Representative (Will be intimated later)]</i>
[Cl.1.1]	The Engineer	<i>Position: Chief Engineer Telephone No. (office) ; 8395881010 Facsimile(FAX) no. E-mail ID : Address : Nagar Nigam, Meerut Name of authorized Representative (if any)]</i>
[Cl.1.1]	The Dispute Review Expert appointed by the Authority	<i>Position:Municipal Commissioner Name of authorized Representative (if any)]</i>
[Cl.1.1]	The site is located	<i>Within District- Meerut</i>
[Cl.1.1&35]	The substation Engineer in Charge	<i>Position: Name of authorized Representative (if any)]</i>
[Cl.1.1&35]	Defects Liability Period	<i>5Year from the date of Completion of Work</i>

[Cl.1.1&35]	Routine Maintenance Period	5 Year from the date of Completion of Work	
[Cl.1.1&35]	Period for Joint Inspection	1 Month or as per requirement assessed by the Engineer/Authority	
[Cl. 27.3]	The amount to be withheld for late submission of an updated programme	5 lakhs	
[Cl.1.1]	Start Date	7 days from the date of issue of the Notice to proceed with the work.	
[Cl.1.1, 17&28]	Intended Completion Date	Work is as per time given in NIT after the start of work	
[Cl.2.2 & 49.1]	Milestones (physical works):	<p>Milestone 1 i.e. 1/8 of Estimated Cost : 1/4 of Project duration.</p> <p>Milestone 2 i.e. 3/8 of Estimated Cost : 1/2 of Project duration</p> <p>Milestone 3 i.e. 3/4 of Estimated Cost : 3/4 of Project duration</p> <p>Milestone 4 i.e. Total Estimated Cost : As on Project duration</p>	
[Cl. 1.1]	The Site	[Fill]	
[Cl. 1.1]	The name and identification number of the Contract	[Fill]	
[Cl. 1.1]	The works consist of	the works shall, inter alia, include the following, as specified in Section V or as directed by the Authority	
[Cl. 3.1]	The law which applies to the Contract	Law of Uttar Pradesh Government	
[Cl. 3.1]	The language of the Contract documents	English	
[Cl. 3.2]	The language for the formal correspondences	Hindi and English	
[Cl. 7.1]	Limit of subcontracting	Deleted	
[Cl. 9]	The Schedule of Key Personnel	As per Annex.-II to Section I	
[Cl. 13.1]	Item	Amount to be insured	Deductibles
	A.Lossofordamagetotheworks, plants and materials	10%ofcontractvalue	Deductibles for insurance shall be as per latest tariff of General Insurance
	B. Lossofordamageto equipment	2.5%ofcontract value	
	C. Loss of or damage to property (except the works, plant, Materials, and Equipment) in connection	1%ofcontractvalue	

	with the contract			Company of India plus 20% of premium amount for items A, B, C & D
	D. Personal injury or death	Up to contract value Rs. 2 Crores	Rs. 2 lacs per occurrence for maximum three occurrences	
		For contract value more than Rs. 2 Crores	Rs. 2 lacs per occurrence for maximum six occurrences	
[Cl. 13.7.a]	Item	Amount to be Insured		Deductibles
	Personal injury or death	Rs. 2 Lacs for one occurrence per year		Deductibles shall be as per latest tariff of General Insurance Company of India plus 20% of the premium amount
[Cl. 21]	Site Possession Date	Date of issue of notice to proceed with the work		
[Cl. 26]	Appointing Authority for the Dispute Review Expert	Employer		
[Cl. 27.1]	The period for submission of the programme for approval of Engineer	10 days from the issue of Letter of Acceptance		
[Cl. 27.3]	The period between programme updates	One Month [may be amended as per requirement]		
[Cl. 27.3]	The amount to be withheld for late submission of programme shall be	Rs 10,000/- (Ten thousand) per day for contract value upto 2 Cr. And Rs 20,000/- (twenty thousand) per day for contract value above 2 Cr.		
[Cl. 40.1]	No increase in rates of any items specified in Bill of Quantities is allowed due to variation in quantities.			
[Cl. 43.4]	The authorized person to make payment is	[Fill the name of Engineer]		
[Cl. 44]	The following events shall also be Compensation Events:	• Removal of underground utilities detected subsequently (Remove if not mentioned in bidding document)		

		<ul style="list-style-type: none"> • Significant change in classification of soil requiring additional mobilisation by the contractor, e.g. ordinary soil to rock excavation, • Removal of unsuitable material like marsh, debris dumps, etc not caused by the contractor • Artesian conditions • Seepage, erosion, landslide • River training requiring protection of permanent work • Presence of historical, archeological or religious structures, monuments interfering with the works • Restriction of access to ground imposed by civil, judicial, or military authority
[Cl. 46]	The currency of the Contract	Indian Rupees
[Cl. 48]	The proportion of payments retained (retention money)	5% from each bill subject to a maximum of 5% of final contract price.
[Cl. 49]	<u>Amount of liquidated damages for delay in completion of works</u>	Amount of liquidated damages for delay in completion of works for 0.1% of Whole of work of the Initial Contract Price per week, rounded off to the nearest Thousand, per week.
[Cl. 49]	Maximum limit of liquidated damage for delay in completion of work.	<u>10%</u> After 10% the bond will be terminated and securities will be forfeited and the works will be executed on the risks & cost of the contractor.
[Cl. 51 & 52]	Amounts of the advance payment	Yes (The advance payment will be paid to the Contractor no later than 28 days after fulfillment of the below conditions). <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>i. Mobilization</p> <p>5% of the Contract price</p> <p>On submission of unconditional Bank Guarantee, (to be drawn before the end of 20% of Contract period). The contractor may furnish four bank guarantees of 2.5% each, valid for full period.</p> </div> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>ii. Equipment</p> </div>

		<p>90% for new and 50% of depreciated value for old equipment. Total amount will be subject to a maximum of 10% of the Contract price.</p> <p>After equipment is brought to site (provided the Engineer is satisfied that the equipment is required for performance of the contract) and on submission of unconditional Bank Guarantee for amount of advance.</p>	
		iii. Deleted	
[CI. 51]	Repayment of advance payment for mobilization and equipment:	<p>The advance loan shall be repaid with percentage deductions from the interim payments certified by the Engineer under the Contract. Deductions shall commence in the next Interim Payment Certificate following that in which the total of all such payments to the Contractor has reached not less than 20 per cent of the Contract Price or 6 (Six) months from the date of payment of first instalment of advance, whichever period concludes earlier, and shall be made at the rate of 20 per cent of the amounts of all Interim Payment Certificates until such time as the loan has been repaid, always provided that the loan shall be completely repaid prior to the expiry of the original time for completion pursuant to Clauses 17 and 28.</p> <p>The advance would be deemed as interest bearing advance at an interest rate of 10% to be compounded quarterly</p>	
[CI. 51.4]	Secured Advance	No Secured Advances will be given.	
[CI. 52]	The Securities shall be for the following minimum amounts equivalent as a percentage of the Contract Price:	<p>Performance Security for 5 per cent of contract price plus Rs.....</p> <p>..... (to be decided after evaluation of the bid) as additional security in terms of ITB Clause 29.5.</p> <p>The standard form of Performance Security acceptable to the Authority shall be an <u>unconditional</u> Bank Guarantee of the type as presented in Section 8 of the Bidding Documents</p>	
[CI. 58]	Schedule of Operating and Maintenance Manuals	<u>[As ascertained in SOP and maintenance manual]</u>	
[CI. 58]	The date by which "as-built" drawings (in scale as directed) in 2 sets are required	Within 28 days of issue of certificate of completion of whole or section of the work, as the case may be.	

[Cl. 58]	The amount to be withheld for failing to supply "as built" drawings by the date required	Deleted.
[Cl. 59.2]	The period for setting up a field laboratory with the prescribed equipment is 7 (Seven) days from the days from the date of notice to start work.	
[Cl. 59.2]	The period for to deploy machinery & Equipment or personnel is 7 (Seven) days from the days from the date of notice to start work	
[Cl. 59.2]	The following events shall also be fundamental breach of contract	The Contractor has contravened Sub-clause 7.1 and Clause 9 of GCC
[Cl. 60]	The percentage to apply to the value of the work not completed representing the Authority's additional cost for completing the Works	20 per cent

4. Routine Maintenance during five years after the Completion Date is defined in SOP and maintenance manual:

- (i) Deleted.
- (ii) Deleted.
- (iii) Deleted.
- (iv) Deleted.
- (v) Deleted.

(Note: A periodical renewal is not part of routine maintenance).

- (vi) The periodicity of routine maintenance activities shall be as follows, this is for guidance only,
however, road is to be maintained in serviceable condition all the time and payment is performed based, as per performance evaluation and marks obtained.
Routine Maintenance Activities and their frequency with performance index (PI) – Bituminous Road/ Cement Concrete Roads/ Paver Block Road.

Performance Index (PI) Table

Sl.No.	Name of Item/ Activities	Frequency of operation in a year	Bituminous Road/ Cement Concrete Roads/ Paver Block Road
1.	Maintenance of Travel Lane	As mentioned in SOP and maintenance manual	30
2.	Maintenance of Street lighting & Maintenance of Landscape features	As mentioned in SOP and maintenance manual	15
3.	Maintenance of Storm water drains	As mentioned in SOP and maintenance manual	10
4.	Maintenance of Footpath and cycle track	As mentioned in SOP and maintenance manual	10
5.	Maintenance of power line (underground electrification)	As mentioned in SOP and maintenance manual	10
6.	Maintenance of Road signs & markings	As mentioned in SOP and maintenance manual	10
7.	Maintenance of (other) Utilities	As mentioned in SOP and maintenance manual	5
8.	Maintenance of Street furniture & Bus shelters	As mentioned in SOP and maintenance manual	5
9.	Maintenance of Bridges, culverts, structures	As mentioned in SOP and maintenance manual	5
Total			100

Note: Maintenance of Utilities refers to civil work of all utilities constructed by the contractor except storm water.

MAINTENANCE MANUAL

1. Maintenance of Travel lane

- a. Maintenance of **Bituminous road** shall be as per IRC SP 82:2015 (as per the latest revision)
- b. Maintenance of **Cement road/PQC/CC** shall be per IRC 83: 2018 (as per the latest revision)
 - i. **Thin white topping** shall be as per IRC SP:076

2. Maintenance of Storm water shall be as per Manual on storm water drainage systems Volume-II Pat B: Operation and Maintenance by Central Public Health and Environment Engineering Organization (CPHEEO), by MoHUA , May 2019 (or as per latest revision)

3. Maintenance of Sewer shall be as per Manual on Sewerage and Sewage treatment systems Part B: Operation and Maintenance, by MoHUA, 2013 (or as per latest revision)

4. Maintenance of footpath

- a. Maintenance of paver block/interlocking concrete block shall be as per IRC:SP 63 (latest edition)
- b. Maintenance of Cobble stone / white topping shall be as per relevant IRC

5. Maintenance of Street Light shall be as per National Lightning code 2025 (or as per latest edition)

6. Maintenance of Power line (Underground/Overhead) shall be as per IS 1255,IS 7098,IS 3043, Electricity Act 2003 (UPPCL practice) or any relevant IS/guidelines/act issued by competent authority.

7. Maintenance of landscape shall be as per Urban Road Manual Published by PWD, Government of Delhi & as per relevant IRC/guidelines circulated by competent authority.

Maintenance of Traffic Signs & Road Marking shall be as per IRC 67 (latest edition) & IRC 35 (latest edition) and any other IRC related to this.

This page has been intentionally left blank.

SECTION 5:- SCOPE OF WORK & TECHNICAL SPECIFICATION

1. Project Background

Urban areas are known as the growth engines of the country. Uttar Pradesh has the highest number of urban bodies in India. The state is committed to achieve the target of "One Trillion Economy" by the year 2027 by strengthening the basic infrastructure, especially the urban basic infrastructure and enhance "Ease of Doing Business" and "Ease of Living". Roads are the most vital component of urban basic infrastructure. Most of the commercial and economic activities are conducted along the roads. Hence, integrated road network becomes one of the prime components of urban basic infrastructure. Due to increasing urbanization in the State, there is a great need to develop and enhance an integrated road network using innovative technology to reduce the burden of extra vehicles on the roads and to bring enhanced mobility in the means of transport. In the given context and to promote social and economic development in the State and encourage economic autonomy in ULBs through the development of roads, an incentive-based scheme "Chief Minister-Green Road Infrastructure Development Scheme- Urban (CM-GRIDS)" has being launched by the Urban Development Department. CM GRIDS aims to make the existing "Urban Road Improvement Scheme" being implemented from 2013-14, more effective. In urban areas, the development of roads of 45 meters or more width is generally done by the Public Works Department in the form of National Highway and State Highway and the development of roads of less than 10 meters width is done by the Finance Commission, Mukhyamantri Nagar Srujan Yojana (C M NSY) and Pt. Deen Dayal Upadhyaya Nagar Vikas Yojana etc. are done by the urban bodies as a component, but there is no dedicated plan for the development of roads between 10 m to 45 m wide , while the roads of the said width are the main routes of urban traffic and economic activities.

2. Scope of Work

Scope of work includes applying the design principles, objective and expected outcomes illustrated in drawings. The implementing agency (i.e contractor) shall review the design and details for betterments or improvements if any which may be incorporated to better achieve the employer's goals and objectives. These betterments, if any, shall be submitted by the Implementing Agency to the Employer for review and for the approval before the commencement of on ground working stage.

The Implementing Agency must make itself aware of general and specific site conditions, topography and any existing landscape prior to commencement of any works on site. The on-site execution scope of work comprises of preparation of detailed engineering design execution drawings, full, final and entire installation and completion of road works to a 'best practice standard' for such works, (inclusive of road surface, road section elements, Land scape, soft-scape, smart bus stops, street furniture, signage and street lighting) and

associated landscape services (levelling, drainage etc.) based on the proposal design developed by the Employer (Nagar Nigam, Meerut) and the good for construction drawings provided by them. The implementing agency shall ensure the handing over of the same in full accordance with the Employer's requirements.

The broad scope of works shall be as described below,

- i. GPR Survey (Ground penetrating radar), road survey report, traffic diversion plan, above ground utility shifting plan and invert levels of SWD (Storm Water Drain) pipes.
- ii. Dismantling of existing Infrastructure including divider, footpaths, traffic island, Kerbs, drainage, road furniture, existing OH/UG distribution power line, poles, conductor, hardware and transformers etc. which are fouling in the proposed work area. However, Meerut Nagar Nigam will clear any encumbrances or encroachment and provide the full or partial area before start of dismantling to execute the work.
- iii. Removal/Replantation of trees if required.
- iv. Twice the number of trees to be planted with respect to the number of trees to be removed. It is subjected to the latest compliance with NGT of any other Govt. Orders in this regard.
- v. Dispose of the dismantled materials to the location indicated by Meerut Nagar Nigam.
- vi. Relaying of flexible / rigid pavement as per details provided in the design drawings and bill of quantities (BOQ) and as per the directions of the engineer in charge.
- vii. Construction of Footpaths.
- viii. Construction of intersections/Raised Pedestrian Crossings.
- ix. Providing Landscaping including the street furniture, tiling,grating,painting etc.,
- x. Providing Road Signage Boards including signage markings.
- xi. Constructions of Storm waters system as per the Final drawing.
- xii. Construction of DWC /HDPE/ Trench (for power line), Otherpipes laying both sides along the road as per Final drawing.
- xiii. Foundation and installation for Transformers, laying XLPE cable, Poles, Feeder Pillars and other Hardware Fittings etc. as per the requirements of the design and as per direction of Engineer in Charge and must coordinate with the concerned electricity urban distribution circle or division/ contractor appointed by said department for the shifting of electrical utility lines.
- xiv. Supply and Laying of Pipes for Road Crossings.
- xv. Provision of Earthling system.
- xvi. Supply and Laying of HT/LT underground distribution power line cable in duct/crossing pipes including but not limited to street lighting/Landscaping/footpath/cycle track etc.
- xvii. Deleted.

xviii. Supply, installation, testing, and commissioning of H-poles with all associated accessories, HT/LT cables, transformers, RMUs, compact switchgear, feeder pillars, cable terminations with termination kits, and a complete new overhead/underground distribution power line, as approved by the **Directorate of Electrical Safety, U.P. Government.**

xix. Utility Shifting.

a. The Shifting of the overhead/ underground utilities including Power Distribution Line Pole, Electric Pole, Light Pole, Transformer, Signal Pole, Camera Pole, Sign Board, OFC, Trees, Telephone Pole, Manhole, Trench, High Mast, Electric Junction Box, Telephone Box, Solar Light Pole, Water Pump, Tower as required and specified in BOQ and drawings and as per the direction of Engineer in Charge.

A. Road, Footpath and Allied works

- i. The cross section for the Integrated Development and Upgradation work of Road from Gol Mandir Via Bholeshwar Mandir to P.V.S Road was determined based on traffic studies.
- ii. All roads are proposed to have pedestrian footpath. Wherever the space constraints exist, shared spaces for both are proposed.
- iii. Raised pedestrian crossings are proposed to facilitate pedestrians to cross the road. (Amend as required)
- iv. For details on existing and proposed components, please refer to **Section 9** for sections, Plans and drawings.

B. Proposed Road Network

The roads which are to be upgraded have been demarcated and provided in the below map for reference

(Give the map for reference)

C. Scope of work for utility provision

It is proposed to have **Water Supply, Sewer Line, Telecom / OFC** work below footpath as per drawings given by the authority. Where required, necessary manhole arrangement for every 50m interval (amend as per requirement of each utility) shall be provided for maintenance purpose, the schedule of **DI / CI / DWC / HDPE / Other Pipe** laying is as per design drawing.

Storm Water Drain - It is proposed to have storm water drain below road and edge of footpath as per drawings given by the authority. Necessary inlet arrangement at every **XX** m interval (Gully trap) shall be provided to collect and convey the surface water into the drain and necessary invert level, disposal point to be provided by the contractor. Manhole shall be provided at every XX m for efficient maintenance of drain.

Detailed design, levels and location of the above utilities will be provided in the Good for Construction (GFC) Drawings issued by Chief Engineer, Nagar Nigam, Meerut.

D. Scope of Work for Power Line

The contractor's scope for this package includes detailed engineering, including revisions and updates to all documents and drawings, preparation of procurement-related documents and drawings, supply, installation, testing, and commissioning of all new equipment, as well as dismantling of old materials at the site as required for electrical line work. The scope also includes liaising with URIDA, the appropriate commissioning bodies, UPPCL, the Electricity Urban Distribution Circle, and other government/statutory agencies and local authorities to obtain necessary clearances, concurrences, and approvals as per the Electricity Act 2003. For the shifting of overhead distribution power lines 33/11kV, below 11Kv (HT/LT) ST&DU to underground distribution power lines (DISCOM), the work will involve the transportation of transformer trolleys from the substation to the damaged transformer plinth/four-pole/double-pole locations, shifting and replacing the damaged transformer with a new one, and then returning the transformer trolley to the substation under the jurisdiction of the concerned Electricity Urban Distribution Division or Circle (EUDD). Additionally, the contractor will be responsible for all associated civil, structural, and architectural works related to the installation and laying of electrical equipment, foundations, erection, stringing, and electrical road crossings (ERC), as outlined in the respective sections, to ensure the completion of the project.

- A Shifting of Overhead Distribution Power Line to Underground Distribution Power Line
- Relocating a Transformer for Underground/Overhead Distribution Power Line (HT/LT).
- Relocating an Underground Distribution Power Line to a New Location (HT/LT).
- Relocating an Overhead Distribution Power Line to a New Location (HT/LT).
- Supply, installation, testing and commissioning of following equipment as per SOR, BOQ and Directorate of Electrical Safety, UP Govt.
- Supply & installation of following equipment as per SOR and BOQ.
- Excavation, Backfilling, Making of foundation & miscellaneous jobs as per SOR and BOQ.
- Installation of transformer as per instruction of concerned department.
- Inspection, Testing & Commissioning from concerned EUDD and Directorate of Electrical Safety, UP Govt.
- The contractor should see the route of line before starting construction work and satisfy him or herself to ensure that Indian Electricity Rules should be followed strictly.
- The work shall be carried out strictly in accordance with the UPPCL/EUDD/MVVNL/DVVNL/PVVNL/PUVVNL Practices RESSPO Drawings, directions of the Concerned UPPCL/EUDD/MVVNL/DVVNL/PVVNL/PUVVNL representative and prevailing Indian Electricity Rules/Acts.

- The crossing of houses and commercial buildings shall not be permitted and minimum clearance as per Indian Electricity Rules shall have to be strictly followed by the contractor.
- Deleted.
- Miscellaneous works including obtaining consents, clearance and permits.
- All charges on account of damages/ losses/ claims/ theft etc. involved under the conditions laid down above shall be borne by the contractor, if paid by the Corporation shall be recovered from the contractor's bills/ security deposit.
- Execution authority will
 - a. ion & construction, of the Purchaser supplied items.
- The conductor length up to 50m will be ensure that the material supplied by the contractor, is strictly as per technical specifications.
- After completion of work, concerning Engineer of the Nagar Nigam, will ensure that "As executed" estimate has been prepared & got sanctioned from the Competent authority.

Note:- If the overhead/under distribution power line is being shifted to a new location in a Nagar Nigam, then the Nagar Nigam should mention it project-wise_____

- (2) The quantities, rate given in Cost schedule are tentative. Contractor shall take Chief Engineer, Nagar Nigam, Meerut approval before ordering of the material.
 - a. The Contractor shall make every effort to minimize the breakages, losses and wastage during erecttreated as good and conductor length less than 50 meter will be treated as scrap/ wastage. On completion of work the contractor will return balance items over and above actually used on each line. Wastage shall also be returned either in damaged condition or otherwise, however should the necessity arise to deliver these items in excess of their permissible wastage, double the prevailing market cost of these shall be recovered from the Contractor's bills.
 - b. Rates of recovery for empty conductor drum, empty earthwire drum not returned by the Contractor to purchaser shall be double the prevailing market price at the time of actual recovery after taking into account permissible wastage.
- (3) Clearances required from the State Government and concerned Urban Local Bodies
 - a. All approvals, permits and clearances required for setting up of the Project including those required from State Government and local bodies shall be in the scope of the Bidder.

E. Pre Construction Stage

- i. The Employer shall arrange for a kick-off meeting with all the pertinent stakeholders - Traffic Police, Police, PWD, Name of Electricity Department (more department if required) etc. before the construction commencement and will obtain all necessary permissions for the construction activity.
- ii. The contractor shall submit Dismantling and Construction plan and Construction Methodology to Chief Engineer, Nagar Nigam, Meerut and get it approved prior commencing the works.
- iii. The contractor shall check the topographical survey and mark the proposed design on ground (with total station survey equipment) and immediately bring to the notice of Chief Engineer, Nagar Nigam, Meerut about the changes and variations based on site conditions with respect to the drawings provided in the tender. After acceptance and approval of the proposed changes the Chief Engineer, Nagar Nigam, Meerut will make the necessary modifications to the drawings and furnish the contractor with the final Good for Construction Drawings for execution.
- iv. Prior to commencing the demolition and construction works, the contractor shall assess the appropriate locations of all the underground utilities by using the state of the art technologies (Total Station Equipment / GPR Surveys /Test Pits etc) and mark the same on ground for approval by Chief Engineer, Nagar Nigam, Meerut.
 - a. In case there are discrepancies between the alignments of utilities shown on the drawing and those that exist on the ground, the contractor shall immediately inform the client in writing to resolve the matter Chief Engineer, Nagar Nigam, Meerut will take the necessary action for the same within 7 days from the date of letter receipt from the contractor.
- v. At no point of time, shall the contractor completely block the flow of on-going traffic. Additionally, no disruptions shall be allowed with regards to access to the properties, shops, entry/exits along the road. And no modifications may be made to the extents of the Right Of Way (ROW).
 - a. Where disruptions are unavoidable, the contractor must make necessary plans / take necessary steps to ensure minimal inconvenience (or provide alternate paths / routes) to the public and the same should be approved by Chief Engineer, Nagar Nigam, Meerut, prior to initiating the work.
- vi. Contractor shall prepare a traffic management plan and have it approved by Chief Engineer, Nagar Nigam, Meerut. The traffic management plan should clearly indicate how the traffic will be managed during the construction and have it approved by the Chief Engineer, Nagar Nigam, Meerut, Traffic Police and/or any other stakeholders as identified by Chief Engineer, Nagar Nigam, Meerut.
- vii. The contractor shall submit the safety and quality assurance, control plan within 30 days from Date of LOI to Chief Engineer, Nagar Nigam, Meerut, and have it approved.

- viii. Allotment of all lines shall be done after confirmation of availability of land for respective substation, transmission, distribution and underground cable power line. However allotment of lines for which substation land or area is available or lines which is being constructed between existing substations shall be done immediately. The work shall be started immediately after allotment of line.
- ix. Other necessary provisions of rules & regulation of Indian Govt., URIDA, UPPCL and Electricity Urban Distribution Division EUDD state government/ central government relating to navigations, railways crossings, Road and PTCC etc. are to be complied by the contractor.

F. Construction Phase

- i. Chief Engineer, Nagar Nigam, Meerut shall approve the Good for Construction (GFC) drawing, single line diagram for power line with consultation with Electricity Urban Distribution Division and furnish the same to the contractor after making necessary changes, if required, and accordingly the contractor will start the construction work within 15 days from the date of approval of GFC drawing.
- ii. Contractor shall follow all aspects of labor regulations, health and safety during the contract;
- iii. Relocation of utilities shall be done by relevant agencies like Jal Nigam etc. However, where the bidder is required to relocate the utilities, the cost of relocation shall be borne by the Nagar Nigam/ URIDA . The relocation charges shall be approved by Nagar Nigam/ URIDA as per the prevailing departmental rate plus minus the % bid rate.
- iv. Site clearing and grubbing within the Right of Way (ROW).
- v. Shifting or transplanting of trees if required.
- vi. Excavation for utilities, roadworks, and footpaths cycle tracks, landscaping, and street lighting etc. including filling / re-filling with suitable material as approved by the Engineer in Charge.
- vii. Removal of existing pavement and stack or dispose the excavated road materials as indicated by the Engineer in Charge.
- viii. All dismantled materials shall be stacked or disposed by the bidder as directed by the Engineer in Charge.
- ix. Construction storm water system including all manholes, Manholes covers, connecting to the existing lines as indicated in the drawings and specifications provided in the tender.

- x. Construction of ducts/HDPE pipes and trench for laying of HT/LT power line, OFC cables including all manholes, manhole covers, connecting to the existing lines as indicated in the drawings and specifications provided in the tender.
- xi. Construction of main carriage way, kerbs, medians, raised pedestrian crossings, intersection improvements, footpaths, landscape and road works as per drawings and specifications provided in the tender.
- xii. Supply and fixing of railing/guard rails along the median and roadsides.
- xiii. Providing thermoplastic pavement marking, pavement marker (glow studs), road furniture (signs road studs, median marker, pedestrian crossings, rumble strips, solar powered traffic blinkers, delineators);
- xiv. Provision of kerbs and road markings with thermoplastic material, Traffic signs (Informatory, Mandatory, Cautionary) with retro-reflecting sheeting, delineators and other road furniture;
- xv. Provision of Utility ducts/ RCC pipes for Road Crossings.
- xvi. Foundation for transformers, Poles, Feeder Pillars, Service Feeder Pillars etc. as per the requirements of the design and as per direction of Engineer in Charge.
- xvii. Supply and Laying of DWC/HDPE/Other pipes / duct / crossing pipes etc. as per the requirements of the design and as per direction of Engineer in Charges.
- xviii. Deleted
- xix. Survey (Preliminary & Final) for tower, transformer, electric pole, and OH/UG distribution power line location, preparation of single-line diagrams, peg marking, foundation work, installation of earthwire (if required), tack welding, including bolts and nuts, fixing of accessories, installation of hardware and insulator strings, trenching, and laying of HDPE pipes for the underground distribution power line, as well as work for both distribution and transmission lines, in coordination with the respective EUDD or substation.
- xx. Unloading and tacking delivery of all materials to be supplied by the bidders, transporting to depots, sorting and stacking them in proper storage sheds and yards provided by the contractor, safe custody of all materials.
- xxi. Tools and plants required for construction of the distribution line at various stages shall be arranged by the contractor at his own cost.

G. Post Construction Phase

- i. Clearing of site and handing over of the works;
- ii. Submission of "As Built Drawings" and other related documents to Chief Engineer, Nagar Nigam, Meerut.
- iii. Rectification of the defects in the completed works during the Defects Liability Period;
- iv. Routine and periodic maintenance in accordance with the details of maintenance activity elaborated in SOP and Maintenance manual.

- v. Soil investigation, auger, soil, metal, sand, concrete and earth resistivity test etc. whenever/wherever required by the Nagar Nigam/ URIDA/Sub-Stations.
- vi. Foundation, Erection, Stringing, Laying of XLPE cable, Operation, Maintenance, Installation testing and commissioning for overhead/underground distribution power line by Directorate of Electrical Safety, UP Govt. and EUDD.
- vii. Power Line Inspection by Directorate of Electrical Safety, UP Govt. and EUDD.
 - a. All suppliers of electricity including generating companies, transmission companies and distribution companies shall designate an Electrical Safety Officer for ensuring observance of safety measures specified under these regulations in their organization for construction, installation, operation and maintenance of all power line like- sub-stations, transmission and distribution lines.
 - b. The Electrical Safety Officer designated under sub-regulation, shall ensure periodic inspection of such construction, installation, operation and maintenance of all power line like- sub-stations, transmission and distribution lines. Get them tested and keep a record there of and such records shall be made available to the Electrical Inspector if and when required.
 - c. Plan for area of supply to be made and kept open for inspection. - (I) The licensee shall, after commencing to supply electricity, forthwith cause a plan, to be made in electronic form, of the area of supply, and shall cause to be marked there on the alignment and at the case of transmission, distribution and underground line works, the approximate depth below the surface of all the existing an electrical utility supply lines, street distributing boxes and other technical works. Duly corrected so as to show the electric supply lines, street distributing boxes and other works for the time being in position and shall also, if so required by an Electrical Inspector, cause to be made sections showing the approximate level of all his existing underground distribution line works other than service lines.
 - d. General safety requirements. Pertaining to construction, installation, protection, operation and maintenance of all electrical supply lines and apparatus.-
 - i. All electric supply lines and apparatus shall be of sufficient rating for power, insulation and estimated fault current and of sufficient mechanical strength, for the duty cycle which they may be required to perform under the environmental conditions of installation, and shall be constructed, installed, protected, worked and maintained in such a manner as to ensure safety of human beings, animals and property.
 - ii. Save as otherwise provided in these regulations, the relevant code of practice of the Bureau of Indian Standards or National. Electrical Code, if any, may be followed to carry out the purposes of this regulation and

- in the event of any inconsistency, the provisions of these regulations shall prevail.
- iii. The material and apparatus used shall conform to the relevant specifications of the Bureau of Indian Standards or International Electrical-Technical Commission and EUDD where such specifications have already been laid down.
 - iv. The contractor shall ensure that all electric supply lines, wires, fittings and apparatus belonging to him or under his control, Which are on a consumer's premises, are in a safe-condition and in all respects fit for supplying electricity and the supplier shall take precautions to avoid danger arising on such premises from such supply' lines, wires, fittings and apparatus
 - e. The line is ready for charging only after inspection by the concerned electrical urban distribution circle or division and Directorate of Electrical Safety, UP Govt. department of Energy.

H. Safety, vehicle breakdowns and accidents

The Contractor shall ensure safe conditions for the users, and in the event of unsafe conditions, lane closures, diversions, vehicle break downs and accidents, they shall follow the relevant operating procedures for removal of obstruction and debris without delay. Such procedures shall conform to the provisions of this Agreement, Applicable Laws, Applicable Permits and Good Industry Practice.

The Contractor shall promptly remove any debris from the Project Road to enable safe movement of traffic and shall report all accidents to the Chief Engineer, Nagar Nigam, Meerut and police forthwith.

I. Chief Engineer, Nagar Nigam, Meerut's right to take remedial measures

In the event the Contractor does not repair the Project Road (CM Grids Road) or any part thereof during the Defect Liability Period or fails to commence remedial works within the time provided in this document, the Chief Engineer, Nagar Nigam, Meerut shall, without prejudice to its rights under this Agreement, been titled to undertake such remedial measures at the cost of the Contractor, and to recover its cost from the Contractor.

J. Details of Roads in Chief Engineer, Nagar Nigam, Meerut to be taken up under CMGRIDS

The details of various roads that are to be undertaken under this contract are shown in the below table;

S.No	Package No.	Road Name (including from & to)	Length (KM)	Average ROW
1-	MRT/CM-Grid- 25-26/PKG-5	Integrated Development and Upgradation work of Road fromJailChungi Chauraha to Tejgarhi Chauraha Under C.M Grids Scheme	2.30	35
2-	MRT/CM-Grid- 25-26/PKG-6	Integrated Development and Upgradation work of Road from From Gandhi Ashram Chauraha to Bachcha park Chauraha Under C.M Grids Scheme	2.00	30
3-	MRT/CM-Grid- 25-26/PKG-7	Integrated Development and Upgradation work of Road from Begumpul Road Via Dr. Karoli Marg to Bachcha Park Chauraha Under C.M Grids Scheme	1.00	26

K. Drawings Design

At tender stage, Chief Engineer, Nagar Nigam, Meerut will provide the following indicative drawings & these drawings are enclosed in the RFP. However, the contractor is required to execute the work only as per the final design and Good for Construction (GFC) drawings and single line diagram for power line approved by Chief Engineer, Nagar Nigam, Meerut.

- i. Existing layout plan of roads and utilities.
- ii. Proposed layout plan of roads.
- iii. Proposed Cross section of road, storm water drainage and DWC / HDPE / other pipes / ducts for various utilities.
- iv. Single line diagram for electrical line.

SECTION 6:- FORM OF BID

FORM OF BID FOR PART I OF THE BID

Technical Qualification Part I of Bid

The Bidder shall fill in and load this form for Part I of Bid separately from the form for Part II of the Bid.

To (Name of Employer) -----, ULB ----- ,
Address [insert address] -----
Identification Number of Works: -----
Description of Works -----

Dear Sir.

1. Having read the Bidding Documents, Requirements for submission of documents in ITB Clause 12, and acceptance of provisions for Fraud and Corruption in the Bidding Document, I/we submit in attachment all documents required in the Bidding Document together with all the Affidavits regarding the correctness of information/documents for the above stated bid.

2. I/we confirm that the Bid fully complies with all the requirements including the Bid Validity and Bid Security as required and specified by the bidding documents.

3. I/we certify that the information furnished in our bid is correct to the best of our knowledge and belief.

Authorized Signatory.....

Form of Bid for Part II of the Bid

Financial Part II of Bid

The Bidder shall fill in and load this form for Part II of Bid separately from the form for Part I of the Bid

To [Name of Employer: -----]
Address [insert address] -----
Identification Number of Works: -----
Description of Works. -----

Dear Sir

1. With full understanding that Part II of our bid will be opened only if I/ we qualify on the basis of evaluation in Part I of the Bid, we offer to execute the works described above, remedy any defects therein, and carry out the routine maintenance (if any) in conformity with the Conditions of Contract, Specifications, Drawings and Bills of Quantities accompanying in Part II of the Bid.
2. This Bid and your written acceptance of it shall constitute a binding contract between us. I/ we understand that you are not bound to accept the lowest or any bid you receive.
3. I/ we undertake to commence the works on receiving the Notice to Proceed with the Work in accordance with the Contract Conditions.
4. I/we undertake to carry out the works of Routine Maintenance for five years after the completion date as per the rates offered by the Employer in the bid documents.

SECTION 7:-BILL OF QUANTITIES

BILL OF QUANTITIES Preamble

The Bill of Quantities shall be read in conjunction with the Instructions to Bidders, Conditions of Contract, Specifications and Drawings.

- 7.1 For the construction of works, the quantities given in the Bill of Quantities are estimated and are given to provide a common basis for bidding. The basis of payment will be the actual quantities of work ordered and carried out, as measured by the Contractor and verified by the Engineer and valued
- (a) at percentage rate above or below or at par of the Schedule of Rates as tendered by the Contractor in Indian Rupees.
 - (b) Where there is a discrepancy between the rate in figures and words, the rate in words will govern as explained in ITB Clause _____. [Note: delete this point if the E-tender system automatically populates the amount in words from the amount in figures].
- 7.2 For the routine maintenance of roads, there is lump sum amount for each year of maintenance for entire stretch. The payments will be based on satisfactory performance of routine maintenance activities.
- 7.3 The rates and prices tendered in the priced Bill of Quantities shall, except in so far as it is otherwise provided under the Contract, include all constructional plant, providing safety at site, adequate arrangement for dust suppression/control, labour, supervision, materials, erection, maintenance, insurance, profit, royalties, taxes and duties, together with all general risks, liabilities and obligations set out in the Contract.
- 7.4 When percentage rate tenders are invited, the Bill of Quantities will show in the bidding documents, the quantities and rates used for different items.
- 7.5 Unless it is specifically specified, Ordinary Portland Cement (OPC) Grade -43 will be used in all concrete items.
- 7.6 Materials such as cement, reinforcement steel, bitumen/modified bitumen and emulsion should be procured from approved vendor list as indicated in NHAI office memorandum issued vide Policy Circular no. 10.2.43 dated 20.2.2023.

Note: Any arithmetic errors will be corrected by the Employer.

Bill of Quantities for percentage rate bids

Note: - Bidder has to quote %age Above/Below or at par on-line at prescribed column/Row.

Sl. No.	Description of item (with brief specification and reference to book of specifications)	Quantity	Unit	Rate without GST		Amount
				In figures	In words	
	Name of road Integrated Development and Upgradation work of Road from Gol Mandir Via Bholeshwar Mandir to P.V.S Road Under C.M Grids Scheme					
	Items as per of BoQ		
Part -C	Routine Maintenance** after completion of construction works (Lump-sum Amount for each year)					
	For 1 st year	0%				0.00
	For 2 nd year	10 %				2.18 Lacs
	For 3 rd Year	20 %				4.35 Lacs
	For 4 th Year	30 %				6.53 Lacs
	For 5 th Year	40 %				8.70 Lacs
	Total				Rs.	21.76 Lacs

* The BOQ shall be made Road wise so that comparison & valuation of Expenditure is possible as per sanctioned G.O.

Name of road 2: (Length-... Km) Nagar Nigam, width of carriage way m.						
	Items as per of BoQ		
Part -C	Routine Maintenance** after completion of construction works (Lump-sum Amount for each yearPer Km.)					
	For 1st year				
	For 2nd year	0%			
	For 3rd Year	10 %			
	For 4th Year	20 %			
	For 5th Year	30 %			
		40 %			
	Total				Rs.
Name of road 3: (Length-.... Km) Nagar Nigam, width of carriage way m.						
	Items as per of BoQ		
Part -C	Routine Maintenance** after completion of construction works (Lump-sum Amount for each yearPer Km.)					
	For 1st year				
	For 2nd year	0%			
	For 3rd Year	10 %			
	For 4th Year	20 %			
	For 5th Year	30 %			
		40 %			
	Total				Rs.

**** The amount for each year should be pre-specified by the Authority and the figure inserted here before inviting the Bid. Routine maintenance rates are exclusive of GST. Employer to fill in the amount for maintenance in rate column only.**

(Signature)

Notes:

1. The Schedule of Rate is Estimated rate quoted in the BoQ.
2. Wherever there is any discrepancy between the rate entered in the Bill of Quantities and the Schedule of Rates as per Note 1 above, the rate given in the Schedule of Rates will apply.
3. For Routine Maintenance, the amount indicated by the Authority shall apply. The Bidder is required to accept these rates. Further, the payment shall be performance based.

NHAI/ Policy Guidelines/ Consultancy/ 2025
Policy Circular No.10.2.43/ 2025 dated 20th February, 2025
[Decision taken on E-Office File No. NHAI/TIC/PQ/2012-13 (Comp. No. 2232)]

Sub: SOP for Checks & Control on Quality of Factory Manufactured material/Products being used in NHAI Projects - reg.

There is importance of appropriate Quality Control of Manufactured Material/Products used in Highway Construction. Being Factory made Material, Quality of production is primarily controlled at Factory Site. Therefore, proper selection of source and test checking of 'Lots' as per IRC Guidelines/QAP is necessary and consistently need to be ensured at Field Site. Earlier, the practice of 'One-time source approval' by NHAI HQ was exercised since 2021 and list was updated from time to time. The last updated list was circulated vide OM No. NHAI/TIC/PQ/2012-13/394 dated 12.12.2023.

2. Noticing various pros and cons of the existing system of 'One-Time Source Approval' and to further improvise the System of Check & Control on Quality of Manufactured Material/Products, a Committee was constituted to examine the matter as per the direction of EC.

3. Based on the recommendation of the Committee and approval of the Competent Authority, the following has been decided:

3.1 Abolish the Current System of 'One-Time Source Approval' by NHAI HQ- The 'One-Time Source Approval List' is hereby discontinued.

3.2 A Multilevel Checks and Control Mechanism as per following is established:

3.2.1 General:

- In place of existing system of 'One-Time Source Approval' by NHAI HQ, a list of preferred Vendors/Firms for supplying Reinforcement Steel, Cement and Emulsion is attached as Annexure I. These firms may be given preference by AE/IE while considering source approval at Site and Factory visit requirement for these Firms may be dispensed with. In addition to above list, any other Manufacturer/Supplier meeting the prescribed standards can be considered for source approval as per laid down Guidelines under IRC: SP-112 for Manufactured Material/Product.
- A Standard Checklist for Factory Inspection is attached as Annexure-II (Cement, Steel & Emulsion). While considering source approval for Steel and Cement for Firms not included in the list at Annexure-I, the AE/IE shall give preference to Producers having their Integrated Plant System at one place. For Steel Manufacturers, the plants having IRF (Ladle Refining Furnace) should be given preference.
- Details of Factory-Made Material/Product being used at NHAI project is a crucial data for any decision making, therefore, a separate Datalake module for updation of details of Factory Manufactured Material/Product being used at Project Site shall be created by SRDEQ Division. All PIUs (Till establishment

- (b) ROs/PIUs shall carry out random testing of Factory produced Material/Product being used at Project for each Material/Product at least twice a year through 3rd Party Lab as mentioned above. The results of tests should be updated on Datalake as mentioned in Para-3.2.1 (iii) above. Further, in case of failure of sample separate information is to be sent to SRD&Q Division apart from uploading on Datalake. The procedure for Sampling, Testing and acceptance criteria has to be followed as per relevant BIS/IRC/MORTH specifications.
 - (c) PIUs shall ensure that Lab Equipment being procured & used at Contractor's Project Lab are from BIS certified Equipment Manufacturers (exception for non-BIS certified Equipment) and Laboratories setup by Contractor at Site should be well equipped as per IRC:SP-112. Time to time Calibrations of in-house Lab Equipment of Contractor/Concessionaire at Site as per frequency described in IRC:SP-112 or as recommended by Manufacturer (whichever is earlier) are also to be done from approved bodies along with its Record/ Calibration Certificate.
 - (d) The RO shall nominate one Officer (at least of Manager (T) Level) in each PIU as Manager (Quality) who will be Nodal for overlooking Quality related issues as specified under Para- 3.2.3 (a), (b) & (c) for the Projects under the PIU.
 - (e) In addition to above, SRD&Q Division may nominate Officials from NHAI HQ or engage some Expert Agency with approval of Member (SRD&Q) to collect the samples from Site. The Nominated Official/Agency will collect the sample from Site within 5 days of receiving direction from NHAI HQ as a Surprise Visit and testing will be done in approved Lab. In case, sample found not meeting satisfactory criteria as mentioned in BIS/MORTH, then appropriate action will be taken with the approval of Chairman, NHAI.
- 3.2.4 Till the establishment and functioning of RQO, the AE/IE shall continue to grant the source approval in accordance with the existing Norms and Guidelines set forth in Para-3.2.1 above.

4. This issues with the approval of Competent Authority.

However, the Power of Attorney provided by Bidders from countries that have signed the Hague Legislation Convention 1961 are not required to be legalised by the Indian Embassy if it carries a conforming Apostille certificate*

(Part-II)
Format for Joint Bidding Agreement for Joint Venture

(Clause 4.4, Section 1)

(To be executed on Stamp paper of 100 Rs)

THIS JOINT BIDDING AGREEMENT is entered in to on this the.....day of.....20...

AMONGST

1. {.....Limited, and having its registered office at} (here in after referred to as the **"FirstPart"** which expression shall, unless repugnant to the context include its successors and permitted assigns)

AND

2. {.....Limited, having its registered office at.....} and (here in after referred to as the **"SecondPart"** which expression shall, unless repugnant to the context include its successors and permitted assigns)

AND

3. {.....Limited, and having its registered office at} (herein after referred to as the **"ThirdPart"** which expression shall, unless repugnant to the context include its successors and permitted assigns)

The above mentioned parties of the FIRST, {SECOND and THIRD} PART are collectively referred to as the **"Parties"** and each is individually referred to as a **"Party"**

WHEREAS,

(A) [.....
"Authority" which expression shall, unless repugnant to the context or meaning thereof, include its administrators, successors, and assigns) has invited applications (the "Applications") by include its administrators, successors and assigns) has invited bids (the Bids") by its Request for Proposal No. dated(the "RFP") for award of contract for rehabilitation and augmentation of..... Project (the "Project") through an % rate bid.

(B) The Parties are interested in jointly bidding for the Project as members of a Joint Venture and in accordance with the terms and

conditions of the RFP document and other bid documents in respect of the Project, and

- (C) It is a necessary condition under the RFP document that the members of the Joint Venture shall enter into a Joint Bidding Agreement and furnish a copy thereof with the Application.

NOW IT IS HEREBY AGREED as follows:

1. Definitions and Interpretations

In this Agreement, the capitalised terms shall, unless the context otherwise requires, have the meaning ascribed thereto under the RFP.

2. Joint Venture

- 2.1 The Parties do hereby irrevocably constitute a Joint Venture (the “**Joint Venture**”) for the purposes of jointly participating in the Bidding Process for the Project.
- 2.2 The Parties hereby undertake to participate in the Bidding Process only through this Joint Venture and not individually and/ or through any other Joint Venture constituted for this Project, either directly or indirectly.

3. Covenants

The Parties hereby undertake that in the event the Joint Venture is declared the selected Bidder and awarded the Project, it shall enter into a **% rate contract** with the Authority for performing all its obligations as the Contractor in terms of the **% rate contract** for the Project.

4. Role of the Parties

The Parties hereby undertake to perform the roles and responsibilities as described below:

- (a) Party of the First Part shall be the Lead member of the Joint Venture and shall have the power of attorney from all Parties for conducting all business for and on behalf of the Joint Venture during the Bidding Process and for performing all its obligations as the Contractor in terms of the **% rate contract** for the Project;
- (b) Party of the Second Part shall be {the Member of the Joint Venture; and}

- (c) Party of the Third Part shall be {the Member of the Joint Venture.}

5. Joint and Several Liability

The Parties do hereby undertake to be jointly and severally responsible for all obligations and liabilities relating to the Project and in accordance with the terms of the RFP and the **% rate contract**, till such time as the completion of the Project is achieved under and in accordance with the **% rate contract**.

6. Share of work in the Project

The Parties agree that the proportion of construction in the **% rate contract** to be allocated among the members shall be as follows:

First Party:

Second Party:

{Third Party:}

7. Representation of the Parties

Each Party represents to the other Parties as of the date of this Agreement that:

- (a) Such Party is duly organised, validly existing and in good standing under the laws of its incorporation and has all requisite power and authority to enter into this Agreement;
- (b) The execution, delivery and performance by such Party of this Agreement has been authorised by all necessary and appropriate corporate or governmental action and a copy of the extract of the charter document and board resolution/power of attorney in favour of the person executing this Agreement for the delegation of power and authority to execute this Agreement on behalf of the Joint Venture Member is annexed to this Agreement, and will not, to the best of its knowledge:
 - (i) require any consent or approval not already obtained;
 - (ii) violate any Applicable Law presently in effect and having applicability to it;
 - (iii) violate the memorandum and articles of association, by-laws or other applicable organisational documents

thereof;

- (iv) violate any clearance, permit, concession, grant, license or other governmental authorisation, approval, judgement, order or decree or any mortgage agreement, indenture or any other instrument to which such Party is a party or by which such Party or any of its properties or assets are bound or that is otherwise applicable to such Party; or
- (v) create or impose any liens, mortgages, pledges, claims, security interests, charges or Encumbrances or obligations to create a lien, charge, pledge, security interest, encumbrances or mortgage in or on the property of such Party, except for encumbrances that would not, individually or in the aggregate, have a material adverse effect on the financial condition or prospects or business of such Party so as to prevent such Party from fulfilling its obligations under this Agreement;
- (c) this Agreement is the legal and binding obligation of such Party, enforceable in accordance with its terms against it; and
- (d) there is no litigation pending or, to the best of such Party's knowledge, threatened to which it or any of its Affiliates is a party that presently affects or which would have a material adverse effect on the financial condition or prospects or business of such Party in the fulfilment of its obligations under this Agreement.

8. Termination

This Agreement shall be effective from the date hereof and shall continue in full force and effect until Project completion (the "Defects Liability Period") is achieved under and in accordance with the **% rate contract**, in case the Project is awarded to the Joint Venture. However, in case the Joint Venture does not get selected for award of the Project, the Agreement will stand terminated in case the Applicant is not pre-qualified or upon return of the Bid Security by the Authority to the Bidder, as the case may be.

9. Miscellaneous

- 1.2 This Joint Bidding Agreement shall be governed by laws of India.

- 1.3 The Parties acknowledge and accept that this Agreement shall not be amended by the Parties without the prior written consent of the Authority.

IN WITNESS WHERE OF THE PARTIES ABOVE NAMED HAVE EXECUTED AND DELIVERED THIS AGREEMENT AS OF THE DATE FIRST ABOVE WRITTEN. SIGNED, SEALED AND DELIVERED

FORM T-6

शपथ-पत्र

समक्ष: सक्षम प्राधिकारी, नगर निगम

मैं श्री/श्रीमती उम्र वर्ष
पुत्र/पति/पत्नी श्री/श्रीमती
निवासी स्थाई पता.....
का/की निवासी हूँ। मैं शपथपूर्वक निम्न घोषण करता/करती हूँ।

राजपत्रित अधिकारी
द्वारा प्रमाणित
पासपोर्ट साइज का
नवीनतम फोटोग्राफ
चस्पा किया जाय

- मैं.....ए/बी/सी/डी श्रेणी का पंजीकृत ठेकेदार हूँ / नहीं हूँ। (विभाग द्वारा निर्गत श्रेणी सम्बन्धी प्रमाण पत्र संलग्न किया जाय) मेरे पास पर्याप्त चल और अचल सम्पत्ति है और व्यवसायिक रूप से मैं सम्बन्धित विभाग के कार्यों को पूरा करने के लिये सक्षम और समर्थ हूँ। मेरे पास आवश्यक मशीनें और उपकरण आदि भी हैं अथवा मैंने उनके संबंध में आवश्यक लीज अग्रीमेन्ट निविदा में संलग्न कर दिया है। मुझे इस कार्य का पर्याप्त अनुभव है।
- यह कि विभाग द्वारा (कार्य का विवरण लिखा जाय)
.....कार्य कराने की निविदा निर्गत की गयी है, उसके लिये मैं विभाग द्वारा निर्धारित प्रारूप पर निविदा कर रहा/रही हूँ।
- मेरे द्वारा दिये जा रहे प्रमाण पत्र, चरित्र प्रमाण पत्र/हैंसियत प्रमाण पत्र/आयकर प्रमाण पत्र/व्यापार कर प्रमाण पत्र/बिड सिक्योरिटी प्रमाण पत्र/बिड कैपिसिटी प्रमाण पत्र जमानत धनराशि आदि का प्रमाण पत्र तथा अन्य सुसंगत अभिलेख आदि मूल रूप में निविदा पत्र के साथ संलग्न कर दिये गये हैं।
- मेरा पैन नं० है।
- मेरे विरुद्ध आपराधिक मुकदमों का विवरण निम्न है—
I. मुकदमा नं०
II. धारार्यें
III. थाना
IV. जनपद
V. न्यायालय (जहां मुकदमा चल रहा है)
- मैं लोक निर्माण विभाग अथवा राज्य सरकार के अन्य विभागों/अथवा स्थानीय निकाय द्वारा ब्लैक लिस्टेड ठेकेदार की श्रेणी में नहीं आता हूँ/ आती हूँ। मैं अपराधिक गतिविधियों, माफिया तथा गैंगेस्टर गतिविधियों और संगठित अपराध करने की गतिविधियों और असामाजिक कार्यों आदि में लिप्त नहीं हूँ। मैं माफिया और अपराधी नहीं हूँ। मेरा चाल-चलन कार्य तथा आचरण उत्तम है।
- मेरे विरुद्ध किसी भी जनपद तथा प्रदेश में कोई भी मुकदमा दर्ज नहीं है।
- मैं बार कौंसिल का सदस्य नहीं हूँ।

9. यदि ठेका प्राप्त करने के पश्चात् मेरे विरुद्ध माफिया गतिविधियों/असामाजिक गतिविधियों एवं संगठित आपराधिक गतिविधियों में लिप्त होने के बारे में कोई शिकायत प्रमाणित पाई जाती है तो सक्षम अधिकारी को यह अधिकार होगा कि वह मेरा ठेका/अनुबन्ध निरस्त कर दे, इस पर मुझे कोई आपत्ति नहीं होगी। मेरे द्वारा यदि विभाग, राज्य सरकार के विरुद्ध कोई आपराधिक कृत्य किया जाता है अथवा सरकारी धन का गबन किया जाता है तो सक्षम प्राधिकारी को यह अधिकार होगा कि वह मेरे विरुद्ध आपराधिक मुकदमा नियमों के अन्तर्गत दर्ज करायेंगे।
10. मैं अनुबन्ध की शर्तों के अनुसार समय से पूरी गुणवत्ता के साथ तथा निर्धारित विशिष्टियों के अनुरूप कार्य पूरा करूँगा/ करूँगी और विभाग को पूरा सहयोग प्रदान करूँगा/ करूँगी।
11. मेरा कार्य एवं आचरण उत्तम है।
12. मैं शपथकर्ता घोषणा करता/करती हूँ कि मेरा स्थाई पता और अस्थायी पता निम्न प्रकार है—
अ— स्थाई पता (दूरभाष सहित)
ब— अस्थायी पता (दूरभाष सहित)
13. मैं शपथ पूर्वक घोषणा करता/करती हूँ कि मैं उपरोक्त पते पर रहता/रहती हूँ तथा विभाग द्वारा प्रदान किये गये कार्य को पूरा होने तक मेरे किसी भी पते में सामान्यतया कोई परिवर्तन नहीं होगा, यदि अपरिहार्य परिस्थितियों में किसी पते में परिवर्तन होता है तो इसकी सूचना मैं मुख्य अभियन्ता/नगर आयुक्त, नगर निगम और मजिस्ट्रेट/कलेक्टरको दूँगा/दूँगी।
14. मैं यह भी घोषणा करता/करती हूँ कि विभाग के जिस कार्य के लिये मेरे द्वारा ठेका लिया जा रहा है, उसके सापेक्ष चल एवं अचल सम्पत्ति का हैसियत प्रमाण पत्र जिला मजिस्ट्रेट/कलेक्टर (जनपद का नाम लिखा जाय) द्वारा प्राप्त करके प्रमाणित छाया प्रति संलग्न किया जा रहा है। यह भी घोषणा करता/करती हूँ कि इस हैसियत प्रमाण पत्र का उपयोग अन्य कार्यों के लिये नहीं किया जायेगा।
15. मैं अपनी पूर्ण जानकारी में, पूरे होश— हवास में, स्वस्थ चित्त से तथा पूरी सत्यनिष्ठा एवं स्वेच्छा से यह शपथ पत्र लिख दे रहा/रही हूँ। ईश्वर मेरी मदद करे।

शपथकर्ता का पूरा हस्ताक्षर

नोट:-

- 1- यह स्वघोषणा शपथ-पत्र ₹0 100/- (₹0 एक सौ) के Stamp paper पर नोटरी द्वारा साक्ष्यों की उपस्थिति में सत्यापित कराते हुए दिया जायेगा।
- 2- असत्य शपथ-पत्र देना एक संज्ञीन और संज्ञेय अपराध है।
- 3- संबंधित व्यक्ति द्वारा पासपोर्ट साइज का अपना फोटोग्राफ, जो राजपत्रित अधिकारी द्वारा प्रमाणित हो, शपथ पत्र के ऊपर निर्धारित स्थान पर चस्पा दिया जायेगा।

Note:- All above-mentioned 15 (fifteen) points, should be submitted in prescribed format only. Any deviation in given format will lead to non-responsiveness of the Bidder.

30	MoRTH&H 401 SI.No. 4.01	Construction of granular sub-base by providing close graded material, spreading in uniform layers with motor grader on prepared surface, mixing by mix in place method with front end loader at OMC, and compacting with vibratory roller to achieve the desired density, complete as per clause 401 (by mix in place method) i) For Grading-I Material	Cum	2105.00	3192.380952	6719962
31	MoRTH&H 406 SI.No 4.12	Providing, laying and spreading of graded stone aggregate (WMM) after mixing with water at OMC in mechanical mix plant carriage of mixed Material by tipper to site, laying in uniform single layer on sub-base/subgrade and compacting with the road roller to achieve the desired density.	Cum	975.00	3549.047619	3460321
32	MoRTH&H 502SI. No 5.1A (i)	Providing and applying primer coat with SS1 grade bitumen emulsion on prepared surface of granular Base including cleaning of road surface and spraying primer at the rate of 0.70 to 1.00 kg/sqm using mechanical means. (Prime Coat over WMM/WBM)	Cum	6500.00	46.57142857	302714
33	MoRTH&H 505 SI. No 5.04 A	Providing and laying dense graded bituminous macadam with higher capacity batch type HMP using crushed aggregates of specified grading, premixed with bituminous binder @ 4.5 per cent by weight of total mix and filler, transporting the hot mix to work site, laying with a hydrostatic paver finisher with sensor control to the required grade, level and alignment, rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction as per MoRTH specification clause No. 505 complete in all respects.	Cum	1023.75	9108.209524	9324530
34	MoRTH&H 503SI. No 5.2 (i)	Providing and applying tack coat with bitumen VG10 using emulsion pressure distributor at the rate of 0.25 kg per sqm on the prepared bituminous surface cleaned with mechanical broom.	Cum	33475.00	13.14285714	439957
35	16.57.2	Providing and laying Bituminous concrete using crushed stone aggregates of specified grading, premixed with bituminous binder and filler, transporting the hot mix to work site by tipper, laying with paver finisher equipped with electronic sensor to the required grade, level and alignment and rolling with smooth wheeled, vibratory and tandem rollers to achieve the desired compaction and density as per specification, complete and as per directions of Engineer-in-Charge.40/50 mm compacted thickness with bitumen of grade VG-30 @ 5.5% (percentage by weight of total mix) and lime filler @ 3% (percentage by weight of Aggregate) and waste plastic additive @ 8% (percentage by weight of bitumen) prepared in Batch Type Hot Mix Plant of 100- 120 TPH capacity.	cum	614.25	9248.028571	5680602
36	MR	Supply, spread to level and compact 50 to 70 mm basecourse, fine crushed aggregate from stone crusher site, keeping the design slope so as to 3:1 enable cobblestone paving following the slope	Sqm	3000.00	77.14285714	231429

27/2

37	MR	Supplying and laying to the required level 100x100x60 mm/200x200x60 mm shaped cobble stones made of granite full machine cut top anti skid in gold, grey, red and black colour as per layout design and slope for the main body of the cobble stone for the design pattern of the cobble stone of road pavement or the instructions as per Engineer - in - charge. Gold and Red colour	Sqm	1500.00	2905.714286	4358571
38	MR	Supplying and laying to the required level 100x100x60 mm/200x200x60 mm shaped cobble stones made of granite full machine cut top anti skid in gold, grey, red and black colour as per layout design and slope for the main body of the cobble stone for the design pattern of the cobble stone of road pavement or the instructions as per Engineer - in - charge. Grey and Black colour	Sqm	1500.00	2721.428571	4082143
39	MR	Supplying, filling and compacting the 10 mm space or voids between the cobble stones with fine crushed aggregates to prevent the movement of stones due to traffic and make the pavement stiff, the surface to be cleaned afterwards as per engineer in charge	Sqm	3000.00	30	90000
40	DSR 2023 16.62	Providing and applying 2.5 mm thick road marking strips (retro- reflective) of specified shade/ colour using hot thermoplastic material by fully/ semi automatic thermoplastic paint applicator machine fitted with profile shoe, glass beads dispenser, propane tank heater and profile shoe heater, driven by experienced operator on road surface including cost of material, labour, T&P, cleaning the road surface of all dirt, seals, oil, grease and foreign material etc. complete as per direction of Engineer-in-charge and accordance with applicable specifications.	Sqm	1097.5	544.16	597218
41	MR	Supplying and fixing of Yellow/ Black Rubber Rumble Strip with all necessity fittings in all complete aspects. Approved as per engineer in charge	M	262.5	282.8571429	74250
42	DSR 2023 16.83	Taking out existing CC interlocking paver blocks from footpath/ central verge, including removal of rubbish etc., disposal of unserviceable material to the dumping ground, for which payment shall be made separately and stacking of serviceable material within 50 metre lead as per direction of Engineer-in-Charge.	Sqm	5200.00	95.86666667	498507
43	MoRT&H 401 Sl.No. 4.01	Construction of granular sub-base by providing close graded material, spreading in uniform layers with motor grader on prepared surface, mixing by mix in place method with front end loader at OMC, and compacting with vibratory roller to achieve the desired density, complete as per clause 401 (by mix in place method) i) For Grading- Material	Cum	702	3192.380952	2241051
44	DSR 2023 16.90	Providing and laying tactile tile (for vision impaired persons as per standards) of size 300x300x9.8 mm having with water absorption less than 0.5% and conforming to IS:15622 of approved make in all colours and shades in for outdoor floors such as footpath, court yard, multi modals location etc., laid on 20 mm thick base of cement mortar 1:4 (1 cement : 4 coarse sand) in all shapes & patterns including grouting the joints with white cement mixed with matching pigments etc. complete as per direction of Engineer-in-Charge.	Sqm	780	1468.180952	1145181
45	16.91.2	Providing and laying factory made chamfered edge Cement Concrete paver blocks in footpath, parks, lawns, drive ways or light traffic parking etc, of required strength, thickness & size/ shape, made by table vibratory method using PU mould, laid in required colour & pattern over 50 mm thick compacted bed of sand, compacting and proper embedding/laying of inter locking paver blocks into the sand bedding layer through vibratory compaction by using plate vibrator, filling the joints with sand and cutting of paver blocks as per required size and pattern, finishing and sweeping extra sand. complete all as per direction of Engineer-in-Charge. 80 mm thick C.C. paver block of M-35 grade with approved colour design and pattern.	Sqm	1783.12	794.2666667	1416273
46	DSR 2023 26.83	Applying stamping finish to the top surface of freshly laid plain/reinforced cement concrete of specified grade in porticos, sidewalks, driveways, pool decks and open yards as per direction of the Engineer-in-Charge. The process shall include the following:- • The concrete shall be placed and screeded to the finished grade, and floated to a uniform surface by using standard finishing techniques. The approved color hardener @ 2.7 kg/sqm shall be applied evenly to the surface of the fresh concrete by the dry shake method by sprinkling in two or more shakes, floated after each shake and trowelled only after the final floating. The approved release agent @ 0.113 kg/sqm shall be applied evenly to the trowelled surface before stamping or the said release agent can be applied to the flexible polyurethane stamp moulds of approved design and in required sizes to achieve final stamped pattern. These stampings shall be placed on the surface of concrete in three to four pieces at a time and tapped gently with rammers of sufficient size & weight to leave proper stamp marks and the process repeated for the remaining concrete surface till the whole surface to be stamped is completed within the time while concrete is in plastic stage of setting. • After stamping, the curing shall be done as per manufactures specifications. After initial curing the imprinted joints shall be grouted using cement slurry mixed with color hardener as per the requirement. The surface shall be sealed by applying acrylic based sealer not less	Sqm	2470.35	555.0380952	1371138
47	5.1.2	Providing and laying in position specified grade of reinforced cement concrete, excluding the cost of centering, shuttering, finishing and reinforcement - All work up to plinth level : 1:1.5:3 (1 cement : 1.5 coarse sand (zone-III) derived from natural sources : 3 graded stone aggregate 20 mm nominal size derived from natural sources)	Cum	53.49	6582.50	352098

79	MR	Supply, and fixing of Aluminium Backed Flexible Prismatic Reflective Sheeting for road safety and delineation purposes. The sheeting shall be used to enhance visibility and safety in areas where conventional rigid signage is unsuitable due to surface irregularities or exposure to frequent impact. As per IRC:79 2019, the AFP shall be made of Yellow Type VI retro-reflective sheeting with arrow marks and thin layer of aluminium attached to the sheeting giving it strength and flexibility. The product must be tested as per the guidelines of IRC:79 2019. The sheeting shall be deployed in the following locations: <ul style="list-style-type: none"> • Roundabouts and Traffic Islands – For delineating curves and guiding vehicular flow. • Tree Trunks and Natural Obstacles – Where rigid signage cannot be mounted. • Metro Pillars and Flyover Columns – For hazard marking and visibility enhancement. • Uneven or Curved Surfaces – Including stone walls, corrugated barriers, and non-planar structures. • Median Markers and Guardrails – To improve nighttime visibility and prevent collisions. • Rural Roads and Hill Sections – Where terrain restricts standard signage installation. A Certificate of non-blacklisting is to be given by both the Converter and the AFP manufacturer stating that the firm is neither blacklisted or convicted in the past by any Govt. Departments/ Agencies/ or any Government regulatory nor there should be any current/ past litigation or judicial proceeding between the AFP manufacturer and any government Institution /agencies /regulatory in the past years. A Declaration certificate from both the	sqm	100	14142.85714	1414286

						133962293.25
136	M.R	Excavation of soil to a minimum depth of 1.5m and a maximum of 2.5m, adhering to applicable engineering standards and local regulations. This process involves the dismantling of the existing road surface (concrete/asphalt) to provide access to the underground utilities. The scope includes the systematic removal of the old 600mm diameter water pipeline and associated water service house connections, ensuring minimal disruption to adjacent structures and utilities. The scope includes the systematic removal of the old 350mm-450mm diameter water pipeline, including all associated joints and fittings, and any sluice valves present within the section of the pipeline being worked on. Proper dewatering procedures must be implemented, including bailing out any accumulated water and securing the water flow in the pipeline via temporary shut-off valves, allowing for safe and effective further works. All dismantled materials must be categorized and disposed of in accordance with environmental regulations, ensuring that unserviceable materials are transported to an approved disposal site. Safety measures include the use of appropriate trench protection systems (i.e., trench boxes, shoring), maintaining safe ingress and egress, and implementing effective traffic control measures (signage, barriers) to protect workers and the public.	Rm	1297	844.286	1095039
137	M.R	Supply and Laying of 150mm-450mm Diameter DI-K7 Pipe: This item includes the supply of 600mm diameter ductile iron K-7 pipes along with all necessary specials, such as bends, tees, reducers, and couplings, required for the effective laying of the pipeline. The installation shall be executed at a depth ranging from 1.5m to 2.5m, following the approved alignment and ensuring compliance with local engineering standards and specifications. The laying process shall encompass proper preparation of the trench, including the establishment of a stable foundation, alignment checks, and bedding material placement to ensure pipe stability and support. Careful handling and placement of the DI pipes will be performed to avoid damage during installation. Each joint must be meticulously made to ensure a watertight seal, integrating with the existing water supply system seamlessly. This includes necessary cutting, fitting, and welding or bolting as required for joint integrity. All associated works, including excavation backfill, compaction of backfill material, and restoration of road surfaces after installation, shall be performed to meet safety and engineering standards.	Rm	1297	11014.286	14285529
138	M.R	Supply and Laying of 125mm 6kg Pressure HDPE Pipe and House Service Connections: This item encompasses the supply of 6kg pressure High-Density Polyethylene (HDPE) pipes, including all necessary fittings, joints, and specials required for the installation. The pipeline will be laid at a depth of 1.5m to 2.5m, in accordance with the approved alignment and adhering to local engineering standards and specifications. The installation process will involve proper trench preparation, ensuring a stable and compliant bedding for the HDPE pipes. Each joint must be securely fused or connected using approved methods to maintain the integrity and pressure rating of the system. The scope also includes providing house service connections from the main pipeline to each property, ensuring seamless integration with the existing water supply system. This will involve cutting the HDPE pipe as necessary, installing service saddles or tees, and connecting to the house service lines, ensuring all connections are watertight and compliant with relevant standards. After the installation, pressure testing will be conducted to verify the integrity of the pipeline and connections, ensuring there are no leaks and that the system functions effectively under pressure. Any required flushing and disinfection of the pipeline must also be carried out to ensure water	Rm	1295.58347	2541.429	3292633
