Sub: Financial Evaluation of Bid.

Sir,

It has been observed during scrutinizing of tender documents and comparative statements framed by you on financial evaluation that you have entered the grand total “Bid Price” up to one paise. As transaction from bank is not up to paisa the amount so taken into consideration has no meaning. Hence, the bid price may be rounded off at grand total amount arrived at after multiplication and summing up from detailed item wise rate and quantities to nearest rupee by ignoring paise below fifty and to next rupee for amount fifty paisa or more.

Thus, in the financial bid the ranking of bidders should be made and maybe forwarded to the Govt. for placing before the tender committee.

This has come into force immediately from the date of issue of this circular.

Please circulate the contents of this circular to all E.E. / A.E.E. under your jurisdiction for necessary action.

Yours faithfully,

NOTIFICATION**

Dated Dispur the 30-07-2024

No. 530624/1: In order to enhance efficiency and economy in public procurement, the following provisions are hereby made for additional performance security in the case of bids quoting abnormally low price, in exercise of power as per Rule 30 (5) of the Assam Public Procurement Rules, 2020:

1. The Tender Inviting Authority (TIA) will indicate in the bidding documents that quality is dependent on the cost. This has to be supported by clear certification (format at Annexure X) from the Head of the Department (HoD) or Tender Accepting Authority or Officer having relevant Technical Sanction Power that any bid below estimated value put to tender shall have adverse impact on quality of the work. In such cases, the estimated value put to tender shall be mandatorily indicated in the bidding document. In such cases,

1.1. If the Bid of the successful Bidder is at a discount of more than the threshold value i.e. 10% below the estimated value put to tender, then the TIA shall seek written clarifications / justification from the bidder for quoting such price, including detailed price analysis of its bid price in relation to scope, schedule, allocation of risks and responsibilities, and any other requirement of the bid document.

1.2. If the TIA is satisfied that the bidder has substantially demonstrated its capability to deliver the contract at the offered price, the TIA shall accept the bid.

1.3. If after evaluating the justification and price analysis, TIA is not satisfied with the clarifications / justifications offered by the bidder for quoting price lower than the threshold value, the TIA shall seek additional performance security to protect against default.

1.4. The amount of additional performance security will be calculated as per the following matrix:

Sl. No.	Bid quoting financials below estimated value put to tender	Additional Performance Security (PS) to be deposited by successful bidder, over and above normal PS
i.	Between 10.01% to 15%	200% of the difference between threshold value and Bid Amount
ii.	Between 15.01% to 20%	250% of the difference between threshold value and Bid Amount
iii.	20.01% and above	300% of the difference between threshold value and Bid Amount

1.5. This additional performance security in para 1.4 above, shall be treated as part of the Performance Security.

2. In case the Tender Inviting Authority does not give any certificate, linking estimated value put to tender with that of quality of work or certificate is issued by the Authority other than that of Head of the Department (HoD) or Tender Accepting Authority or Officer having relevant Technical Sanction power, provisions of Para 1 above shall not be applicable and principle of L1 for determining Bid shall be adhered to.

3. These instructions will be applicable for procurement of works only.

4. This notification supersedes all other notifications / office orders issued by any Administrative Department with regard to treatment of Bids quoting abnormally low price.

This notification shall come into force with immediate effect.
