We are fully prepared to supply on a regular (monthly) basis to minimize the risk of near-expiry or expired stock.</p> <p>Supply of Maximum Shelf-Life Products:</p> <p>We will endeavor to supply medicines with the longest available expiry. However, since orders are often brand-specific, there may be instances where only shorter expiry batches are available.</p> <p>Undertaking for Near-Expiry Supplies:</p> <p>In cases where medicines with less than one year of expiry must be supplied due to non-availability of fresh batches, we are willing to provide a formal undertaking at the time of supply.</p> <p>We assure you of our commitment to maintaining quality and minimizing expiry-related issues. However, considering the above constraints and the undefined nature of the risk, we request you to kindly remove the said clause.</p>	No Change

38	Pravara Life Care Services	<p>We would like to bring to your kind attention that in the current tender, OTM products and miscellaneous items have been included together under a single tender process. However, we have observed that the quantity and value of miscellaneous items are comparatively very low, while the overall turnover requirement for the tender is significantly high due to the inclusion of OTM products. This creates difficulty for vendors who primarily deal in miscellaneous items, as they may not meet the high turnover criteria despite being capable of supplying quality products.</p> <p>In this regard, we humbly request you to consider either of the following: Reducing or exempting the turnover criteria specifically for miscellaneous items This will encourage wider participation, ensure fair competition, and help in procuring quality materials at competitive rates.
